

## Official Opening Tonight Of Spring Park School

This evening the official ceremonies to mark the opening of the new Spring Park School will take place, commencing at 7.30 p. m. Principal speaker for the occasion will be Malcolm MacKenzie, Director of Curriculum, of the Department of Education.

Chairman for the evening will be Ernest S. Matheson, chairman of the Board of Trustees. The proceedings will open and close with a chorus presented by students of the school.

In addition to the principal speaker, others on the platform will be: Premier A. W. Matheson; Wilson Ross, Supervisor of Schools; Keith Pickard, the architect who designed the building; the principal, Claude W. Wood; and a representative of the M. F. Schurman Co., Ltd., the contractors.

The building committee are: Gordon Rodd; Willard Burke; Elmer MacRae; O. K. Presby; S. H. Burhoe and Roy Smallman. In addition to the chairman the other member of the Board of Trustees are: George Cairns; Cletus Murphy; J. D. E. Stirling; and Francis Campbell. To these two groups, particularly the former, a great deal of credit is due, for their foresight and drive, in providing the school children of the Spring Park district with this modern house of learning.

**MAIN FLOOR COMPLETE**  
At the present only the main floor has been fully completed. Here are located eight large, airy classrooms, giving accommodation for approximately 250 students. To the left of the main entrance is the office of the principal and the teachers' room. Ample space has also been provided in this locality for the storage of instructional equipment.

Each of the classrooms is equipped with its individual cloak-room, and blackboards extend for almost the full length of the front and a side wall.

In the basement a large double classroom is being utilized as a music and projection room and also for physical recreation. When the remainder of the basement is completed, in addition to an auditorium, rooms will be provided for Home Economics and for regular studies.

The principal this morning said the completed building will give the school sufficient room to accommodate well over three hundred students. On the subject of manual training, he said that these facilities are not in the plans for present.

CLAUDE W. WOOD, principal of Spring Park School, who has held that position for the past eight years.

## Would Have British, U. S. Diplomats Quit

THORNLEY, England (AP)—Emanuel Shinwell, defence minister in the post-war Labor government, said Thursday night Britain and the United States should ask their chief diplomats to resign.

He told a political meeting resignations of Britain's Foreign Secretary Selwyn Lloyd and State Secretary John Foster Dulles would help to make a fresh start in negotiations with the Russians. He said "neither Mr. Dulles nor Mr. Lloyd has managed to make much progress (in negotiations with the Russians), and while I believe that both of these gentlemen are honest in their desire for peace, they have no notion of how to bring it about."

## First Transplant Kidney Patient Becomes Father

SHREWSBURY, Mass. (AP)—Richard Herrick, 26, who figured in the first successful kidney transplant involving identical twins, became the father of an 8½-pound girl Sunday, it was disclosed Thursday night.

The mother is the former Claire Burta of Glace Bay, N.S., a registered nurse who attended Herrick following his operation at Peter Bent Brigham Hospital, Boston, Dec. 23, 1954. The couple

\$3,224,900,000. Eight-month expenditures were up to \$3,045,700,000 from \$2,837,300,000.

The government's major revenue source, personal income tax, held up in November above the level a year earlier, at \$120,900,000 compared with \$112,500,000. But November returns in other major fields declined: corporation income tax to \$88,000,000 from \$102,100,000, import tariffs to \$42,100,000 from \$50,400,000 and sales tax to \$6,300,000 from \$62,800,000.

Reductions in defence continued to be outstripped by higher spending in other departments of government.

For the April-November period, total defence expenditures \$1,086,100,000 a year earlier. But dropped to \$1,040,000,000 from this decline was caused by a lag in the transfer of funds to the states and officials state that mutual aid transfers will step up later in the fiscal year.

ped with its individual cloak-room, and blackboards extend for almost the full length of the front and a side wall.

In the basement a large double classroom is being utilized as a music and projection room and also for physical recreation. When the remainder of the basement is completed, in addition to an auditorium, rooms will be provided for Home Economics and for regular studies.

The principal this morning said the completed building will give the school sufficient room to accommodate well over three hundred students. On the subject of manual training, he said that these facilities are not in the plans for present.

## Federal Revenues Slipped In November For Second Month

OTTAWA (CP)—Federal government revenues, slipping in November for the second successive month, left the treasury with a nominal \$1,900,000 budgetary surplus for the month.

Finance Minister Donald Fleming, reporting that in his monthly treasury statement, showed a \$259,100,000 budgetary surplus; however, on operations in the first eight months of the fiscal year to Nov. 30.

The November surplus compared with a \$46,500,000 surplus in November, 1956. The eight-month total was down sharply from \$387,600,000 accumulated in April-November a year ago.

Mr. Fleming, in a Commons statement Dec. 6, forecast he will end the fiscal year next March 31 with an \$80,000,000 surplus. This

is a revision from the forecast of a \$152,000,000 surplus made last spring by the then Liberal finance minister, Walter Harris.

It is customary for heavy government outlays near the end of a fiscal year to whittle down surpluses piled up in earlier months. On top of that, new tax cuts are expected to slice \$26,000,000 from revenues in the last three months of this fiscal year.

Revenues in November were \$395,800,000, a drop of nearly \$20,000,000 from \$415,100,000 a year earlier. Expenditures rose more than \$25,000,000 to a total of \$383,900,000 from \$368,600,000.

**REVENUES STAY UP**  
For the April-November period revenues still remained well above the level of a year earlier, at \$3,304,800,000 compared with

was married in January, 1956. Richard made a complete recovery after receiving a kidney from brother Donald, in an operation that proved transplants between identical twins were possible.

TALENTED BRUSH Honore Daumier, the noted French caricaturist who died in 1884, was also a serious painter of considerable fame.

## IMPORTANT NOTICE

### to HOG PRODUCERS

in the KENSINGTON AND SUMMERSIDE AREAS

For many years it has been our custom to load your hogs on Thursday.

During the past few years, we have had many snow storms which have prevented us from collecting your hogs on Thursday.

This resulted in holding your hogs until the next week, when some of them would be overweight, or possibly there would be an unfavourable price change.

To overcome this situation, effective immediately, we will be loading hogs in both Kensington and Summerside every TUESDAY.

This will give us two extra days in which to collect your hogs in case of a storm on Tuesday.

We wish to thank you for your patronage over the years and trust that we shall continue to be of service to you in the years ahead.

Remember our new day:—

TUESDAY, JANUARY 7th.

and every Tuesday thereafter.
