

...who have always borne spotless characters, and who have been ornaments to the country and church to which they belong. We felt satisfied when we perused Mr. D's letter, that the writer resided in the City, and from the several letters we have received from Souris, and the feeling manifested by the people both in town and country, we are assured our surmise are correct. That a whole community should be annoyed by the scribbling of a base person, who screens himself behind the mask of the anonymous "McD," to gratify his vindictive feelings, is bad enough, but the stain will ever rest on the gallant Editors of the Herald, who, fencing to try their steel with men who could defend themselves, suffered their columns to be polluted, and their own characters to be impeached, if they have any character to lose—by publishing communications reflecting on the characters of the weaker sex. Such actions might be tolerated in a heathen land, but cannot be too much condoned in a civilized country.

The steamer *Heather Belle*, which left Mount Stewart on Wednesday last, having gone there for the purpose of towing down Mr. Gillan's barque, had great difficulty in forcing her way through the ice as far as Hayven's wharf, with the assistance of the passengers and crew, who broke the ice before her. At Hayven's wharf the passengers left her. On Thursday, she had made her way down as far as McNally's Point. On Friday, a party of men were sent from the city to assist the crew in their endeavors to extricate her, and get her to the wharf. Up to the time we write, she is still hard and fast in the ice, and will likely remain there for the winter.

We learn that the tug boat *Maid of the Mist* is frozen in at Orwell, and that there are some twenty-two vessels, chiefly loaded with produce, detained by the ice at Mount Stewart and the North and West Rivers. The Harbor is fast closing up, and should the severe weather we have experienced for the past five days continue, our navigation will be entirely closed.

**POLITICAL MEETING AT GEORGETOWN.**—In another column we give the Secretary's report of the Public meeting held at Georgetown on Friday, the 24th ult. We are pleased to find that all the speakers at that meeting were in favor of having the railroad built. We admire the intelligence of the electors of Georgetown and Royalty as regards the decision they have arrived at on this great question, and we hope ere long to see them reaping their reward for the untiring efforts they have put forth to advance the best interest of the people, by opening up direct and rapid communication from one end of the Island to the other; for we firmly believe that a very few years will pass before the Iron Horse will traverse through our Island from West Cape to East Point. We feel convinced after what transpired at the meeting, that the inhabitants of Georgetown and their representatives will do nothing to retard, or in any way obstruct the construction of the railroad.

The Editors of the *Herald* have found it very convenient not to publish the correspondence between the Leader of the Government and Mr. Shreiber, respecting the kind of wood to be used as sleepers for our railway; the old excuse—"the want of space"—has been used as the reason, but we think had the information to be communicated in any way reflected on the government and tended to serve the interest of the party to which they now profess to belong, it would not only have been assigned the first place in their paper but have been printed in the most conspicuous type. The Editor of the *Patriot* finds it convenient to give rumor for facts one week, and contradict it the next. The *Herald* men will not publish the slightest information which would tend to lay the feeling against the government, regarding the use of spruce sleepers and other matters, until they think their own commendatory articles have had the desired effect. We do not know which most to admire.

### Masonic.

Tuesday night being the regular monthly communication of Victoria Lodge, No. 359, F. A. M., R. S., the following brethren were chosen office-bearers for the current year:—  
B. W. Higgs, R. W. M.  
John P. Irving, W. D. M.  
James C. Henderson, W. S. M.  
Benjamin Davies, Jun., W. S. M.  
W. W. McLeod, W. J. W.  
W. R. Watson, Treasurer.  
Wallace Longworth, Secretary.  
George Darby, S. D.  
W. Morson, J. D.  
J. A. Dingwell, Architect.  
Simon Dodd, M. D., Marshall.  
W. H. Finley, S. S.  
Warren Clark, J. S.  
Frank Chandler, I. G.  
Matthew Waddell, Tyler.

On Thursday, the Anniversary of Scotland's Patron Saint, the members of the Lodge met at 7 o'clock, p. m., when Past Master, L. H. Davies, installed such of the officers elect, as were present, into their respective offices. After the installation, the brethren and their guests sat down to a dinner, prepared in Miss Street's best style, at the St. Lawrence Hotel. After the usual toasts, speeches and songs, at 3 o'clock the company dispersed, by singing the National Anthem.

### Y. M. C. A. Debating Club.

According to notice, a meeting of the Literary Class was held on Thursday evening, when it was resolved that the Class should meet for debate during the winter every Thursday evening at 8 o'clock. The following were elected to hold offices for the ensuing year:—  
President—Allan McNeill,  
1st Vice—R. K. Jost,  
2d Vice—Levi Jackson,  
Secretary—J. W. Goff.

Subject next night—"Is a Republic a better form of Government for France at the present time than a Monarchy?" A full attendance desirable.  
L. W. Goff, Secretary.  
Dec. 2, 1871.

We heartily endorse the remarks of the *Patriot* in reference to the establishment of a State supported Night School in Charlottetown. We can now boast of having in our midst master mechanics, second to none in British America, and it will, we trust, be the aim of the young men under their guidance, to not only equal but surpass in mechanical skill their masters. As the education Act will likely be amended in the next session of the Legislature, we hope the people's representatives will make ample provision for the support of a Night School exclusively for the young mechanics.

We would further suggest that the Board of Education take the matter in hand and at once establish such a school as is required, relying on the Legislature for the money to meet its expenses. Messrs. John Scott and Archibald White deserve the thanks of the community for their suggestion in the matter.

Much has been said of late regarding the durability of spruce, and instances cited to show that it will stand many seasons. To prove that this is not so, we ask our readers to consider where are the large piles of spruce and fir sleepers that were laid in the vicinity of Hillsboro Mill last winter? They have gone as if by magic, and contracts are now offered for a million to replace them, and at prices largely in excess of those formerly paid. Reason it as you will, whether from being bedded in the earth, or having saw teeth bedded into them, they certainly have not lasted well in that vicinity.

We would call the attention of our readers to advertisements of the Hillsborough Mills. This establishment, while affording employment to many persons in the city, opens a ready cash market for material that, before the Mills went into operation, was comparatively of little value. They now advance the price, which will have the effect of raising the price of our Firewood. To this we cheerfully submit, in view of the direct advantage to the operatives and persons having wood to sell, and the great boon to the poor, who, but for their share of the refuse obtained from the Mill and Cooperages, would no doubt sometimes suffer from cold.

THERE WAS AN ALARM of fire on Thursday evening last. Fire was discovered in a house back of the Free Church, the property of the late Hon. Mr. Goodman. The fire was extinguished before the engines arrived on the spot. Saturday night, at 11 o'clock, our citizens were again startled by the sound of the fire bell, fire having been discovered in a small cooper shop, owned by Owen Connolly, Esq., in rear of the residence of the Hon. B. Davies. The fire was extinguished with very little damage to the building.

The Rev. James Boydwick, a passenger on the steamer *Alhambra* to-day en route for South America. The Rev. gentleman was, for some time, assistant clergyman in St. Dunstan's Cathedral, and carries with him the good wishes of the Roman Catholics of this city, as well as many personal friends of other denominations. Mr. Peter Mullin left in the same boat for Oregon.—*Patriot*.

THERE WAS AN ALARM of fire on Thursday evening last. Fire was discovered in a house back of the Free Church, the property of the late Hon. Mr. Goodman; the fire was extinguished before the engines arrived on the spot.

THE steamer "Alhambra" from Boston and Halifax, arrived here on Friday last, and sailed again on Saturday, with a full freight, and between 90 and 100 passengers.

The Steamer *Flamborough*, from Montreal, arrived in our harbor on Saturday night last, bringing American and Colonial mails.

The Canadian steamer "Alhambra" left this port on Friday last.

The "Georgia" which arrived at Quebec on Tuesday from Pictou, had an exceedingly tempestuous voyage. She was ten days on the passage between these two ports and had to go back three or four times for shelter to Cape Rosier. At last the vessel met with an accident from which she is but foundered. A cry was raised that she was sinking and examination showed that she had already made six feet of water. It then appeared that one of her dead lights had been struck by a sea which broke across, and opened the port to the water. But this was not made out immediately, and in the meantime the vessel was filling rapidly. Fortunately the cause of the leak was discovered in time to prevent the worst disaster. The following addresses were presented to the Captain by the passengers:—

We, the passengers of the S. S. "Georgia," on the voyage from Pictou, N. S., to Montreal, beg to testify our high appreciation of the conduct of Captain Connell, during the gale on the morning of the 2nd November, and to tender to him our hearty thanks for the prompt and sea-like efforts by which under Divine Providence, he was enabled to prevent the foundering of his ship, and in saving the lives of those on board.

### TO CORRESPONDENTS.

"An Acedian," Tignish, addressed to the Hon. Herbert Bell, M. L. C., came too late for insertion in this week's issue.

### Current News Items.

Small-pox continues its ravages in Philadelphia, and has appeared at New York.

There is a society in London for the encouragement of Flying known as the Aeronautical Society of Great Britain. Their song must be "Up in a balloon."

Dr. McLeod states officially that he has attended the Queen for over thirteen years. He declares that the reports that Her Majesty has shown symptoms of mental weakness are unqualifiedly false.

A New York despatch states that the small pox is alarmingly on the increase in that city. It is so reported to be spreading rapidly in Maryland, especially among the negroes.

"Weighed in a philosopher's scales," says the *Springfield Republican* "the largest sum contributed to the Chicago relief fund in the city, is from a little Irish boy. He possessed no money, but he had a toy whip, the pride of his heart, dear as the apple of his eye, and this he sold for ten cents, and cast his mite into the treasury of charity."

### Government Appointments.

The Hon. David Kaye, M. D., of Georgetown, has been appointed member of the Medical Board of Examiners.

Mr. W. H. Willcock to be Collector of Excise, &c., for Orwell.

Koderick McIntyre and David Anderson, Esqrs., Small Debt Commissioners for Head St. Peter's Bay.

James McCallum, Commissioner for Bay Fortune Court.

Mr. James Mullally, of Souris, Justice of the Peace for King's County.

BOURKE & TAYLOR.  
Millview Mills, Lot 49, }  
Dec. 4, 1871. } 4i

**BAPTIST STATISTICS.**—The minutes of the 26th session of the Baptist Convention of the three Maritime Provinces show the total membership to be 28,316, distributed as follows: Nova Scotia, 17,494, New Brunswick 10,154, P. E. Island, 768. The addition by baptism in the Provinces within the year amounted to 1,214 persons. There are 126 churches in New Brunswick. Four were constructed within the past year—Third Richmond, Avondale, Upper Newmarket and Northfield and Sussex. 2 new meeting houses have been erected at Long Branch, Elgin Corner, Prosser Brook, and Mill Cove. Two clergymen were admitted to the ministry: Rev. Frank Beattie, at Shediac, and Rev. Solomon Smith, at Elgin.

**AN APPALLING SUGGESTION.**—The *London Pall Mall Gazette* fears that the City of Chicago has the power to ruin the Dominion of Canada. All that is needful is for Chicago to cut a canal thirteen feet deep through the belt of limestone which girts the southern bay of Lake Michigan, and then the waters that flow into the Gulf of St. Lawrence will have, indeed, to flow south into the Mississippi and Gulf of Mexico. The opinion which the *Gazette* thus gives it states to be also that of the British Geographical Society. They say the variation of the height of the lakes above the level is, until we come to the great fall of Niagara, but trivial; Lake Superior being 60 feet, and Lakes Huron and Michigan 575 feet, and Lake Erie 565 while Lake Ontario, into which the other Lakes flow via Niagara, is but 232 feet. Therefore if Chicago people would cut a short canal with a fall of thirteen feet, into the Illinois River, the flow of the Lakes would go that way instead of toward Niagara: the St. Lawrence, the great river of Canada, would become very much smaller, and the Mississippi the great American river, would become correspondingly deeper, and an easy navigable channel be had from Lake Superior to the Gulf of Mexico; Niagara river would soon dry up, and the grain and other products of the west would go to Europe via New Orleans, instead of by the St. Lawrence.

**AN UNKNOWN SEA MONSTER.**—On October 4, a party of strangers staying at Killee, composed of several ladies and some gentlemen—one of whom is a well known clergyman in the north of Ireland—went down to see among other points of interest, a place known as the "Diamond Rocks," and remained there for some time watching the heavy ground swell from the Atlantic which came dashing in with tremendous force against the cliffs. The clergyman before mentioned—who is our informant—states that all of a sudden their attention was attracted by the appearance of an extraordinary monster, who rose from the surface of the water about 70 yards from the place where they were standing; it had an enormous head shaped somewhat like that of a horse, while behind the head and on the neck was a huge mass of seaweed looking hair, which rose and fell with the motion of the water; the eyes were large and glaring, and by the appearance of the water behind a vast body seemed to be beneath the waves. As the creature was coming towards our informant he was unable to judge of its length with the same accuracy as if it had been proceeding in a parallel direction; but all agreed that it was the most gigantic creature they had ever seen. Its movements were apparently feeble and gave the idea of exhaustion as it slowly rose to the top of each succeeding wave, raising its huge head above the surface as it did so, and then slowly sank into the trough between the waves. The whole appearance lasted for some minutes, till at last the creature went down in the sight of all, about a gunshot from the shore, and vanished in the same mysterious way, that it had come.

**VERY LATEST TELEGRAMS.**  
London Nov. 28.  
The court circular announces that the Queen yesterday gave audience to Sir Edward Thornton, Minister to the United States.  
Public indignation in Brussels against Ministry is unabated. The people are demonstrative in their demand for the resignation of Ministers, but the police have prevented violence to persons and property.  
New York, Nov. 29.—The brig "Alfarretta" from Dorchester, N. E., with stone sunk, in the Hell Gate.  
A grand naval military ball was given at Aix last night.  
The condition of affairs in Mexico is unchanged, and people are excited with fears of American intervention.  
New York, Nov. 29.  
Gold 110 1/2 Exchange 93.  
A warrant has been issued for the arrest of Major Hall, in connection with the Tammany swindle.  
London, Nov. 29.  
Consols 93 5/8.  
Markets steady.  
The latest bulletin reports that there has been no change in the condition of the Prince of Wales since yesterday. The fever is not great as it was. The patient is easier, and obtains some sleep, by which he is greatly strengthened. Notwithstanding the favorable aspect of the case, anxiety with regard to the result is not removed.  
Ottawa, Nov. 30.  
The extreme cold of the last few days is rapidly closing inland navigation, and threatening to freeze in a large amount of produce in transport through the Canals. The Hudson River is also closing.  
London, Nov. 29.  
Consols 93 3/8.  
A bulletin dated 6 p. m. says the Prince of Wales passed a quiet day. As an indication that his condition is not considered dangerous, his physicians consider it necessary only to issue two bulletins each day, one in the morning and another in the evening. Should the case become critical, bulletins would be published hourly.

### Government Appointments.

The Hon. David Kaye, M. D., of Georgetown, has been appointed member of the Medical Board of Examiners.

Mr. W. H. Willcock to be Collector of Excise, &c., for Orwell.

Koderick McIntyre and David Anderson, Esqrs., Small Debt Commissioners for Head St. Peter's Bay.

James McCallum, Commissioner for Bay Fortune Court.

Mr. James Mullally, of Souris, Justice of the Peace for King's County.
