

CIMN'S WEEKLY REPORT TO YOU

# Radio Waves

CIMN is proud to present a great contest for the new year. As some of you may know, Canada's renowned songwriter, Leonard Cohen, has released a new Compact Disc. The name of this long

awaited CD is "The Future", and is the basis for our contest. We want you to write the most outrageous, creative yet somewhat believable predictions for 1993. Just cut out the ballot below, write your prediction in the space provided (or continue on another page) and place your entry in the slot in

the Student Union Desk in the Pit. Every Wednesday from now until the end of February, CIMN will chose the best prediction of the week and award the winner with either a CD and a T-shirt, or a CD and poetry book. At the end of February we will put all of the entries into a ballot box and

I predict that in 1993...
