

Reds Release U.S. Soldier

MOSCOW (Reuters) — Russia has reaffirmed its determination to sign a separate peace treaty with East Germany if necessary and also condemned American nuclear testing.

A soviet - Romanian Communiqué was published in the Soviet government newspaper Izvestia coincidental with Premier Khrushchev's return by air from a week-long visit to Romania.

The statement said a peace treaty officially ending the Second World War with Germany must be signed and West Berlin must be transformed into a "free city" in accordance with European "security" interests.

It said this position was taken this month at a meeting of the political consultative committee of the Warsaw pact, the Communist bloc equivalent to NATO.

It said if the West stalls too long over reaching agreement on the German problem, then Russia, Romania and other countries that fought in the Second World War would conclude a treaty with Communist East Germany.

RAPS TESTS
The communists also condemned American nuclear tests for heightening the arms race and "aggravating international tension."

Corner Brook Paper Mills Plan Cutback

CORNER BROOK (CP) — Bowaters Newfoundland Pulp and Paper Mills Limited here will lay off 150 employees and cut production to a five-day-a-week operation starting Oct. 1, assistant general manager H. K. Joyce said Tuesday.

Earlier, General Manager Albert Martin said in an interview the cutback is caused by a surplus of newsprint on the international market.

Mr. Joyce said in a statement the men laid off will be provided with part-time employment when possible. The cutback would continue at least nine months.

The reduction will amount to about 1,000 tons a week — the present daily production. The operation now is on a six-day-a-week basis.

However, the mill will still be operating at 85 per cent capacity, four per cent higher than most other North American paper mills, Mr. Joyce said.

A two-week slowdown slated for July 1 is also a part of the program to reduce the stockpile of newsprint at the mill, Mr. Joyce said.

It will, however, have no effect on employees who now work a six-day week. They will be on annual leave during the two-week period. The shutdown will also be used to make extensive repairs and modifications at the mill.

Smoking Effects Report Is Given By U.S. Society

CHICAGO (AP) — An official of the American Cancer Society says death rates from heart disease, chronic bronchitis, pneumonia, influenza and other lung diseases are higher in cigarette smokers than in non-smokers.

Dr. E. Cuyler Hammond, director of the statistical research section of the society, bases his conclusions on autopsy examination of lung tissue samples removed from 240 male and two female patients who died at the Veterans Hospital, East Orange, N.J.

He gave this report in a paper prepared for a panel discussion on smoking at the 26th annual meeting of the American College of Chest Physicians which opened Sunday.

"We have found that the inhalation of cigarette smoke can produce all the changes which are characteristic of pulmonary fibrosis and emphysema. We are of the opinion that this accounts for the fact that death rates from chronic bronchitis and from pulmonary fibrosis and emphysema are higher in cigarette smokers than in non-smokers."

"It is well known that the diseases just mentioned increase susceptibility to infectious diseases of the lungs. We are of the opinion that this accounts for the fact that death rates from pneumonia, influenza and other infectious diseases are higher in smokers than in non-smokers."

6 Storm Trooper Pickets Battered

PHILADELPHIA (AP) — Six pickets wearing Nazi storm trooper uniforms were pummeled by on-lookers in downtown Philadelphia Tuesday before the pickets were arrested by police.

The pickets, carrying anti-Semitic placards, gave Virginia addresses and said they were members of a neo-Nazi group headed by George Lincoln Rockwell. They were attacked by several people carrying a mill-liner crowd of 200 outsiders.

The pickets began marching in front of a building containing the offices of Anti-Defamation League of B'nai B'rith, a Jewish social organization.
