News Notes.

Eleven cars of pilgrims have arrived at St. Anne de Beaupre from New York.

The North Dakota Democratic state convention has arranged a fusion with the People's party.

It is officially stated that there has not been a single case of cholera in Italy since the epidemic began.

A Victoria, B. C., despatch says more hay and grain will come down from the Fraser river valley this year than ever before.

The cholera epidemic at Teheran, Persia, has ceased. The deaths in the whole of Persia since the outbreak are estimated at 30,000, one-half of which were in Teheran.

The announcement was made in the despatches the other day that the American flag had been torn down by a crowd at the door of a Montreal theatre, and the affair gained sufficient notoriety to elicit a telegram from the Secretary of State in Washington, inquiring into the matter. The following letter from the business agent of the theatrical company, an American, who has since left Montreal, tells the whole story :

John A. Gross, Canadian Secret Service :

DEAR SIR,—Regarding the disturbance that took place at the Queen's theatre on Monday evening, a part of which was the tearing down of the American flag at the door, I beg to make the following statement :

The whole transaction was done as an advertisement in connection with the White Squadron company, and entirely devoid of an intention to cause serious trouble of any kind, but, as it seems to have given rise to considerable feeling, I am sincerely sorry that this advertising scheme was ever entered into, and regret very much that this occurrence took place.

I make this statement to you of my own free will and on condition that the government will not enter into any civil or criminal proceedings of any kind against myself or any of the members of my company.

Yours sincerely,
NEIL FLORENCE.

A Big Mistake.

The moulting season, or the season when hens shed their feathers will soon be at an end. The process is one that in certain respects debilitates and prevents hens from laying. The reason of this is that the growing of new feathers requires all the nitrogen and phosphates contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the line contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaceous or fat producing food, consequently well fed hens get very fat during the moulting. Many farmers and poultry raisers not understanding all about these things kill off their old hens because they think they have stopped laying and are fat. This is a great mistake, because if the proper material be furnished them with their food to supply the increased demand for nitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and they will continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old hens may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow a plumage quickly and commence laying early. Those who commence to use Sheridan Powder, will commence their young pullets will commence to lay at from 4 to 6 months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I. S. Johnson & Co., at 22 Custom House St., Boston, at 25 cents, contains a vast amount of information on this subject, Johnson & Co., will send postpaid, two 25 cent packs of powder and one Guide for 60 cents, or a 2½ lb can of the powder, postage or express prepaid for $1.20 and a guide free.

GRATIFYING TO ALL.—The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrates the value of the qualities on which its success is based, and are abundantly gratifying to the California Fig Syrup Company. ....

SKODA'S DISCOVERY, the Great German-American Remedy for Heart, Nerves, Liver, Kidneys, Blood. Guarantee contract with every bottle. Pay only for the good you receive. At all Druggists, $1.00 per bottle, six bottles $5.50. If you want to know about SKODA'S REMEDIES, send postal for **"Morning Light."**

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once ; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1yr

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat. in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores. ....

The Telephone Company

—OF—

P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules :—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.

ROB ANGUS,
Manager.
