PERSONALS
Mr. Billy Stewart, Southport, was a recent visitor to Kensington, the guest of Mr. George Mullally.

Miss Eileen Walsh of the P. E. I. Hospital spent the New Year's holidays at her home in Maple Plains.

Miss Norma Locke, who is attending P.W.C., spent the Christmas holidays at her home in O'Leary.

Miss Mildred Spence of Madison, Wisconsin, was visiting in Summerside on Saturday and spent some time visiting her aunt, Mrs. David Edwards, First Street.

Mr. and Mrs. George Key, Sr. and daughter Joyce have returned to Summerside after visiting in Halifax with Mr. and Mrs. Cyril Artz.

Mr. and Mrs. Edson Jewell, Breadalbane, has returned home after spending some time in Summerside where he visited with Mr. and Mrs. David Edwards.

Mrs. George Mullaly, Kensington, and Mrs. Willard Brown, Irishtown, spent the past week in Southport, the guests of Mrs. William Stewart.

Miss Mildred E. Spence of Madison, Wisconsin, U.S.A., arrived home to spend Christmas holidays with her parents, Mr. and Mrs. S. B. Spence, Hunter River.

Mrs. Elmer MacDonald and daughter of New Glasgow, P. E. I., spent the New Year's holidays in Summerside, the welcome guests of Mrs. MacDonald's parents, Mr. and Mrs. David Edwards, First Street.

Earle Davison, Marven Clark, Ira Pigeon and their class-mate, Alfonso Nachon of Mexico, returned Monday to their studies at Mt. Allison Academy, Sackville, N. B., having spent their Christmas holidays at their homes in Kensington.

Mr. and Mrs. David Edwards and daughter Vivian, Summerside, spent Monday in Sackville where they went to meet Mrs. Edwards' two brothers, Robert and Ramsay Spence, of Hawarden, Saskatchewan. It is 31 years since Robert was home, and Ramsay had not been back since he left here 34 years ago. They were accompanied by Mrs. John B. Spence, Hunter River, who celebrated their 67th wedding anniversary last May 6th.

NIAGARA FALLS, Ont. (CP) - A four-year-old girl and a three-year-old boy were blamed by Fire Chief John Shapton for ringing a false fire alarm. The youngsters had placed their tricycles against the pole to reach the alarm box.

IPSWICH, England (CP) - For 26 years Ipswich council staff had to work on Boxing Day - a holiday in Britain preparing statistics for a new year meeting. This year it was decided to delay the meeting so the staff can have the holiday.

LONDON, Jan. 9 (AP) - Sight-seers who may be planning to climb Westminster lamp posts to see the coronation procession got some sad news today from Sir Hugh Casson, an official ruler decorated with petroleum jelly to stop such undignified rubber-necking.

Islanders' Daughter With Central American Mission

Mr. Donald M. Longworth of Guelph, Ont., and his wife, the former Jean Lewis, daughter of Mr. and Mrs. Colby Lewis of Freetown, P. E. I., accompanied by their three children, Jimmy, Peggy and David, are leaving this month for San Jose, Costa Rica, to resume missionary work in the Central American mainland republic.

Mr. Longworth, who is a 1947 graduate of Ontario Agricultural College, and Mrs. Longworth will have charge of a 200 acre mission farm and the orphanage connected with it at San Jose.

Mr. Longworth delivered a farewell address at the Christmas service at Calvary Baptist Church, Guelph, Ont. Both members of Calvary Church, Mr. and Mrs. Longworth have recently completed their first year term in the field and are now returning to begin their second term under the Latin American Mission Inc.

They are reported to have already rendered valuable service to the natives of the sub-tropic land in their chosen life's work.

Costa Rica, discovered by Columbus in 1493, lies just north of the Panama Canal zone between Panama and Nicaragua. It is believed to have been settled first by the Spanish in 1502 and was named "The Rich Coast" by the Spanish in anticipation of the riches which it contained. It was poverty stricken and underserving of the title however, until gold was found in 1823, and foreign capital later began to pour in.

It is now a valuable agricultural country exporting coffee and bananas, principally. There are iron deposits of gold, silver, manganese, copper and other metals.

The natives are of Spanish and Indian descent. The Spanish are mostly pure whites and the native Indians are a vanishing race.

Mr. Longworth served with the R. C. A. F. during World War II, after which he attended O.A.C. His parents live in Woodstock, Ont.

Mr. Lewis, accompanied by Mrs. Lewis and daughter, Shirley, will drive Mr. Longworth and family as far as Miami, Florida, and left Freetown on Thursday. Mr. Lewis will visit Toronto on the return trip, where he will attend a meeting of the Holstein Friesian Association of Canada, of which he is a director.

Mr. Gordon Jeffrey, Alberton, is confined to his home after suffering cuts and bruises in a fall from a skaly. It is expected he will be up and around the first of the week.

Friends of Mr. Alvin Bell, Alberton, are pleased to see him back at work following a minor accident in which he suffered a severely sprained ankle. He had been confined to his home for the past several days.

Mr. Keith Pratt, Bloomfield, was a visitor at the home of Mr. and Mrs. Orrin MacDonald on Sunday, January 4th.

Master Claude MacLean has returned to his home in Birch Hill after spending a few days at the home of Mr. and Mrs. Gerald Milligan.

Mr. and Mrs. James Williams and three sons, Malcolm, Lorne and Wendell, were recent guests at the home of Mrs. Williams' parents, Mr. and Mrs. Thomas Grigg, Bideford.

The Masters Carl and Gerald Hutchinson have returned to their home after spending a few days at the home of their uncle and aunt, Mr. and Mrs. Preston MacCaull, Ellerslie.

Miss Trudy Murphy has returned to her home here after spending a couple of weeks at the home of her grandparents, Mr. and Mrs. Edmund Yeo, Victoria West.

Mr. Lawrence Milligan and son Donald, and Mr. Angus MacDonald visited Summerside on Friday, January 2, on business.

Mrs. Lloyd Ellis and family, Summerside, are spending the winter months at the home of her parents, Mr. and Mrs. Ray Williams.

Miss Laura Ramsay has returned to her home in Poplar Grove after spending a couple of days at the home of Mr. and Mrs. James Williams.

Mrs. Ralph Ellands and son Clarence spent New Year's day at the home of Mr. and Mrs. Clayton Day, Wellington.

Mr. and Mrs. Gleason Williams, Summerside, were guests at the home of Mr. and Mrs. Orrin MacDonald on New Year's day.

Grimes - Greenan Wedding

Saint Malachias Church, Kinkora, was the scene of a very pretty wedding when Mary Evelyn Greenan, daughter of James M. Greenan and the late Mrs. Greenan, Kinkora, became the bride of John Joseph Grimes, son of Mr. and Mrs. John T. Grimes, Watervale.

The Nuptial Mass was celebrated by Reverend Claude Shea. The choir under the direction of Mr. Sabinus McKenna rendered appropriate hymns.

The bride, who entered the church in the arm of her brother, P. J. Greenan, looked charming in navy sheath with white accessories. She wore a double strand of pearls, gift of the groom, and carried a white missal and rosary.

The bride was attended by her sister, Mrs. Spencer Hughes, who was attired in brown taffeta with matching accessories. She carried a white prayer book and her corsage was of white carnations.

The groom was ably supported by Mr. Spencer Hughes. Immediately following the ceremony the bridal party and immediate relatives, accompanied by Reverend Claude Shea and Reverend Joseph McLeod, motored to Hill Crest Lodge, Summerside, where a delicious breakfast was served. The toast to the bride was proposed by Father Claude Shea and was fittingly responded to by the groom.

The bride and groom then departed on a wedding tour of the Maritimes, visiting the groom's sister, Mrs. John H. Callaghan Truro. For travelling the bride chose a blue suit with white accessories.

On their return a reception was held at the home of the groom where supper was served to approximately two hundred and fifty guests. The many and useful gifts which they received showed the esteem in which they are held.

Mr. and Mrs. Grimes are residing in Watervale, where their many friends wish them many years of happy wedded life.

Bats fly safely in the dark by emitting high-pitched squeaks that are reflected back from nearby objects.

Value Of Publicity

Marketing Board Appeal
"Much time and thought was expended in assisting the Potato Marketing Board in its appeal to the Supreme Court of Canada. The results of this appeal was very encouraging as it reversed the decision of our Island Supreme Court on all counts excepting the levy which was used to promote the Potato Industry.

"After this decision the Potato Board was obliged to use a license system to promote the industry; the Federation did not desire this method of collection, not because of any unfairness but because of the opportunity it was leaving for the opponents of the Board to poison the minds of farmers who did not understand in which way the money was used. The Island Federation has had meetings with the Hon. Mr. Gardiner and other legal authorities in Ottawa to have a delegation of powers that would make the collection of the levy legal.

"During 1952 a vigorous campaign was launched to increase the activities of the Farm Radio Forum, the results are gratifying as we find the number of groups have increased considerably, thus giving us more farmers who are taking advantage of an education designed to give them a broader outlook on farming and giving them facts on different topics that increases their reasoning power.

"The Research Division which had been set up in October 1951 was closed out on July 1st, 1952. The work of the Division, under its director, Mr. L. P. McIsaac, was both valuable and satisfactory and it was with regret that, due to financial reasons, the activities of the Research Division were suspended.

"Information was obtained on rural electrification; modern dairy plants; accident insurance; and land settlement. An ensilage survey was carried out and the Island Crop Services is now offering insurance in all its various forms, the preparatory work having been done in the Research Division.

"We have had an additional veterinarian added to our Provincial Veterinary Service as well as two replacing others that left the province.

"On March 25th, your Provincial Directors met with the Premier and members of the Legislative Assembly to present our annual Brief. It was arranged to cover what appeared to be the five (5) most important points—namely—Rural Electrification; Telephone Services; Land Settlement Policy; Economic Research; Education and Electoral Reform.

"All other resolutions coming from the annual meeting were taken up with the proper authorities by the different committees.

Warble Fly Campaign
"Last spring we promoted a following program to the warble fly campaign of the year before, about 500 pounds of powder was distributed, although we realize that more interest could have been taken in this campaign, the results were better than we had anticipated. We find we still have 200 pounds of powder and if the farmers ask for this service again this year, no doubt it will be available.

"In the past, five directors meetings were held as well as meetings with other groups having problems of mutual interest. A large meeting was held in July replacing the regular semi-annual County meetings. It discussed resolutions coming from the school district meetings in the afternoon and the evening meeting was set aside to discuss rural electrification.

"The County annual meetings were held in November at O'Leary, Charlottetown and Morell.

Important Meetings
"On September 30th—the largest farmers meeting ever held on the Island—was held at P. W. C. Hall, it was called to discuss the problem of raising funds to advertise and promote the potato industry. We were honored by the presence of Dr. Hannam, the President of the Canadian Federation of Agriculture who spoke on the activities of the National Office. Prior to the annual County meetings a series of school district meetings were held in a series of twenty six meetings, several speakers took part in attending as many as nine or ten different meetings. These were held in order to form an opinion as to re-organization of the Federation. The attendance of some was encouraging and showed hopes of large units of Federation members, but many of the meetings were poorly attended and showed very little interest in larger units.

"Future changes in organization must be made, nevertheless, as we can plainly see many farmers with signed contracts shifting their patronage from one concern to another.

"This last year your director to the C.F.A. attended the annual meeting in January in Montreal, in which resolutions from all parts of Canada were discussed and put in motion to be presented to the Cabinet of the Government of Canada.

"In June because of the serious position of livestock and livestock products, another directors' meeting was held in Ottawa. At this time a brief was drawn up and presented to the Hon. J. G. Gardiner advocating a food defense program, in which 10 percent of money used in defense would be set aside to buy food for stockpiling and to feed the hungry people of the world.

Feed Grain Problem
"An August another directors meeting was held to discuss the feed grain problem, so that there might be a closer relationship between what the western farmer receives and the eastern farmer pays for his feed grain.

"In summarizing the economic

S'side C.W.L. Monthly Meeting

The January meeting of the Summerside Sub Division of the Catholic Women's League was held on Wednesday evening, January 7th, in the Knights of Columbus Home with a good attendance and with three new members present.

The Reverend Director, Father MacLeod was present and opened the meeting with the League prayer. The president, Mrs. Wilfred Perry, presided.

The minutes of the last regular meeting were read by the secretary, Miss Margaret Wedge, and approved by the meeting.

Mrs. Joseph Linkletter, corresponding secretary, read letters from the following: Mrs. C. H. MacGuigan, regarding lay retreats; Mrs. J. Austin Murphy, diocesan convener on Catholic education; Mrs. Charles Rogerson, Marthas; Mrs. Leo Blaquiere, secretary of the Holy Name Society in appreciation for the efficient and gracious manner in which the communion breakfast was served; the Sister of the Precious Blood thanking the League for an offering; the Sisters of St. Martha in appreciation for gifts sent to their little orphans; St. Mary's Academy; Rev. J. MacLeod, Mrs. Marguerite Huestis, Mrs. Levi Gallant, Mrs. Medius Wedge for gifts received at Christmas.

The financial report was read by the treasurer, Mrs. Laurier Peters and approved, all bills being voted paid.

Mrs. Emily Gallant, sick convalescing, sent cards and making fourteen visits. In the absence of Mrs. Carroll Delaney, Mrs. Wilfred Perry reported for the Girl Guides, Mrs. Joseph Linkletter on membership, Mrs. Frank Arsenault on social service, Mrs. V. Gallant for the press and Mrs. Abdon Arsenault on entertainment.

Mrs. V. Gallant was moved and seconded that \$15.00 be sent to the Sisters of St. Martha towards the repairs to the Mother House. The sum of \$10.00 was sent to the Korean Relief Fund.

Rev. Father MacLeod briefly addressed the meeting and read an article on Communism.

On motion the meeting adjourned and lunch was served. The meeting for the evening were Mrs. D. F. MacNeill, Mrs. Anthony Arsenault, Mrs. John Steele, Mrs. W. J. Sullivan, Mrs. Leo Blaquiere, Mrs. Stanley Rogers, Mrs. George Gallant.

conditions in agriculture the last year, we find a great contrast in the price of potatoes and price of other farm products. Last spring brought us the highest price that Island farmers had ever received for potatoes, and again this last fall we had a combination of excellent crops and excellent prices, something the farmers have never had before.

"I wonder if our Island farmers ever realized the preferred position we were in, in relation to getting information as to the acreage being planted in other Provinces and states. Because of our late planting season, we know quite accurately whether the plantings are heavy or not and we can govern our planting accordingly, realizing that large plantings very often mean poor returns.

"A combination of increased production and an outbreak of Foot and Mouth disease, which placed an embargo on shipments of livestock products to the U.S., was responsible for lowering the price of livestock, etc. in many cases to below and below the cost of production. This was a serious blow to our farmers and would have been disastrous if it were not for the fact that we had floor prices on some of our products.

"The recent lowering of the floor price on hogs was vigorously disputed with the Dominion Agricultural officials on the grounds that the lower price would force many farmers out of production of hogs completely. Later, the consumer because of a scarcity would be asked to raise funds to advertise and broaden the breach of discontent between producer and consumer.

Advantage Stressed
"The Federation can see only advantage in keeping a price that is paying to the producer as well as one that is fair and just to the consumer.

"This past year has made great strides in the production of silage, especially grass. The farmers' finding that the lower cost of production determines the profit he will have, and if we are to succeed we shall have to produce as cheaply as possible and turn out a product that has qualities that the consumer demands, and which he will decide definitely whether you will inaugurate an insurance scheme that is available to members only. My personal feeling is, that it is an excellent idea, because of the protection one can get so cheaply, and the protection can be carried to your sons and hired help.

"In reviewing Federation activities it may be well to answer a question that we sometimes hear. Namely: What is wrong with farm organization? To this I would say, some people look upon farm organization as an organization that must cure all ills immediately, no matter how difficult the problem may be. If we are to put this squarely we must realize that the organization is just as strong as its members. We must realize that the results of organized action is determined by the greatness of the problem.

"We must realize that farm organization is young and even in its youth has contributed greatly to the farmers' welfare. We must realize that organized action by farmers has barely scratched the surface of what must be done to put farming and farmers into a bracket that can be called business. If we were to summarize what Island farmers have done to procure

Canada In Hurry On Seaway But Still Keen On U.S. Aid

OTTAWA, Jan. 9 (CP) - The Canadian Government informed the United States today - but without enthusiasm - that it is willing to talk over 11th-hour proposals that the U.S. get in on the navigation end of the St. Lawrence seaway-power project.

In a memorandum to the U.S. administration, the Government said it will discuss proposals for a Canada-U.S. seaway if they will not hold up joint development of hydro power in the river, and only after a U.S. agency has been authorized to join Ontario in the power project.

The Government laid down these conditions to the discussion of any new U.S. proposal: 1. It will discuss it after an American agency is designated to join in the power job and provided it will not delay the development of power.

2. The Government "would naturally expect the discussion to be such as not to cause any serious delay in the completion of the whole seaway."

The Government also said the demand for power in the area of the development is so urgent that it is "most reluctant" to enlarge in any discussion that might delay the power end.

Under a 1951 agreement between the Canadian and U.S. Governments, the \$450,000,000 power project to yield 2,200,000 horsepower is to be shared by the Ontario Hydro-Electric Commission and an "entity" to be designated in the U.S.

Mr. Pearson said at a press conference today there would be a period of some months during which discussions could be held without delaying a start on the seaway. He expressed the hope the FPC would designate the U.S. power agency before the end of March.

Government spokesmen have said earlier that, in such a case the project could get under way later this year under the plan of a joint power and all-Canadian navigation project.

The power development would be started first, and there would then be some months' leeway before there would have to be a final decision on the route of the navigation channel.

Mr. D. M. Bell Passes Away At Summerside

Donald MacDonald Bell passed peacefully away at the home of his daughter, Mrs. Victor D. Howatt, Summerside, on Friday morning, January 9th at the age of 94 years.

Mr. Bell was born at Cape Tryon, and after his marriage lived at Tryon most of his life. He retired from active farming about 20 years ago and afterwards continued to live at Tryon, a short distance from his former home, until his wife's death about four years ago. Since then he has lived in Summerside.

He was of a quiet and home-loving disposition and was highly regarded in the community. He was in his ordinary health until about two weeks ago but since then he gradually weakened until death came.

He was the last remaining member of a large family and was a brother of the late John H. Bell, a former premier of the Province. A faithful member of the United Church, Tryon, he always took an active part in church activities.

He is survived by the following children, Winnifred, Mrs. Elmer Dawson, Augustine Cove; Kilburn of Minneapolis, Minn.; Morley, Q.C., Summerside; Walter at Tryon; Harrison at Summerside; Marguerite, Mrs. Victor D. Howatt, Summerside. Another son, Dr. E. A. Bell of Cape Traverse predeceased him a few years ago.

The remains are resting at the Compton Funeral Home, Summerside until Monday next at 1:00 P.M. from where they will be taken to the Tryon United Church for service at 2:30. Interment will be in Craupad Cemetery.

measure of control, we would find it hard to think of anything beyond the Potato Marketing Board, and even then we find many farmers far too ready to condemn some actions taken by their own Board, that were designed to help themselves.

Publicity Essential
"If we are going to make farming a business, we must act as businessmen and pay our own way. Sometimes I wonder if all the farmers of Canada spend as much money to advertise all of their products as our large packing plants spend to advertise just one of their products, namely margarine, and this at a time when substitutes are menacing the livelihood of the majority of our farmers.

"I should like to extend my gratitude to the press and radio, for the publicity extended to the Federation. I sometimes wonder if farmers realize that thousands of copies of newsletters are published each week in the press besides the thousands of letters that are sent periodically to the school district officers.

"Also I would like to commend our Deputy Minister of Agriculture for his weekly broadcasts and for his help and guidance that he has always given the Federation.

"In closing I should like to extend by personal gratitude to the Country and Provincial directors who gave me the honor of being their chairman. They gave freely of their time in the interest of the members, the wise and fair judgments of these directors is responsible for the good financial position, and the prestige that has been built up within the farmers organization.

"Tomorrow you shall have a new President, my term has expired. I shall never regret having the honor of speaking for you although it entails considerable work and expense. It has been a fine education, support "from our own people."

"I thank all the members for many uncoupled farms could be their loyalty and ask them to support even stronger the new President, and these additions from overseas.

S'side Phalanx Club Members Are Inducted

Induction ceremonies for members of the new Phalanx Club at Summerside were carried out last evening following a banquet at Robson's Restaurant. Some 60 members of the Phalanx men's club and Phat Ladies clubs from Charlottetown were in attendance, together with representatives of various other Summerside organizations.

In a candle-light ceremony the induction ritual for members of the new Summerside club was performed by Phalanx members from Charlottetown.

Jim Johnson is president of the new Summerside Phalanx Club; Malcolm Matheson, vice president; Keith Rogerson, secretary-treasurer. Other members of the newly formed club are: Alan Lacey, Gerald Enman, Gerald Walker, Thane Bagloe, Alexander Mollison, Neil Sharp, Bill Bernard, Derwin Heustis, Bennett Jenkins, Ernest Murphy, Edward Toombs and Ross Lufeyrie.

Charlottetown members who assisted in the induction were Ivan Robinson, John Dingwell, Jack Johnston, Bob Mayhew, and Lloy MacLeod.

Federation To

Continued from page 1
organization and wholehearted co-operation of our Federation, and a willingness to keep up with modern trends, the time has come to establish a public killing plant, where livestock can be slaughtered, inspected, graded and shipped under refrigeration. Through grading and better marketing, our farmers have won world wide recognition for their bacon hogs, and feel the same could be accomplished with other types of livestock, if we had these facilities."

Mr. D. A. MacDonald of the Potato Marketing Board spoke briefly regarding the overall marketing position of potatoes, which he said was still good. He could see no good reason why this situation should not continue through January and February. In a few days he expected to hear definitely about the potatoes on hand in the United States, which would in a measure indicate the course necessary to be followed by the Board.

"I am hoping that we will be able to hold the line," continued Mr. MacDonald, "but will take any action necessary in the interest of the potato business."

He was also of the opinion that most of the seed Sebagoes on hand would have to be disposed of as table stock. "We should be making provision for leaner years," Mr. MacDonald said, "and avoid individuals preparing to plant excessive acreage. We must not let this business fall into the hands of a small group and we would like to know as soon as possible what you want us to do."

Mr. W. R. Shaw, Deputy Minister of Agriculture also spoke briefly, stressing the difficulties facing the dairy business. He urged the farmers to keep together and face the black cloud of substitutes raised possibly in Africa by persons on small wages, probably not more than a quarter per day.

Mr. Shaw spoke in the highest terms of the displaced families coming here, with strong sturdy children and a keen desire to get on the land and become good Canadian citizens. He felt that with loyal support "from our own people,"

"I thank all the members for many uncoupled farms could be their loyalty and ask them to support even stronger the new President, and these additions from overseas."
