ABDICATION OF EGYPTIAN MONARCH FORCED BY ARMY

Jet Fighters Chase "Objects" Over Washington

Argentina Mourns Death Of Country's First Lady

BUENOS AIRES, July 27 (CP)—Eva Peron, Argentina's first lady and non-official political power in the regime of President Juan D. Peron, died Saturday night after a lingering illness. Her age was listed officially as 30.

She never recovered fully from an operation here last November with a New York cancer specialist in attendance.

The cause of death was not confirmed as cancer, however.

Mrs. Peron's body was taken to the Labor Ministry to lie in state until her funeral Tuesday.

President Peron and other high officials were present in the improvised chapel in the auditorium in Rev. Herman Benitez, Mrs. Peron's spiritual adviser, conducted a Mass marking the beginning of the lying-in-state.

The body was placed in a white-mahogany casket with a full-length glass cover through which passing mourners could see the remains of the woman whose beauty was once the toast of two continents. The casket stood on a bier blanketed with white orchids. Flowers covered the second-floor auditorium and overflowed into the street.

It was in this same building that Mrs. Peron for six years had wielded the unprecedented behind-the-scenes power which formed the backbone of her husband's regime.

After the two-day lying-in-state, the body will be taken in a great funeral procession for temporary burial in the new headquarters of the General Confederation of Labor (C.G.T.)—another organization in which Mrs. Peron was the dominant figure. Burial in this dock-area building was the first lady's own death-bed request.

The late Eva Peron

Later the body will be permanently placed either in a great monument yet to be built or in the white-columned building now under construction for the Eva Peron Foundation, the welfare organization through which the first lady dispensed uncounted funds to the people who supported her husband—the poor, the aged, the widowed and orphaned.

Mrs. Peron's death plunged the country into sorrowing. Government and labor union decrees halted virtually every public activity. Humble masses, who considered Mrs. Peron their Cinderella—a woman who rose from their own ranks to become one of the most powerful in Latin America—kneel

Fail To Catch Elusive Visitors Spotted By Radar

WASHINGTON, July 27 (AP)—The Air Force said today jet fighter planes had made an effort to intercept unknown objects in the sky over Washington Saturday night after they had been spotted by radar, but no direct contact was made.

It was the second time within a week that unidentified objects had been radar-observed in the vicinity of Washington.

The Air Force said that at 9:08 P.M. E.D.T. Saturday night the Air Route Traffic Control Centre, operated by the Civil Aeronautics Administration, picked up by radar "between four and 12 unidentified objects over the Washington vicinity."

The Air Force said in its statement:

"One of the jet pilots reported sighting four lights in front approximately 10 miles and slightly above him but he reported he had no apparent closing speed. They disappeared before he could overtake them. Later the same pilot reported a steady light that disappeared in about a minute."

Sighting of the unidentified things in the sky by radar indicates something with substance was involved, not only light. It could, however, be small or large, as radar is capable of picking up a bird in flight. Radar also can detect such things as cloud formations.

The Air Force said no further contact, either visual or by radar, was made by the planes although the "unknowns" were still apparent hours later on the C.A.A. radar-scope.

Five Dead, 10 Missing In Salem, Mass. Storm

SALEM, Mass., July 27 (AP)—A brief, intense squall with hurricane-force gusts today swamped hundreds of small boats in Salem harbor, leaving four known dead, one missing and presumed dead and 10 unaccounted for.

About 100 others in boats were rescued by the Coast Guard and private launches.

Several larger boats reported missing earlier were reported as safe.

However, as darkness fell numerous boats of the 14-foot dory type, privately owned and rented for fishing purposes, were still missing.

Police said it would be several hours before they can determine whether there were any more casualties. They said those unaccounted for might have reached safety on the mainland or on one of the islands in the harbor.

The dead were identified by police as John Boisvert and Kenneth Drew, both of Lynn, Samuel Weiner of Malden and Isadore Leboeuf of Lowell.

Missing was Edwin Nowak of Danvers.

Some 200 small boats in Salem Harbor during the storm's 20-minute duration were either swamped or overturned.

More than 2,000 persons crowded on the Salem Willows pier anxiously awaiting word about friends and relatives who had gone out in boats in the storm, ideal fishing weather before the storm struck.

Ambulances from eight communities were summoned to the scene. Hurried calls were made to doctors and nurses in hospitals and in their homes.

Salem police were placed on an emergency basis and help was called from nearby cities and towns.

King Farouk With Queen And Son Sails Into Exile

King Farouk

CAIRO, July 27 (AP)—King Farouk I was forced to abdicate Saturday by an army coup and sailed into exile with his Queen and baby son, the newly-proclaimed ruler of Egypt.

Today, Egypt's strong man, Maj. Gen. Mohammed Naguib Bey, promised to use armed might if necessary to quell any disorders arising from Farouk's abdication or from a clean-up of government corruption he has started.

People Rejoice

Egypt's million, long oppressed by graft and palace intrigues, meanwhile, rejoiced at Farouk's exile.

Naguib's troops surrounded the royal palaces Saturday and forced the fabulously-wealthy playboy monarch to sign abdication papers.

With Queen Nariam and six-month-old Crown Prince Ahmed Fuad, Farouk boarded the royal yacht Mahroussa and set off for Italy, climaxing a startling series of events begun Wednesday when Naguib staged a military coup. Also aboard were three daughters of the King by a previous marriage.

At a press conference, the army chief said the army "is after every person who had any part in acts of corruption and bribery" under Farouk. He warned there might be a "possible counter-attack."

Naguib, 51, again said the army will not tolerate any foreign interference in his campaign. Previously he had promised protection for all foreign lives and property.

The foreign commander conferred in Alexandria this morning with Premier Maher Pasha, whom he installed as his personal choice after the coup, and then came here. They made plans to move the government to Cairo Monday from the summer capital at Alexandria and start prosecution of palace favorites accused of grafting during the 1946 Palestine war.

Clermont Man Killed Instantly In Accident On Highway

David Stewart Semple, 51, Clermont, which is about 3 miles from Kensington, was killed instantly Saturday evening about 11 p.m. when struck by an oldsmobile car from N. B. The name of the driver was not available last evening but it is understood that there were other persons in the car in addition to the driver.

The accident occurred about 1-2 mile west of Kensington when the deceased travelling west on a bicycle was struck by the car going east.

It is reported that the bicycle was being driven on the wrong side of the highway, and that its rider swerved in front of the car as it attempted to avoid striking him.

Dr. W. B. McBride, Kensington, was summoned but found the victim dead on arrival.

Coroner Dr. Austin Delaney, Summerside, empanelled a coroner's jury which met last night and adjourned until Tuesday evening at 5:3 when an inquest will be held in the Town Hall in Summerside.

Members of the jury are: Wallace Mosse (foreman); Kensington; David Clark, Kensington; Edward MacGougan, Malpeque; Justin Woodside, Clinton; Hillard Woodside, Clinton; Douglas Webster, Kelvin; Frank Glover, Kelvin.

Members of the Summerside detachment of the R. C. M. P. were summoned and are investigating the fatality.

The deceased was a farm laborer and unmarried.

Acclaimed By Many Clansmen As Their Hereditary Chieftain

Pictured above is Mr. Colin MacNeil, of Vernon River, P. E. I., around whom has centered a heated dispute among clansmen in Nova Scotia. His title to the chieftainship of the MacNeil Clan, based on his descent from the elder branch of the family, has been disputed and a New Yorker, however, a large section of the independent Scots of Cape Breton still feel that the Prince Edward Islander is the rightful head of their clan. The dispute over the title has been brewing in Cape Breton for nearly 70 years and was publicly aired this month when an invitation was extended to the New York MacNeil to open the annual Gaelic Mod. It is now reported that the Gaelic College at St. Ann's, hoping to avert further controversy, is planning to invite both the rival claimants to the Mod.

Passenger Sucked Out Of Big Plane

RIO DE JANEIRO, Brazil, July 27 (AP)—A woman passenger was sucked out of her seat in a stratoscruiser and blown into the Atlantic Ocean today when the cabin door of the plane flew open.

The Pan American Airlines plane was flying at an altitude of 12,000 feet 27 miles south of Rio De Janeiro and was enroute to Montevideo, Uruguay.

The door of the plane blew off shortly after take-off. The suction force of the wind was so strong it apparently yanked Mrs. Emilio Capelario, 41, out of her seat next to a window just forward of the door.

The woman's husband, a representative of the Italian Commercial Bank, was sitting beside her and said he did not actually see his wife disappear. He said he and the other passengers felt the shock of the wind.

The woman's seat which she had occupied was twisted, part of the cloth lining the ceiling of the cabin was ripped off, and the door of a rest room was torn off by the force of the wind.

Find Flying Saucers Were Balloons

BROCKVILLE, Ont., July 27 (CP)—Brockville's flying saucers turned out to be balloons.

Two United States Air Force jet planes Friday flew high above the St. Lawrence River to investigate several round objects that had citizens craning their necks.

Later Capt. Lawrence Browne of the Rome, N. Y., air base said the objects were cosmic ray experiments balloons released by a Montreal laboratory.

Coming Events

- **Dance, Orwell Hall, July 30th.
- **Dance, Flat River Hall, July 30th. Good music.
- **Dance, Cardigan Hall, Monday night. Webster's Orchestra.
- **Ice Cream and Dance in Iona West School every Tuesday night.
- **Rollo Bay Tea Party, Wednesday, July 30.
- **Dance, Lorne Valley, every Tuesday. Burke's Orchestra.
- **Sandy's Drive-In Theatre, shows Tuesday and Friday 9 p.m.
- **Dance, St. Peter's Harbour School, Tuesday, July 29th.
- **Reserve Wednesday, July 30th, for Tignish Parish Picnic.
- **Ice Cream and Dance in Mermaid School, Tuesday, July 29th.
- **Mail your films and negatives to Garnhna Studios, Charlottetown.
- **Try our Purina Finance Plan for hogs and poultry. Dillon & Spillet.
- **Hampton United Church Supper and Bazaar, Wednesday, July 30th.
- **Grand River Picnic in aid of St. Patrick's Church, Tuesday, July 29th.

- **Regular dance at the Bonshaw Inn Tuesday night, dancing 9:30-12:30. Rollie MacKenzie's Orchestra.

Veteran Woman Telegrapher Dies

HALIFAX, July 27 (CP)—Nova Scotia's first woman railway telegrapher, Mrs. Mary Innes, died here early today at the home of her daughter. She was 93.

Mrs. Innes began her railroad career at the age of 16 with the old Intercolonial Railway at Stewiacke in 1875.

She was married twice, first to Charles Bailey, chief accountant of the old Windsor Annapolis railway. Some years after his death in 1884 she married Peter Innes, then general manager of the Dominion Atlantic Railway.

Active in the affairs of the Progressive Conservatives, Mrs. Innes was honorary president of the King's County Women's Association of the party. She was one of Kentville's oldest citizens.

Surviving are two sons, Charles F. Bailey, Montreal and Col. Robert L. Innes, United Nations food and agricultural representative in Italy; and one daughter, Mrs. C. B. Lowe, Halifax.

Funeral services will be held at Kentville Tuesday.

Alabama Senator Running Mate For Stevenson

By DOUGLAS B. CORNELL
CHICAGO, July 27 (AP)—The Democratic Party placed Senator John J. Sparkman of Alabama by the side of presidential nominee Adlai Stevenson Saturday for the political wars against the republicans.

Then it adjourned its 31st national convention in a flow of outward harmony.

Sparkman was the Stevenson choice for a running mate.

The north-south hook-up of the Illinois Governor and Alabama Senator represented a new-found and incomplete unity in the party.

The Democratic clans had battled furiously last week over candidates, the civil rights issue and a party loyalty oath repulsive to parts of the south.

Even as they turned to Stevenson early this morning to lead them into the 1952 campaign there were cries of "deals" and "pay-offs" from opposition camps.

Canadian Carrier Leaves Istanbul Unexpectedly

VALETTA, Malta, July 27 (Reuters)—The Canadian aircraft carrier Magnificent sailed unexpectedly today from Istanbul along with the British aircraft carrier Glory "for an undisclosed destination."

Meanwhile, the British landing ship Dioppe sailed from Malta with a battalion of British infantry aboard also "for an undisclosed destination."

It is believed here that the destination of the Dioppe is the Canal Zone where British troops have been put at the alert against any uprising in Egypt.

(There was an immediate speculation on the destination of the Magnificent.)

Also sailing from Istanbul today were the British cruiser Cleopatra and the destroyers Chevron and Chivalrous. These ships, along with the Magnificent and Glory, had been visiting Istanbul during the summer cruise of the Royal Navy's Mediterranean Fleet.

Farmers Smash Picket Lines At Canning Plant

CHILLIWACK, B. C., July 27 (CP)—Two hundred strikers went back to work Saturday with their wage demands met—thanks, paradoxically, to 50 angry farmers who smashed the strikers' picket line around a cannery near here.

The United Packinghouse Workers of America (U.P.W.A.) tied up the Canada Packers vegetable canning plant Tuesday while the pea crop was being processed.

The farmers, including several women, loaded eight tons of peas on their trucks Friday and drove through picket lines. Officials showed them how to operate the machinery and they started canning peas.

The farmers said they would lose \$50,000 unless their crop was processed immediately.

The picket-line break-through touched off fast high-level negotiations between the union and company at Toronto.

Five hours after the farmers had taken over, the company announced it had met the union's wage increase demands—15 cents an hour for skilled workers, eight cents for unskilled males and seven cents for women.

To Make Study Of Alcoholism In Ontario

TORONTO, July 27 (CP)—A grant of \$10,000 has been made to Queen's University at Kingston to finance a study of alcoholism in Ontario the Ontario Department of Health announced today. It will be the first survey of its kind in Canada.

Under the direction of Professor J. M. Blackburn, head of the Department of Psychology at Queen's, workers will contact the persons, agencies and institutions with the most experience in handling alcohol addicts and problem drinkers.

AVERAGE YIELD

The average Canadian milk cow yielded 4,628 pounds of milk in 1951.

Signs Of Storms Ahead At Red Cross Conference

TORONTO, July 27 (CP)—The 18th International Red Cross conference was formally opened Saturday, after four days of preliminary meetings. There were signs of stormy sessions in the two weeks ahead.

At the first plenary sessions Saturday Chinese Communist representatives, backed by Russia, made an unsuccessful move to have the Nationalist Chinese delegates excluded from the conference.

The Nationalists retaliated by protesting the seating of the Chinese Communists.

Both governments have representatives at the meetings and both were admitted on the ground they each profess to subscribe to the Geneva Conventions.

The leader of the Chinese Communist delegation, Su Ching Kuan, raised the issue when the meeting was called to order. Paul Ruegger, president of the International Committee of the Red Cross, was temporarily in the chair, advised when Mr. Su he was out of order.

When Mr. Su got a chance to speak later, he moved that "the remnant of the Kuomintang which pretends to represent China" be excluded from this conference. "He contended that the People's Republic Government was 'the sole legal government representing China.'"

The Nationalist Chinese representative, Dr. S. Heng Liu, in turn described the Red-Chinese as "the Chinese Communist puppet regime."

The Russian delegation tried unsuccessfully to speak in support of Red China. However, it was indicated that the Russian delegation will be heard first at the next session tomorrow.

24 Escape As Bus Plunges Into Gorge

SALMON ARM, B. C., July 27 (CP)—A Greyhound bus carrying 24 persons swooped off the Trans-Canada Highway 12 miles east of here Saturday night and plunged 100 feet into a gorge.

No one was killed. All 24 were brought to hospital here, none in critical condition. Five, including the driver, Albert Salter of Vancouver, were treated and discharged within a few hours.

The bus came to rest on its side beside a small creek. Most of the passengers crawled out of the window beside the driver's seat before someone was able to force open the emergency door.

Mossadegh Plans To Reopen Oil Production

By Nate Polowetzky
TEHRAN, July 27 (AP)—Premier Mohammed Mossadegh confidently told Parliament today he plans to reopen Iran's rich oil production, apparently certain of a strengthened hand in dealing with the Anglo-Iranian dispute which has virtually padlocked the flow of that vital resource.

The Premier's plan was contained in the broad general outlines of new economic reforms by which Mossadegh hopes to pull his country out of the red.

As Mossadegh spoke, Bakhtar Emrooz, a newspaper which often reflects his views, charged that the communists tried to take over Tehran last week but were frustrated by the National Front.

The paper said documents seized after the bloody riots which pitted Mossadegh back in power showed a Communist plot to burn most of the city and seize the government.

This was regarded as an attempt to disassociate Mossadegh's National Front from the blood-letting and put the blame on the Communists.

Mossadegh was reported Saturday to have notified Britain that Iran is willing to begin talks, on compensation for the vast oil properties his Nationalist Government seized from British authorities.

The Premier talked Friday with British Charge D'Affaires George Middleton. Bakhtar Emrooz said Mossadegh had proposed selling oil to Britain and deducting part of the cost to pay for the nationalized properties once owned and operated by Britons. Officials in Tehran and London would not comment on the talk.

HALIFAX, July 27 (CP)—Official forecasts issued by the Dominion Public Weather Office here and valid until midnight Monday.

Synopsis:

Today was warm in most localities. Afternoon temperatures reached 88 at Sydney, one degree short of equalling the record for the date. In New Brunswick and Gaspe increasing cloudiness culminated in evening thunderstorms.

The showery weather is moving slowly southeast and becomes more scattered. Present indications are for widely scattered showers in Nova Scotia and Prince Edward Island on Monday while skies clear farther north.

Regional forecasts:

Prince Edward Island—Variable cloudiness. Widely scattered showers and thunderstorms. Continuing warm. Southwesterly winds 15. Low early Monday morning and high in the afternoon at Charlottetown 62 and 82.

High tide today at Charlottetown at 2:26 A. M. and 2:42 P. M. High tide on the North Shore at 9:30 A. M. and 9:49 P. M. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 4:53 A. M. and sets at 7:45 P. M.
