

THE DAILY EXAMINER. SEPTEMBER 19, 1883.

Editorial Notes.

The ideas of Henry George have not yet, it seems, made much headway in England. At the Birmingham Trades Union's Congress, held a few days ago, a resolution calling upon the Government to declare waste lands Government property was rejected.

Mr. Patterson, Secretary of the Dominion Board of Trade, suggests that the Government prevent slow steamers from being employed in the carriage of mails between Europe and Canada, by requiring an average speed in each steamer instead of in all the steamers. The suggestion seems to be a good one.

The taxpayers of Europe see a prospect of some relief in a general disarmament of the European Powers which it is said may take place on the initiative of Germany. We fear their hopes are groundless. Peace can be maintained only by all the Powers being armed to the teeth; for fear has still more influence over the minds of monarchs than love.

For the benefit of a correspondent who enquires why ninety-five cents have been added to the "one fare rate" to St. John, we are desired to explain: that one fare rate of the P. E. Island Railway from Charlottetown to Summerside is \$1.45; of the P. E. I. Steam Navigation Co. from Summerside to Point du Chene, is \$1.50; and of the Intercolonial from Point du Chene to St. John, \$3.00; total \$5.95--which is a "one fare rate." How, then, it may be asked, is it that passengers pay \$5 for a ticket to St. John? The answer is that the ticket is issued as a "through straight ticket to St. John" and not a return ticket, each one of the connections making a discount on their local rates.

John Roach, the great United States shipbuilder, made a suggestive remark before the Senate Committee on Labor, a few weeks ago. We are told that upon being interrogated as to whether he would take charge of the work of building the Government ships, being given a salary as large as he could desire, provided only that he used all his knowledge and skill to make the best possible vessel for the least money, he answered that he would accept the position, provided only that a law should first be passed that every Senator, every Congressman and every officer of the Government who interfered with him in his work should be subject to a penalty for a penal offence for so doing. It is evident that Mr. Roach knows something about how the cost of naval vessels is so excessive in the Great Republic! The proviso, as an American exchange remarks, "is a revelation in itself."

The fate of the Greeley expedition to the Arctic regions has set people thinking whether the scientific knowledge gained is commensurate with the many lives which have hitherto, and will doubtless in the future, be sacrificed by efforts to reach a point which so far proved inaccessible. As the Toronto Globe puts it, an empty egg shell between the hands of a strong man, has as good a chance to escape as the most powerful steamers caught between two masses of ice driven irresistibly on by the never-ceasing Arctic current. The fate of Greeley and his men seems to be sealed. They failed to meet the steamer sent to relieve them, and the steamer herself was sunk after turning homeward. The sad end of these brave martyrs to a scientific craving which all experience has shown to be as unreasonable as it is insatiable, makes one wish that the North Polar cranks would themselves man the next expedition that sets out.

Thanks for copies of THE EXAMINER to hand. Always pleased to hear good of P. E. Island. I see no reason why the Island should not get up her own steam now, and join the rest of the world in the common race for supremacy through excellence.

These words--written by a gentleman in the United States to a friend in Charlottetown--please us well. We like to hear that THE EXAMINER is appreciated abroad as well as at home. But still better we like the sentiment expressed in the phrase, "supremacy through excellence." Yes, The Island boys excel when they go abroad and rise to supreme places in every walk of life; and the Island boys can, we believe, excel at home as well as abroad, and gain for their Island Home a good honest name, and a high if not a supreme place in the markets of the world. Let everything that is done be done well. Let the grain we sell be carefully cleaned, the butter sent to market carefully made, the cheese A. 1; let there be no shoddy used in our cloth factories, no sand or ashes mixed with our outs. Let nothing be marred by the hand of man or woman; but, rather, let it be improved. So shall we win for P. E. Island "supremacy through excellence." Already we are beginning to "get up steam."

Said the Marquis of Lorne, at Toronto:--

Ladies and gentlemen, you may ask me why it is that I am so enthusiastic a Canadian. I believe I am perhaps even more a Canadian than some of the Canadians themselves. I ascribe it to the very simple cause that I have seen perhaps more of your country than have very many amongst you. I know what your great possessions are, and to what a magnificent heritage you have fallen heirs. I know that great forest world

out of which the older Provinces have been carved. I know that great central region of glorious prairie land from which shall be carved in the future Provinces as glorious, or yet more glorious, than those of which we now proudly boast. I know also that vast country beyond the Rocky Mountains, that wonderful region sometimes clothed in gloomy forest, sometimes smiling beneath the sun in pastoral beauty of valley and upland, or sometimes shadowed by Alpine gorges and mighty mountain peaks--the territory of British Columbia. And in each and all of these three wide sections of your great country I know that you have possessions which must make you in time one of the foremost among the nations, not only of this continent, but of the world."

Here is a great truth well expressed--a truth which should never be forgotten.

Taking the Veil.

One of the grandest ceremonies which has taken place at the Mother House of the Congregation de Notre Dame Marie, Montreal, was that of last Wednesday morning. On that occasion twenty-six young ladies consecrated themselves to the service of God by the sacred vows of religion. The chapel of the novitiate was filled with the parents and friends of the Sisters and Novices. In the Sanctuary were His Lordship Bishop Fabre, of Montreal, Revs. E. Frauchemontaigne, Chaplain of the Community, D. Levesque, S. J., A. O'Donnell of St. Denis, and several other clergy. At the hour appointed, the twenty-six sisters entered the chapel holding lighted tapers in their hands, whilst the choir sang the psalm, "Lactans Sum." On their arrival at the Prie Dieu the Hymn "Veni Creator" was intoned by His Lordship Bishop Fabre, who presided, and was taken up by the choir and reverend gentlemen in the sanctuary alternately. Mass was then celebrated by the Rev. Father Levesque, and at the end Rev. Father O'Donnell, taking a text from the Book of Wisdom preached an eloquent sermon suitable for the occasion. Bishop Fabre then received the vows of the following sisters:-- Miss M. A. McQuaid, in religion Sister St. M. Elizabeth, Charlottetown; Miss M. A. Lamothe, Sister St. M. Sulpice, Montreal; Miss M. L. Versailles, Sister St. Paul of the Cross, Montreal; Miss M. P. Leresque, Sister St. Demetrie, Riviere Ouelle; Miss M. A. Roy, Sister St. Thomas, Mettis; Miss M. J. Roy, Sister St. Mary of Jesus, Montreal; Miss M. Podette, Sister St. Julienne of the Blessed Sacrament, St. Therese. Five young ladies also made their entrance. Among the number Miss Janet McDonald, of Panmure Island; and Miss B. Kelly, daughter of Mr. Edward Kelly of Vernon River.

The Rev. Hugh Robertson

Has met with gratifying success in his visit to Summerside and Lot 16. In the latter place he received a contribution of \$30.00 towards the mission in Eromanga. The people have also undertaken to support one of the native teachers. A gentleman at Summerside has engaged to support another teacher. Mr. Robertson held a meeting at Malpeque last evening. Particulars have not yet reached us. The rev. gentleman addresses a meeting in Zion Church this evening.

P. for Galway, delivered a speech in favor of home rule for Ireland. The meeting adopted resolutions declaring that the Irish National League will never cease its efforts until a native Irish Parliament is established.

A large meeting of the league was also held at Malloy. Wm. O'Brien, M. P., editor of United Ireland, made an address. He urged perseverance and determination to win the independence of Ireland from English domination, by peaceful means if possible, but to win it at all hazards.

The Provisional Battery in Camp at Milton.

OVER TWO HUNDRED MILITIAMEN IN ATTENDANCE.—LIVELY APPEARANCE OF CAMP GROUNDS.—GENERAL ENTHUSIASM.

The Island militiamen went into camp yesterday afternoon for the first time in the history of the Province. AN EXAMINER reporter was early on the grounds and was surprised to find that already

NUMEROUS COMPANIES FROM THE COUNTRY had arrived and were vigorously at work making their new quarters as comfortable as possible. The camp is situated on a fine large open field of rising ground, commanding a good view of the surrounding country and almost immediately opposite to Milton Station. Close at hand there is a nice clear sparkling stream of water, and in this respect at least the men will not have to want. There are, in all, about forty tents erected, each of which is sufficient to accommodate five men. At night all the tents are liberally supplied with straw, under which there is first placed several layers of spruce boughs, etc. This constitutes their couch, and if well wrapped up with good thick blankets, warmer or

BETTER COULD NOT BE DESIRED. The camp is in charge of Commandant Brigade Major Freeland, ably assisted by Major Irving, of the Charlottetown Garrison Artillery. The officers of the Battery present are Col. H. Beer, Major F. Doherty; Major G. Doherty and Lieut. McDougall, of the Charlottetown Engineers; Capt. D. Stewart, No. 3 Co., 82nd Batt.; Capt. Henderson and Lieut. W. Scott, of No. 1 Co., 82nd Batt.; Major Mabon, Lieut. Scott, Lieut. Harper, No. 4 Co., 82nd Batt.; Capt. Lieut. Bertram, Lieut. Beaton, No. 5 Co., 82nd Batt.; Capt. Alexander, No. 6 Co., 82nd Batt.; Lieut. Fraser, No. 2, King's; Capt. Maxwell, No. 1 Prince. The Staff Sergeants in attendance are Color-Sergt. M. Allan, of No. 3 Co., 82nd Batt., and Sergt. J. Allan. There are in all about two hundred men, and reinforcements are hourly expected. The camp grounds present a

VERY LIVELY APPEARANCE. everything is bustle, whilst the greatest enthusiasm prevails, both among officers and men. There seemed to be a determination on the part of everyone to make the present meeting a complete success, and we feel assured that such will be the case. Dr. J. Warburton who takes the place of Dr. Creamer as Medical Officer of the 82 Batt., completed his inspection yesterday afternoon. At sunset the camp was fairly settled down, and soon afterwards the tent lamps were lighted, rations served, and perhaps it is needless to add, that after the day's exertions, poor appetites were at a complete discount. To-day work begins in real earnest, and it is hoped that by twelve days, the length of time the camp is to last, every man will be so thoroughly drilled as to insure a most favorable report from General Luard who will probably inspect the camp. Every evening a choice programme of music will be given by the efficient Band of the 82 Batt. Not must it be forgotten that the Montague Company brought their own musician,

A VERITABLE HIGHLANDER, the inspiring strains of whose bagpipes keep incessantly before one's mind the onward march of the Campbells. It is but a pleasant drive out to the camp grounds, and a cordial invitation is extended to all visitors having an interest in our Island Militia. They would be amply repaid for their lost time by the novelty of the scene, the music from the Band, not to overlook the Highlander and his bagpipes.
