**REMOVED.**

On and after Monday, Oct 3rd, my patrons will find me in my office in the New Prowse Block, on the north side of Queen's Square, first door to the right upstairs.

DR. J. H. AYERS, Dentist

**A PERFECT SYSTEM**

Crown and Bridge Work, (Teeth without Plates.)

DR. MURRAY;

145 QUEEN STREET.

**Local and Other Items.**

**DON'T MISS THEM**—The Montreal Weekly Star and the WEEKLY EXAMINER both papers from now until the end of the year for 20 cents.

**GOOD PRICE FOR APPLES**—In the first shipment of Nova Scotia apples to London by the steamer Halifax City. Gravensteins netted \$2 to \$2.50 and Ribstones \$4.—Halifax Herald.

**STRUCK IT RICH**—Miner T. Foster struck it rich at the Leasay lead, Tangier, during the past month. He has made returns showing 557 ounces of gold from 450 tons of quartz. The brick was worth \$11,140. Last month \$9,000 worth of gold was taken out.—Halifax Herald.

**CHILD BURNED**—A young child of Mr. Dan, McKinnon, of Orangedale, was burned almost to death the other day. The child had been left by the stove, around which was a lot of shavings, while the mother went upstairs. On her return she found the young one enveloped in flames and with the greatest difficulty extinguished them. The child was fearfully burned; but is alive.—Sydney Record.

**GOOD READING CHEAP**—We have made arrangements (see advt.) whereby we are enabled to offer the Montreal FAMILY HERALD and WEEKLY STAR in connection with THE WEEKLY EXAMINER for a trial subscription of TWENTY CENTS. This is a splendid chance to secure the best local news as furnished by THE WEEKLY EXAMINER and the best weekly family news in Canada at a low price. This offer is only good until October. The two papers will make an exceptionally good combination to have addressed to your friends abroad even if you do not yourself require them.

**THE WHITE NORTH**—An exchange says: Canadians will be interested in the efforts of their fellow countryman, Captain Bernier, to reach the White North. Men of many nations have attempted to solve the problem this icy sphynx and all have reaped great glory among the watching peoples. Some of them have reaped the supreme glory of death in an unselfish cause. If Captain Bernier wins a meed of glory, Canada will undoubtedly share it with him, and in the making of the effort we all wish him well. Captain Bernier, it will be remembered, visited Charlottetown a few weeks ago. He was in command of the steamer Eureka which brought Hon. Mr. Tarte and party.

Neck for opening description just received. See the novelties in neck cuffs we are selling so cheap.—W A Weeks & Co.

**Cure a Cold in One Day**

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 52c.

**A TRIP TO COONTOWN.**

The performance of A Trip to Coontown consists in the presentation of a laughable musical comedy which abounds in funny situations and bright dialogue. The leading roles are in the hands of Bob Cole and Billy Johnson, the popular colored comedians who have won distinction in their parts. Bob Cole as a tramp is undoubtedly the foremost colored comedian of the day. His work has been compared with that of Dan Daly and Walter Jones. The New York Sun of April 6th, said "He has more merit than either of these great comedians, and is funnier than Ward and Yokes rolled together." While Johnson is an artist to his finger tips, these comedians are fortunate in having their support the most popular and accomplished entertainers of their race. This production has been a most pleasing surprise to both press and public, and is the best diversion ever given by the negro on the stage. When an entertainment is announced to be given by colored performers the general impression is that it will be a combination of minstrelsy, plantation and levee scenes, with perhaps, a cake walk; but this performance is a departure from anything yet given by colored performers, and on its second tour many new and novel features will be introduced; new songs especially written by Cole and Johnson, authors of the "Chine and the Coon," 4-11-44, "The Black Four Hundred's Ball," etc., and everything will be done to exceed the brilliant success of the past season. Messrs. Cole & Johnson originated and staged the production of "The Black Patti Troubadours" season of 1895 and were the leading comedians; in this production they are the stars, and have been most enthusiastically received, the performance being attended by society everywhere. The company organized for their support is composed of the most refined as well as artistic colored talent in the world, including the well-known comedians Tom Brown, as leading support, R. A. Kelly, J. A. Shipp, Floyd Gibbs, the greatest living black tenor, Miss Julia Roane, soprano, and Miss Vincent Bradley, with an efficient chorus. In every way it is the best aggregation of colored entertainers to be seen.

**ALL HEADACHES**

from whatever cause cured in half an hour by HOFFMAN'S HEADACHE POWDERS 10 cents and 25 cents at all druggists

Frost, frost, heavy frost last Monday night; cucumbers and tomato vines injured very much. We escaped with slight damage; would advise housekeepers to put down pickles and chow chow now. On hand a limited quantity of cucumbers, small silverskin onions, green tomatoes ripe tomatoes, cauliflowers. Orders filled in rotation; do not be in the position of many last year—too late.—J. J. Gay & Son, Market and head of Prince street. Telephone 180.

**OCTOBER, NOVEMBER & RHEUMATISM**

**Paine's Celery Compound Has Never Once Failed to Cure the Dread Disease.**

Sufferers from rheumatism, sciatica and neuralgia who have had experiences with our Canadian weather in October and November, will tell you that they dread the uncertain, raw and capricious days of these two autumn months.

It is in October and November that the sharp twinges of pain, and long days and weeks of agony make thousands wish for death as a release from suffering. October and November are the months most fatal to rheumatic mortal—it is the time when death reaps its richest harvest. Just here the statement cannot be too plainly submitted, that Paine's Celery Compound is the only reliable cure in the world for all forms of rheumatism and the ninety nine out of every hundred who have died from the disease could have been cured if the great compound had been used in time.

The prime cause of rheumatism, as of so many other diseases, is a lack of nerve force. When this weakness of the nervous system gains ground, the digestive

organs are deranged; the food remains too long in the stomach, it turns sour, and the resulting acid enters the blood. Nature tries to get rid of this acid through the urine or perspiration. The patient gets a slight cold in some way, and the acid cannot be expelled. There are chills, pain in the back, quickened pulse, coated tongue, constipation, extreme thirst, poor appetite and sediment loaded urine. Soon the joints swell, usually the knees, elbows and wrists, and great suffering ensues. This is how rheumatism originates.

For long years it has been a recognized fact that celery freely eaten has given relief to rheumatism sufferers. Physicians now rejoice in the discovery of Prof. Edward E. Phelps, M.D., L.L.D., the great physician, who gave the world and suffering humanity what is known as Paine's Celery Compound, a prescription which combines celery with other valuable vegetable remedies, the whole making up a perfect cure for agonizing rheumatism, sciatica, gout and neuralgia.

If you are a sufferer from rheumatism or kindred troubles your duty is plain. You must begin by furnishing the body with nervous energy as fast as you can, and get a richer and purer blood supply. There is no way known to medical men in which this restorative progress can be so swiftly brought about as by using Paine's Celery Compound. In short, Paine's Celery Compound expels all poisons and acids from the blood; it builds up the system, regulates the nerves, increases strength, and gives that true health that makes one feel happy and joyous.

Paine's Celery Compound is superior to all other medicines and pills, as strength is better than weakness. If you suffer, follow the advice and example of the thousands who have found a new life—use Paine's Celery Compound during October and November; it will banish your rheumatism and you will never have any return of the terrible disease.

**DANGER IN HAND-ME-DOWNS.**

In the Lancet of August 13 we took notice of the suspicion of uncleanness which we fear must, at all events under present conditions of trade, remain inseparably connected with our clothes, and especially with all bought underwear. So long as it is customary for clothiers to send out, practically at random, their material in the form of piece-work, so long will it be impossible to guarantee either its wholesome or its cleanly condition. Neither can it be denied that the inconvenience and even danger implied in this practice are much enhanced by the prevalent system of "sweating." While this continues anything like effective cleanliness is hardly to be looked for, and we have in that fact a substantial reason for the repression of this injurious form of forced labor. Were it abandoned the selection and supervision of suitable homes in which piece-work might be carried on would at least be much easier than it is at present. The case of public laundries is at once different and similar. Thanks to the nature of the work, there is less risk of impurity. We should nevertheless be pleased to see some form of inspection applied to these establishments. As to the needless, haphazard and thoroughly unbusiness-like practice of trying on underclothing forwarded on approval, the sooner this is discontinued the better. In existing circumstances every purchaser of ready-made clothing must understand that he has really no protection against the activities either of contagious germs or of the more evident animalcules save the maxim caveat emptor.—Lancet.

**A Romance of 1900.**

Extract from a dime novel of the future: "Then the pirate king shouted in excited accents, 'What ho! my lads! Here is the site of the buried treasure. Heave up your bedded plate of brass and look beneath!'"

"The noble Donly Mackerel forced back the bandits, and with one mighty swing of his sword clove the brazen ring in twain. There, carefully buried away in a jewelled casket, lay two scuttles of coal, full to the brim!"

**MOTORMEN AND CONDUCTORS**

Wisely Pin Their Faith Firmly to **Dodd's Kidney Pills**

Toronto, Sept. 26.—The motormen and the conductors in the Toronto Street Railway Company's employ are a most intelligent, shrewd and respectable body of men. It is no easy task to impose upon them in any way.

When these facts are considered, it will at once be seen that the evidence of these men, regarding the wonderful efficacy of Dodd's Kidney Pills, must carry the very greatest weight. A great many of them have been cured of kidney disease by Dodd's Kidney Pills, after all other medical efforts had failed. There is no wonder the boys pin their faith so firmly to "Dodd's."
