CUSTOMS OF THE TURKS.

Here is a whole volume concerning the customs, manners, and habits of the Turks, contained in a single paragraph;

"The Turks abhor the hat? but uncovering the head, which with us is an expression of respect, is considered by them disrespectful and indecent. No offence is given by keeping on a hat in a mosque, but shoes must be left on the threshold; the slipper and not the turban is removed in token of respect. The Turks turn in their toes; they write from right to left; they mount on the right side of their horse; they follow their guests into a room and precede them on leaving it; the left hand is the place of honour; they do the honours of a table by serving themselves first; they are great smokers and coffee drinkers; they take the wall, and walk lasilly in token of respect; they beckon by throwing back the hand, instead of throwing it towards them; they cut the hair from the head, but leave it on the chin; they sleep in their clothes; they look upon beheading as a more disgraceful punishment than strangling; they deem our short and close dresses indecent; our shaven chins a mark of effeminacy and servitude; they resent an inquiry after their wives as an insult; they commence their wooden houses at the top, and their upper apartments are frequently finished before the lower ones are closed in; they eschew pork as an abomination; they regard dancing as a theatrical performance, only to be looked at and not mingled in except by slaves; their mourning habit is white; their sacred colour, green; their Sabbath day is Friday: an interment follows immediately on death. The deaths of the women are not registered—those of the men are. Marriages are registered, and with the marriage the woman is virtually struck from existence, so far as the government is concerned. She is not known officially to the government of Turkey. Her 'lord' or husband does with her as pleases him best."

OUR CHANGING CLIMATE.

The following beautiful passage by Washington Irving, might almost make a November day cheerful:—"Here let me say a word in favour of those vicissitudes of our climate which are too often made a subject of exclusive repining. If they annoy us occasionally by changes from hot to cold, from wet to dry, they give us one of the most beautiful climates in the world. They give us the brilliant sunshines of the South of Europe with the fresh verdure of the North. They float our summer sky with clouds of gorgeous tints or fleecy whiteness, and send down cooling showers to refresh the panting earth and keep it green. Our seasons are full of sublimity and beauty. Winter with us has none of its proverbial gloom. It may have its howling winds, and chilling frosts, and whirling snow-storms; but it has also its long intervals cloudless sunshine, when the snow-clad earth gives redoubled brightness to the day—when at night the stars beam with intensest lustre, or the moon floods the whole landscape with her most limpid radiance. And then the joyous outbreak of our spring, bursting at once into leaf and blossom, redundant with vegetation, and vociferous with life! and the splendours of our summer—its morning voluptuousness and evening glory—its airy palaces of sunlit clouds piled up in a deep azure sky; and its gusts of tempest of almost tropical grandeur, when the forked lightning and the bellowing thauder-voley from the battlements of heaven shake the sultry atmosphere! and the sublime melancholy of our autumn, magnificent in its decay, withering down the pomp and pride of a woodland country, yet reflecting back from its yellow forests the golden serenity of the sky! Truly, we may say that in our climate, the heavens declare the glory of God; and the firmament showeth his handiwork. Day unto day uttereth speech, and night showeth knowledge."

The Renowned Remedy!

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor HOLLOWAY.

Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me that for a considerable time she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a little more longer, according to the directions, and strictly adhering to your rules, as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly,
(Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated January 12th, 1853.

To Professor HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and occasioned me much torment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

A DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Ryde.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1853.

To Mr. DIXON,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained in that hospital for nine months, but at Malta, refused to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for three months, during which ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,
(Signed) JOHN SMITH.

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated February 12th, 1853.

To Professor HOLLOWAY,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mr. Martha Bell, of Pitt-street, in this town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of wounds, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In the distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing: her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

DR. CHALMERS' WORKS.

"*To commend these works is superfluous; they have met with universal approbation from the British press and public. That the periodical press, representing so great a variety of religious and political opinion, should have so generally noticed them, and that too with high commendation, is a circumstance exceedingly rare, if not altogether unparalleled.—Every one who is desirous for the purely literary man, and they will obtain a hearing for evangelical truth in quarters from which it would otherwise be excluded.*"—*Kitto's Journal.*

Item JOHN SMITH.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the drawbacks, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public for their decision. It has been found for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may enumerate Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of derangement in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Hemors, Scrofula and Sore Eyes, with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Suppression of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their influence on the organs of the circulation, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has therto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
