### A QUEBEC CONTEST.

#### Lumbago Drives Out by Dodd's Kidney Pills.

QUEBEC, Sept. 2.—Although Quebec is  
 called "the Gibraltar of America," and  
 well deserves the name, it is by no means  
 impregnable against the assaults of Kid-  
 ney Disease. Fortunately the inhabitants  
 have an ally in Dodd's Kidney Pills that  
 succeeds in driving the enemy out every  
 time it gains an entry.

Some time ago Mr. John Ball, of No.  
 57 Little Champlain St., was attacked by  
 Lumbago. He suffered for two years  
 without getting relief from any of the  
 medicines he used. Then he tried Dodd's  
 Kidney Pills and the first box he used  
 helped him. He used only three boxes,  
 and is now well and strong in every way.

A policeman's club contains enough  
 lumber to floor a man.

### WONDERS OF A BIG FIRE TRUCK

#### Scores of Appliances on the Modern, Up to Date Machine.

The modern fire truck, besides carrying  
 longer ladders and a greater variety of  
 them than the old time fire truck, has a  
 far more elaborate equipment of contriv-  
 ances of one sort and another for use in  
 getting at and fighting fire. Improvements  
 are constantly making in all these appli-  
 ances, and new things are being added all  
 the time.

On one of the Chicago trucks there are  
 12 ladders, the longest of them an exten-  
 sion ladder that can be raised 90 feet.  
 This ladder is of the kind that is raised  
 on the truck, to which its foot is secured.  
 By means of cranks and the mechanical  
 appliances attached to it, eight men, four  
 of them standing on the truck and four  
 on the ground, can raise this ladder, ex-  
 tended and in position for use, in 30 sec-  
 onds. Besides the 90 foot extension there  
 is carried on this truck a 50 foot exten-  
 sion, which is taken off the truck when  
 used and raised from the ground. There  
 is also a 15 foot extension ladder, called  
 a junior extension, which is used when  
 there is occasion to carry a ladder inside  
 of a building where the stairs might be  
 narrow and where it would be impos-  
 sible to carry a 15 foot ladder with solid  
 side pieces. Folded, a man can carry this  
 ladder on his shoulder almost anywhere.

Besides the three extension ladders de-  
 scribed, there are on this truck two 35  
 foot ladders, one 25 foot, one 20 foot and  
 one 10 foot ladder, and four 16 foot scal-  
 ing ladders of the kind with which fire-  
 men climb the front of a building, these  
 having each a single shaft of wood, with  
 handles running through it to hold on by,  
 and with a long beaklike hook at one end  
 at right angles to the shaft, which is  
 thrust through a window to rest upon the  
 sill. There are carried on the truck four  
 scaling belts to be used with the  
 scaling ladders.

There are carried on this truck four  
 axes, ten crowbars and two picks, ham-  
 mer headed on one side and pick pointed  
 on the other, which are used for picking  
 holes through walls to get into an ad-  
 joining building. There are two tin cut-  
 ters, long handled implements for cut-  
 ting holes in the tin roofs and ripping up  
 the tin. There are two window break-  
 ers, iron balls attached to a length of  
 cord. A man on the roof throws this  
 iron ball over the edge to break the win-  
 dows with which it comes in contact on  
 its backward swing and so let out the  
 smoke and ventilate the building. Under  
 the ladders away down at the rear end  
 of the truck is a horse reel upon which  
 there is one length of hose, which, by  
 means of reduction couplings, can be  
 coupled on to fire hose of any size. There  
 are also a lot of nozzles, one of which is  
 called the distributor. This has an at-  
 tachment that whirls rapidly under pres-  
 sure of water passing through it. The  
 distributor is used in cellar fires. A hole  
 is cut in the floor, and the distributor is  
 thrust through.

Another curious sort of pipe carried is  
 the cellar pipe. This is a rather long  
 pipe with two bends in it. The cellar  
 pipe is suspended from a holder standing  
 on the ground, thus making it possible  
 to swing the pipe and point in different  
 directions. The bends in the pipe en-  
 able the throwing of water to points that  
 could not be reached with a straight pipe.  
 There are two fire extinguishers with  
 which to put out small fires or to keep  
 if the truck should get there first, a fire  
 in check until an engine arrives. There  
 is a portable fire escape, one end of  
 which can be attached to a window sill  
 by means of which a fireman can lower  
 anybody from a building or a person  
 could lower himself. There are two life  
 line guns that will throw a slug with a  
 light line attached 300 feet up over a  
 building, a jumping net, two smoke  
 masks and signal flags and red lanterns  
 to flag trains on the elevated railroad.  
 For other uses there are two white  
 lamps.

#### In the Pomological Department.

At the Atlanta exposition in 1896 there  
 was a "woman's building" on the  
 grounds, and the committee in charge  
 made a strong effort to secure a diversi-  
 fied exhibit from all parts of the south.  
 To that end numerous letters were ad-  
 dressed to prominent women asking them  
 to send anything that would be curious  
 and attractive. Among those who re-  
 sponded was a lady who lives in Rich-  
 mond and who is a member of the old  
 Virginia aristocracy. Being naturally  
 proud of her descent, it occurred to her  
 that the framed copy of her family tree  
 would be an interesting object, and it  
 was accordingly expressed to the com-  
 mittee.

Later on the lady visited the exposition,  
 and, of course, one of the first things she  
 looked for was her own contribution, but,  
 strange to say, she was unable to find it.  
 The entire exhibit was neatly catalogued  
 and, running over the book page by page,  
 she at last encountered the entry she  
 was after, "Family tree, loaned by Mrs.  
 — of Richmond."

When she turned back to where it was  
 located, her proud Virginia blood curdled  
 in her veins. It was in the "Pomological  
 department."

#### Full and Explicit Directions.

Two bicyclists passing through a small  
 town on the Long Island shore decided  
 to take the train from there home. Being  
 unfamiliar with the place, they stopped  
 to inquire of a colored woman the way to  
 the railway station.

"We are strangers," they said. "Would  
 you kindly direct us to the station?"

"Certainly, sah," she replied. "Keep  
 a-goin' right on till yo' comes to de corner  
 wha de ole postoffice used ter be, den  
 tu'n to yo' left an' yo'll go right to de  
 station."

As they rode off she beamed with pride  
 they with amusement, and, although they  
 found the station, they have yet to dis-  
 cover the "corner wha de ole postoffice  
 used ter be."

 Laxative Bromo-Quinine Tablets  
 the remedy that cures a cold in one day

### IN THE BEGINNING.

God took the dust and said, "Lo, I am there!"  
 And flung it forth on the empyrean free;  
 And nature saw a star burst forth and be,  
 A throne of life and light divinely fair.

Then fell a raindrop in his hollow hand;  
 "Be thou its sovereign ocean!" murmured he,  
 And there arose a silver turbaned sea  
 To frame the tropic glory of the land.

A spirit hovered near; he staid its flight.  
 "Love, rule this life and compass all the  
 earth!"  
 And lovely woman sprang to instant birth,  
 And where she reigns are joy and peace and right.  
 —C. E. Barns in Criticron.

#### Setting Down to Business.

The lawyer was telling of the great for-  
 ensic effort he intended to make when  
 the case came to trial.

"Sir," he said impressively, "I shall  
 charge."  
 "I see," interrupted the litigant, "that  
 business is business with you lawyers as  
 well as with other merchants, and per-  
 haps you are right in wanting the matter  
 settled at the start. How much will you  
 charge?"

#### 'Interested Affection.

"I'm afraid, however, you're marrying  
 me only because I've inherited from my  
 uncle 100,000 crowns."

"Why, Blanche, how can you think  
 that of me? Your uncle is nothing to  
 me! I would marry you, no matter from  
 whom you inherited the money!"—Der  
 Floh.

#### Just What He Thought.

Recently a gentleman took a poem to an  
 editor who was his chum at school.

"It hurts me, old fellow," said the edi-  
 tor, "to wound your feelings, but, truly,  
 we are so overstocked with poetry that it  
 is useless to read yours. We can only  
 accept what shows unmistakable genius."

"Well, just read that poem," said the  
 schoolmate, "and tell me what you think  
 of it. It may prove better than you im-  
 agine."

"It is as I feared," replied the editor,  
 after reading the poem. "The poem  
 shows no promise whatever. Pardon me,  
 but it is simply absurd and utterly use-  
 less."

"That's just what I thought," replied  
 the schoolmate. "It's a copy of some  
 verses you wrote in my autograph album  
 while we were at school together."
