Roof Problem Is Solved

R.M. Rickard, general superintendent for the Paper Construction Company, on the Fathers of Confederation Memorial Building, said yesterday technical problems have been solved and the mammoth job of pouring the roof of the theatre should get underway soon.

The general progress of the building is regarded good, and the company is going into an accelerated program with the hope it will be favored with good weather the next month.

Workmen on the job will be given an opportunity to observe the Thanksgiving holiday. Work ceased last evening and will resume again Tuesday morning.

The same type of roof as that of the theatre are planned for the art gallery and museum and the library. In this case, however, the problems are not so great as the library can be completed in three pourings and the gallery-museum in two.

Mr. Woodsman Here is the Chain Saw For You

Mr. Somerville's visit here is part of a tour of the Maritime Provinces which, in turn, is part of a cross-country fact finding mission. In other centers Mr. Somerville has been attempting to find out problems facing construction and progress being made by the country's largest contractor.

Mr. Somerville is due here Monday night. A press conference is scheduled Tuesday morning and this will be followed by a meeting with members of the Island Contractors Exchange and Association at the Charlottetown Hotel.

Following a noon reception, the CCA president will pay courtesy calls on government officials. He leaves late in the afternoon for Moncton.
