Aquaculture Advanced Diploma Program

Graduates are employed in a range of aquaculture and related fields, including fish farm management, work as scientists and aquaculture technologists, aquaculture instructors, and work on aquaculture projects in both the developed and developing world.

Food Safety Advanced Diploma Program

Designed to provide a strong technical education in the areas of food safety and food inspection. Graduates work in food production, quality control, food plant inspection services, food analysis laboratories and regulatory agencies.

Food Technology Advanced Diploma Program

Equips students with the in-depth knowledge and practical skills required to meet the needs of the food processing industry. Graduates are prepared for positions as technologists within the food processing industry.

Coastal Zone Management Advanced Diploma Program

Graduates gain an integrated view of the issues and alternative solutions to the conflicts arising from multiple uses of coastal zones. The program has an international focus.

Fisheries Development Advanced Diploma Program

Strengthens the management skills and broadens the perspective of students in three sectors of the fishing industry: aquaculture, seafood processing, and harvesting technology.
