BARGAINS IN GROCERIES!

SEEING that the different Firms in the Boot and Shoe, Furniture and Dry Goods business are periodically advertising "Big Discount Sales" in their respective lines, we think it only fair to the public generally that they should occasionally get a SPECIAL DRIVE in Groceries as well, and we have decided to give them a chance the coming week.

Commencing next Monday, 3rd of March, we will sell for ONE WEEK ONLY the following goods at reduced prices, as below:—

- 13 pounds Montreal Granulated Sugar, for \$1.00
- 17 " Halifax Refined Sugar, 1.00
- 25 " Rolled Oats, 85
- 1 kilt Herring (containing 4 dozen), 85
- 25 pounds Wheat Germ Meal, 75
- 5 " Fruit Biscuit, 50

THE WEATHER DOES.

—BUT—

Never Varies.
jan13

THE DAILY EXAMINER.

MARCH 5, 1890.

Notes and Comments.

—Victoria, B. C., is going into the exemption and bonus business very extensively. Already a rice mill has been granted exemption from taxes and water rates; a flour mill has been voted \$10,000 and exemption from taxation and water tax; a sugar refinery is to have \$40,000, with exemption from taxes and water rates for 20 years, and a paper mill is offered \$15,000 and the usual exemptions.

—Writing from Japan over date of Feb. 7, Rev. Benj. Chappelle says: "A little hoar frost at night, but not enough to injure the vegetables that make the garden look like June. Soon, however, the rainy season will be upon us and then oppressive heat. On the whole, the climate is a very trying one; it lacks the tonic in the air of American climate, and one needs to keep at his best or it will play havoc. I think that I am just as well as when at home, and never was so thoroughly contented and happy in my life."

—The apple trade of Canada showed a degree of increase last year that is probably not equalled in any other line of export. The number of barrels exported for the last three years is stated as follows:—

	1887.	1888.	1889.
To the U. K.	235,331	218,019	619,217
To the U. S.	103,252	170,840	144,618
Total exports.	402,141	233,312	771,971

It will be noted that the total export in 1889 was about double what it was in the previous years, and that the export to the United Kingdom, where prices ruled high, was considerably over double of that of either in 1887 or 1888, while the export to the United States was less in 1889 than in 1888. Ontario last year about trebled her previous export, and Nova Scotia about doubled hers.

—The New York *Engineering News* says that the work of railway extension during the coming season promises more activity than in any season since 1887. A detailed list of the various enterprises shows that 5,038 miles of railway are partly completed or in process of construction. 6,041 miles are surveyed or under survey, and there are 2,831 miles of line not yet surveyed, but whose projectors are pushing them with such energy that the prospects seem fair for the beginning of actual work before the close of the year. This makes a total of 14,910 miles of line in the United States which have the prospect of being completed, or placed under construction before the close of the year. The total for Canada under construction is 914 miles; surveys, 438 miles; projected, 766 miles; total, 2,118 miles.

—The Ontario Government proposes to amend the license law, giving municipalities power to prohibit the sale of intoxicants. The amending clause in this respect is as follows:

"The Council of every township, city, town and incorporated village may pass by-laws for prohibiting the sale by retail of spirituous, fermented or other manufactured liquors in any tavern, inn or other house or place of public entertainment, and for prohibiting altogether the sale thereof in shops and other places other than houses of public entertainment. Provided that the by-law, before the final passing thereof, has been duly approved of by the electors of the municipality in the manner provided by the sections in that behalf of the Municipal Act. Provided further that nothing in this section contained shall be construed into an exercise of jurisdiction by the Legislature of the Province of Ontario, beyond the revival of the provisions of this section which were in force at the date of the passing of the British North American Act, and which subsequent legislation of this Province purported to repeal."

Racing on West River Ice.

The residents of Cornwall and Clyde River were witnesses of some sharp trotting on Saturday evening, 1st inst., on West River ice, between Alexander Gillis' brown mare Katie, and James Doherty's black gelding, Rob. Mr. Alex. McDonald was the starter. The horses were called at 5 o'clock sharp, and after considerable scoring, which was very amusing to the ladies present, got a good send off. Rob pushed to the front, but went off his feet passing the quarter and lost his position, which he did not regain. Excitement ran high as the horses scored the second time, and they were sent off quickly. In this heat Rob took the lead again and maintained it until passing the last quarter, when he broke badly, and gave the heat and victory to Katie. Mr. D. Hyde and F. Nelson being judges ordered F. Leonard to pay the stakes to the winner, after which the crowd dispersed satisfied with the evening's enjoyment.

ONE WHO WAS PRESENT.

STREET LETTER BOXES.—In future there will be three collections made daily from the street letter boxes at the following hours, (local time): 6.30 a. m., 1 p. m., and 7 p. m. The boxes are arranged to suit outgoing mails, in the morning by train and courier; in the afternoon by train east and west, and in the evening for the foreign mail by special train.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Small Queens.—Five thousand received to-day. Fresh stock for sale wholesale, cheap at Apothecaries' Hall.

NEW INVENTION.—An American has invented an apparatus for timing horses. A clock with three hands minute, quarter and second hand—is started by the official timer. When the winning horse touches the wire the clock is stopped by electricity. The same instant the current opens a camera, which photographs the horse on the clock face.

Childhood.

TRANSLATED FROM FRENCH OF VICTOR HUGO.

All pale and weak the mother lay,
Her forehead in the shadow bending;
Her child was singing, and its song
A melancholy charm was lending.

Death's angel hovered o'er her head,
The young voice sweet and clear was ringing;
I heard the warning sound of death,
But still the little child was singing.

The boy was only five years old,
Now near the window he was playing;
His laughter made a charming noise
Like that of children gone a-Maying.

The dying mother lay beside
This innocent, sweet-voiced being,
Who sang all day and all the night,
Was coughing while her soul was fleeing.

Though now beneath the cloister walls
The mother lies in silence sleeping,
The little child is singing still,
To him there comes no thought of weeping.

Grief is a fruit which may not grow
On saplings young and branches tender;
These are too young to bear its load,
God is too good to be the sender.

E. L. FRANCIS.

Missionary Anniversary.

The anniversary meetings of the Methodist Missionary Society have been quite successful. Excellent and appropriate sermons were preached in each of the churches on Sunday by Revs. Messrs. Read, Sutherland and Brewer, and although the day was stormy, there were large congregations of worshippers. The state of the weather last night was sufficient to test the ardor of the most enthusiastic lover of missions, but, notwithstanding, the audience in the spacious Brick Church was fairly representative, and the meeting a great success.

The veteran chairman, Judge Young, in his opening address, struck an enthusiastic key note; and the speeches were spirited and enlightening. Judge Young referred with pride to the fact that two of Charlotte-town's sons are missionaries in Japan, and that another had accepted a call to labor in India; while several young ladies from different parts of the Island are employed in Foreign Mission fields. Mr. Moore, in his report, which was admirable for its brevity, referred to the loss by death of Rev. Dr. Williams, one of the general superintendents, and Dr. Pickard, whose body had that day been laid to rest in the classic grounds of Sackville—men of holy life and widespread influence; and of William Gooderham and Senator McDonald, the treasurer of the Society,—brethren whose princely wealth and large benevolence had been made a blessing to the church and the country in which they lived.

The Society has flourishing missions in Japan, missions to the Chinese and Indians in British Columbia, to the Indians of the Northwestern Territories of the Dominion, and to the French in Quebec and Montreal. In the latter place they have a French institute of learning admirably equipped, and having in attendance a large number of young people.

The amount raised by the Society during the year was \$215,775, of which the Brick Church contributed \$1,183, besides a legacy of the late G. R. Bear, Esq., of \$500.

The interest of the meeting last night was largely contributed to by the choir, under the excellent leadership of Mr. Harry Heartz, organist.

The meeting in the Upper Prince Street Church was held last night.

Methodistic.

THE quarterly gathering of the Charlotte-town Preachers' Association took place at Clifton, on Monday, the 3rd inst. The president, the Rev. John Read, was in the chair. There were present the Rev. W. J. Kirby, W. H. Spargo, D. D. Moore, A. M., and George Steel; also Messrs. Wm. Heartz, John Henry, J. D. Seaman, Henry Rackham, George Carter, Charles Bryenton, William Wright and Henry Smith. After singing, the Rev. W. J. Kirby led in prayer. In the absence of J. T. Mellish, Esq., the Rev. George Steel was appointed secretary. The roll was then called, and two changes were made. The plan of appointments for the next three months was then submitted, and, after necessary adjustments, was passed. The financial statement showed a small balance on hand. Superintendents then reported the action of their respective monthly boards with regard to the establishment of a local preachers' horse-hire fund. It was then decided that the secretary be instructed to get all the local preachers to sign the constitution; and that 100 copies of the constitution be printed. The next meeting of the Association is to take place on the first Monday in June, and it is to be held in the Upper Prince Street Church. In the evening of the same day a public temperance meeting is to be held. The Association next proceeded to discuss a paper prepared by the Rev. George Steel on "Prayer in Public Worship." The discussion was general and interesting; and the paper is to receive a fuller consideration at the next meeting.

In the evening a public meeting was held in the Clifton Church. The Rev. George Steel presided. Suitable addresses were given by Messrs. George Carter, J. D. Seaman, Henry Rackham and Charles Bryenton.

SMALL QUEENS.—Five thousand received to-day. Fresh stock for sale wholesale, cheap at Apothecaries' Hall.

NEW INVENTION.—An American has invented an apparatus for timing horses. A clock with three hands minute, quarter and second hand—is started by the official timer. When the winning horse touches the wire the clock is stopped by electricity. The same instant the current opens a camera, which photographs the horse on the clock face.
