

## There's no end to the improvements we're making...

More and more of you are taking the train and we want to give you the best service we possibly can.

If you are among those who haven't travelled with CN for a while you're in for a big surprise. Wait till you see what we're doing to our main line trains... coaches, parlor cars, lounges, sleepers, diners and dinettes. A complete face-lifting. Refurnishing, refinishing, air-conditioning, repainting. Spanking-new from carpets to curtains... modern styling, lively colors. Some of the other important improvements you won't be able to see, but you will be able to feel! Mechanical changes

are making the refurbished cars ride more smoothly. You'll go comfortably all the way. Who inspired CN to go to these lengths? You did. You, our passengers, have brought about the increased trend to train travel in Canada. So naturally, we want to give you the best possible value for your travel dollar. That's why we inaugurated the Red, White and Blue fare plan that has brought more and more people back on board the train. We're not just talking about improvements, we're making them. For the past few weeks the cars have been going through the shops. By the end of 1965 all our main line runs will

have this improved equipment in service. '65 will be a big improvement year for CN. But even before we've wiped off the last paint-brush and hung the last new drape, our passengers will benefit from the already upgraded comfort and convenience of CN 'Traveliving'. Thousands more travellers every year are finding out the new way to relax on the go... go CN.
