Crossword grid with numbers 1-44 and a key for the cryptogram below.

DAILY CRYPTOQUOTE—Here's how to work it: AXYDLBAAXR is LONGFELLOW. One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different. A Cryptogram Quotation G M K M Y X K I P Z C G P D C P Q M F D H J G X K V G T C N T X G X X J F P D X N X P M O X - T M K X N H F Q X. Yesterday's Cryptogram: OUR AMERICAN PEOPLE CAN NOT BE TAXED WITH SLOWNESS IN PERFORMANCE—EMERSON.

Lectures Continue At Ch'town Y

In continuing the series of lectures "You and Your Personality" for the Y's So-Ed Group, Mr. Nichols discussed the role of a clinical psychologist. He began his talk by pointing out the difference between the approach of the psychologist and psychiatrist, to personality. In describing the theoretical background of the test situation, he emphasized the importance of assessing the personality, not in terms of a number of faculties, but in its totality. To speak of intelligence or interest as distinct entities, he felt, destroyed their true meaning which could only be understood in relation to the person who had intelligence on certain interests. In continuing the lecture, discussing the theoretical and practical approach to the person, his contribution to the psychiatric team became apparent, for, as aptly illustrated in an analogy, his approach contributed information which the psychiatrist used in helping the patient. The analogy referred to the relationship between the doctor or surgeon and the radiologist, where the information furnished by the radiologist by means of X-rays helps the surgeon gain a better understanding of the patient's organic damage, so the material gathered by the psychologist gives insight into the condition of the mental patient. He went on to say that this information aids in diagnosis, prognosis, treatments and rehabilitation, giving a number of examples of each. He stated also, that this field of rehabilitation or counselling actually bordered upon another related area of clinical psychology. In this area, he said, were included the vocational and educational counselors. In concluding the discussion, Mr. Nichols illustrated the latest form of testing device which is aimed at gaining an impression of the whole personality, the projective technique. He showed how, when people interpret ambiguous materials, pictures, blots, drawings, etc., they draw upon their past experience and use their present feelings and outlook to help them interpret, and in this way produce responses which are unique and characteristic of themselves. As a postscript, he pointed out the article in the current edition of the Standard, entitled "Button Up Your Subconscious", which, he felt, was a bit cynical. He thought that although the article leveled valid criticism at some of the clichés of psychoanalysis, such an outlook had little bearing upon the psychology of today. He pointed out also that although the conclusions in the article were amusing in light of the evening's discussion, they could stand some modification.

Gen. Ike Considers Early Return Home

PARIS, March 20 —(AP)—Pleased by primary returns, General Eisenhower is considering flying up his European command and returning home before the Republican convention to campaign actively for the presidential nomination. "The mounting numbers of my fellow-citizens who are voting to make me the Republican nominee are forcing me to re-examine my personal position and past decision," the General said today.

Life Underwriters Monthly Meeting

The regular monthly meeting of the Life Underwriters Association of Prince Edward Island was held at the Rendezvous at noon on Wednesday, with Mr. Robert Younker, vice president, acting as chairman. During the business meeting, Mr. C. H. Black, C.L.U., on behalf of the Life Underwriters Association of Canada presented Mr. Edwin C. Johnstone, C.L.U. with the "National Quality Award" in recognition of his outstanding service in underwriting. Mr. Black pointed out that Mr. Johnstone has qualified for this award since its inception in 1946. Mr. Ralph J. Rupert, C.L.U. was the guest speaker and he gave a very interesting report and summary of the activities of the annual meeting of the Life Underwriters Association of Canada held in Toronto in January. It was announced that the annual Sales Congress will be held in Charlottetown on June 10th. A discussion followed on the proposed visit to Ottawa of Mayor J. D. Stewart and Premier J. Walter Jones for the purpose of expediting public works projects, and the following resolution was passed: "Resolved that the Life Underwriters Association of Charlottetown heartily endorse the action of the Mayor and City Council in their decision to send Mayor J. D. Stewart to Ottawa to urge the Dominion Government to carry out the proposed Public Works Projects for the City of Charlottetown. Leary; 2. Larry Profit, Alberton; 3. MELBOURNE, Australia, March 19—(AP)—Carlton Oval was picked today as a site for the 1956 Olympic Games. The site still must be approved by the Olympic committee.

P. W. C. News & Views

Yesterday afternoon the P. W. C. hoopers went down to defeat at the hands of the more experienced St. Dunstan's team. The final score was 91 for the Saints and 34 for the Hoopers. This is the last game against the Saints. This game against the Saints was the second defeat the Hoopers suffered this week. The first game was last Monday when the girls' basketball team defeated them 57-56. Through the best part of the game the boys wore hockey gauntlets. In the last quarter, with two minutes left to play, the girls were eleven points ahead, when the coach informed them it was their turn to wear the gauntlets. But even with this advantage and the fact that the game lasted three minutes longer than was scheduled, the boys were still unable to overtake the girls. Humiliated by this defeat the Hoopers hope to have a return match. This match may be held sometime during Coed Week. In the Monday afternoon game the star point getter was John MacNaught with twenty-six points against the twenty-one points scored by the girl's star, Eileen MacArthur. Joe Hoyt was the all-around star by sinking baskets for both teams. Today the elections for King of the Campus will take place. A fool proof voting system has been devised which should meet everyone's approval. Co-ed Week will start with a big dance on Monday night, co-ed style. During the dance the new king will be introduced. A fashion show, conducted by the boys will also take place. This should prove very amusing to all the students. A meeting of the graduating class was held in the Seminar Thursday afternoon. The meeting concerned the election of the various fourth year students to titles they will cherish all their lives. Bob MacEwen, pre-med, was elected as President of the class. James Ibbot of Charlottetown was chosen as Life President. Marion Schurman, Arts student from Bedeque was picked as Class Secretary. Another Pre-med student, John MacNaught of Summerside was properly chosen class Prophet. The title of Valetudinarian was given to Charlie Agnew from Montreal. Another matter taken care of at the meeting was the dedication of the Year Book. This year's edition of the Welshman will be fittingly dedicated to Miss Lowe, the Drawing teacher.

HAIR RESTORED PERMANENTLY

End embarrassment caused by baldness. New scientific formula TH-10 quickly permits hair growth in all cases of baldness regardless of age or condition. Formula TH-10 also restores vitality to dry, lifeless and falling hair. Sold on a full money-back guarantee. Formula TH-10 is a liquid herbal product harmless to skin or health. East Germany Has Shipbuilding Plans

BERLIN, March 20 —(Reuters)—East Germany is developing the largest shipbuilding industry ever undertaken on the German Baltic coast with a view to increasing her trade with China. The keel of the first East German-built ocean-going ship will be laid by April 1, but it will take two years work before the 9,500-

ton ship is completed. By 1955, East Germany intends to build 22 scagoing ships of four types. The largest type—9,500 tons—will be for trade with China; the second type—6,000 tons—is destined for trade with Persia and Russian Black Sea ports. The North Sea area is to be served by 3,000-ton freighters and the Baltic by 1,300-ton freighters. Germany formerly built her ocean-going ships at the North Sea ports of Hamburg, Bremen, and Emden. The only port on the Baltic where large vessels were built was Kiel, the naval harbor of pre-war Germany. This now is in the British zone.

52 Entries Left In Grand National

LONDON, March 20 —(AP)— Fifty-two horses from the original entry list of 84, including two former winners, were left today in the Grand National steeplechase, world famous jumping event at Aintree April 5. The final acceptance list for the four miles and 856 yards race includes one United States-owned horse, the nine-year-old Irish mare St. Kathleen II. The mare was raised in Ireland and bought recently by Sam Small. Last year St. Kathleen II carried the silks of Mrs. Adam Bell to victory in the Galway Plate, one of Ireland's important steeplechases. Freebooter, winner of the Aintree classic in 1950 and Russian Hero, a longshot winner in 1949, are among the final acceptors. Probably only about 40 of the 52 will go to the post. The record field is 66 in 1928.

GUARDIANS OF PEACE

Large advertisement for the Canadian Army Active Force. Text: The Infantry Recruit... Keyman in Canada's Future Security. Growing in size and strength the Canadian Army Active Force needs more Infantry Soldiers. The Infantry recruit is a keyman in our defence plans. For as he finishes his training he will take his place in the front lines of our freedom at home and overseas. But it takes time to produce these highly trained soldiers. And to maintain our security, to discourage aggression, we must be able to meet any eventuality. That is why we must have more young men for Infantry training now. If you are interested in Canada's future, now is the time to do something about it. Serve with the most important men in the Army—the Infantry. There are outstanding career opportunities for young men in the Canadian Army Active Force. You are eligible if you are 17 to 40, tradesmen to 45, and ready to serve anywhere. Get full details from the Army Recruiting Office nearest your home: No. 1 Personnel Depot, Garrison Barracks, Halifax, N.S. Recruiting stations at Amherst, Annapolis Royal, Bridgewater, New Glasgow, Sydney, Truro, Yarmouth, N.S. and Charlottetown, P.E.I.
