A Barber once had a sign over his door on which was the following:—"What, do you think I'll shave you for nothing and give you a drink?" Now we have no doubt but that our neighbor Mr. Winkler, who has recently opened up a Barber's Shop in Summerside, on the street in the rear of the Journal office, will act just as kindly. Who, of a cold morning, would be scraping his face with a dull razor at home, when he can step into the Barber's Shop and have it done for five cents. Or who would go without the latest cut when he can get it for ten cents.

The Supreme Court is still sitting. The Petit Jury were discharged on Friday last.

The Rev. H. B. Swabey informs the public that in consequence of being interrupted in the delivery of his speech at the Meeting of the Diocesan Church Society held at Saint Paul's School Room, on the 22nd inst., it is his intention to publish his Speech, in Pamphlet form, and circulate it for general information.—1st.

ABYSSINIA.—A communication has recently been received from Dr. Blanc, one of the Abyssinian prisoners, which will unquestionably prove of great use to the officer commanding the expeditionary force now advancing to their relief. How the document was smuggled out of prison to the sea coast, and finally conveyed to India, we do not know, but in about six weeks after its being written, it was published in the "Times of India," and contains a full account of the geography of the country, with its towns and its population, the number of the troops, the climate, the diseases incident to it, and the best and most approved remedies for the same, together with full particulars as to the present political condition of the Abyssinian people. Mandala, which is the principal stronghold of King Theodoros, is represented as being well nigh impregnable, but is unprovided with water, and its garrison would therefore be compelled to surrender, if besieged for any length of time. This place is surrounded by an almost perfect natural wall of basaltic columns from 50 to 700 feet in height. The three gates which are the only means of exit and entrance, are well fortified with earthworks. Inasmuch however as the Abyssinians do not seem to be possessed of artillery, it is probable that they would not be able to hold it against an army provided with Armstrong guns, and would be compelled to succumb after a few hours shelling. Dr. Blanc's letter has been forwarded to General Napier.—Exchange P.

An editor of a Cuba paper says:—"General Lixarza, whose death at the hands of the Mexicans we have all so deeply mourned, is now in this city (Havana) engaged in reading the accounts of his execution and funeral. There is to-day, on Blackwell's Island, N. York, a man who, a few years ago, was one of the most learned and eloquent, acceptable and promising young ministers in the land. He refused an invitation from the First Presbyterian Church of Troy, to settle as a colleague pastor with the Rev. Dr. Loman. He is now a drivelling idiot, not by a visitation from God, but through the excessive use of alcoholic liquor.

The free schools of Massachusetts receive the State \$10 per head; female teachers receive a little less than a dollar a day. The number of scholars is 236,000; teachers 8,000, seven-eighths of whom are females.

A St. John N. B. paper says that the Eastern Express brought on Tuesday night one hundred thousand dollars of the half million of Dominion Government paper intended for circulation in New Brunswick. The remainder of the amount will probably reach here by next steamer.

The Ottawa Times argues that if Nova Scotia is determined to be extricated from the Union the location of the railway route should be considered with a view to that contingency.

The Editor of Hunt's Merchant's Magazine estimates that in 50 years the New Dominion will have a population equal to that of the United States, as shown by the census of 1860.

There is a general reduction of wages going on throughout the United States. The times being very bad the employees generally concur in what they see is a necessity.

The boldness and audacity of the Fenians in face of the vigorous measures of repression which have been adopted excites much uneasiness.

The principal business going on about this time at the United States navy yards is the discharge of workmen, many hundreds having been thrown out of employment at this most bitter and inclement season of the year.

THE QUARTER SETTLED.—These eminent men, Dr. James Clark, Physician to Queen Victoria, and Dr. Hughes Bennett, say that consumption can be cured. Dr. Wistar knew this, when he discovered his Balsam of Wild Cherry, and experience has proved the correctness of his opinion.

Mrs. A. Allen's Worlds Hair Restorer and Zybalosatum or Worlds Hair Dressing are unequalled, and so acknowledged by all who use them for restoring, invigorating and dressing the hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position; quickly cleansing the scalp, arresting the fall and imparting a healthy and natural color to the hair. They never fail to restore grey hair to its original youthful color. They act directly upon the roots of the hair giving the natural nourishment required. No lady's toilet is complete without the Zybalosatum or hair dressing. It cleanses the hair and imparts to it a most delightful fragrance, and is suited to both young and old.

The Restorer Reproduces. The Hair Dressing cultivates and beautifies. If your hair is thin try it, if scurfy try it, if harsh try it, if it lustres try it, if none of these try it, for all who use it will preserve their hair through life. For sale by all Druggists.
