## ELLEN'S DIARY

### Do We Seem Distant?

Interesting visitors drop by Al-derlea these days, and also inter-esting letters—we receive—mis-sives which tell us mostly of de-lightful vacations spent on the Is-land this Summer, though there is one which bears a different tale.

One which came to our mailbox lane's and this morning was full of substance for us to find our Province not entirely without blemish, yet which to dwell in wonder-ness and is our Home Sweet Home.

It was from a widely travelled pair who this Summer had visited the Island for the first time, and although recognizing that "it would be a wonderful place for a vacation," went away somewhat disappointed from the green fields and the clay-red cliffs of our shore.

Nice folks? Reading on and be-tween lines with our grandmoth-erly spectacles, of that we are sure.

It is our fault in most instances,

ours is the blame if our hospital-ity is such that guests leave us with no good wish for us, no par-ticular prayer which takes in vis-itor, and visited, no nice picture of a little crescent sea-girt, sun-kist land in mind as an ideal pace to which to return for another hol-iday.

Should we look at ourselves through others' eyes, recalling our own visits to strange lands? "The Island would be a wonder-ful place for a vacation," the let-ter said, "if..."

"Someone had said: 'Welcome to the island is this your first trip? What are you planning to do? I think the best thing you can do is to see the So-and-So's at...'"

If they can't put you up they most certainly will know someone who can."

"If: The Ladies Auxiliaries would see to it that any small beach party that the community had a nice picnic table, fresh water facilities, and if not a booth at least a notice board with a little map and notices saying Mrs. So-and-So had fresh-baked food or handcraft to sell or even some-thing unusual to see or that Mr. So-and-So's farm grew prize po-tatoes or raised prize livestock, and that visitors would be wel-come."

(What a sound project this would be for the various W.I.'s)

One of the last things we did on the Island was to spend an hour with the folks of your Tour-ist Bureau. They are doing a won-derful job selling the Island, but they need help and co-operation from the people who are proud of their Province and who recognize that no matter what you may have of natural resources, it's the peo-ple who live there who can make or break a vacation for visitors."

We can appreciate the impres-sion these travellers have gained on their initial visit to us because we too have set foot on strange strands. What Islander has been wonder "weighed... and found wanting" thus? No one who re-alizes that "unaware—we may en-tertain angles" blessing much our-selves mentally, spiritually, in the contact; and no one indeed who knows how much in cold cash all Islanders, the tourist business means.

From small and unsuspected in-cidents we gain our impressions of a person, a place. Remember? Once riding in old Baltimore Heat-ridden and head-filled with glee.

I saw a Baltimorean Kept looking straight at me. Now I was eight and very small. And he was no white bigger. And so I smiled, but he poked out His tongue, and called me, "nig-ger!"

I saw the whole of Baltimore. From May until December: Of all the things that happened there.

That's all that I remember— "Next morning—... Diary— Goodnight..."

### HOUSEHOLD HINT

Dragging a submerged tier out of Sodus Bay, N.Y., three fisher-men discovered a 30-pound carp wedged in the tire casing.

### Not Retarded But Just Upset

VANCOUVER (CP) — Some youthful students regarded as re-tarded are not retarded at all—merely upset, says Dr. Viola Cas-sidy of Ohio State University.

Leading a workshop discussion with British Columbia teachers at the University of British Columbia she cited the example of a boy from a retarded class who could scarcely state his own name, yet could multiply three-digit figures in his head.

"This lad is an example of pseudo-feeble-mindedness," she said. "He is actually a mental case, suffering from schizophrenia or some other disorder which has repressed most of his normal abil-ities."

Such a student presented a prob-lem which had to be met. "These children and others who merely have motor handicaps must not be thrown together in schools for the mentally deficient. This prob-lem requires special treatment. It's no good hiding it. We have to meet it."

Dr. Cassidy questioned the prac-tice of watering-down ordinary curriculums in order to teach re-tarded children to appear like others and feel like others.

"They're not like others and must be given a curriculum which is suited to them—something ab-solutely different."

### MORNING SMILE

A lady was entertainin'; the small son of a friend.

Lady—are you sure you can cut your own meat, Tommy?

Tommy—Oh, yes, thanks, I've often had it as tough as this at home.
