Silver Find In E. Maine Termed Good

AUGUSTA, Me. (AP) — A state geologist today termed a silver find by a Canadian company in eastern Maine as "good enough to be excited about."

Webster F. Stickney said a core-hole drilling at Pembroke by Dolsan Mines Ltd. of Montreal is as "good a hole as has ever been drilled in Maine."

Pembroke is near the western shore of Passamaquoddy Bay.

Charles D. Robbins, Dolsan president, said assays show .403 per cent zinc, 5.73 ounces of silver a ton and 0.46 per cent lead over a 75-foot-wide section of the hole from 550 to 625 feet deep.

"It's unusual to find high-grade silver mixed with such a good grade of zinc," Stickney said.

GOLD PETERS OUT

The assistant state geologist also said that gold, found several weeks ago in another section of Dolsan property, has probably petered out in new cores drilled nearby, because gold "is elusive" and its veins are difficult to follow. By contrast, silver was easy to follow.

Work started today on another drill hole some 200 feet south of the silver find and will begin within a week on a third hole about 200 feet north of the find, he said.

"With only three or four more holes of this type, we'd have millions of tons of zinc and much silver," Robbins said.

The current selling price of silver in the United States is approximately $1.30 an ounce.

BROOKLYN EXHIBITOR H AS GRAND CHAMPIONS

Jack MacKinnon, Brooklyn, second from left, had the grand champion Hereford bull and the grand champion cow of the same breed at the agricultural fair at Dundas Thursday. Veteran Hereford breeder, Louis Hayden, Cherry Valley, the man who first brought Herefords to P.E.I., is seen at left presenting trophies awarded by the P.E.I. Hereford Breeders Association. Each of the trophies is a desk set with a ballpoint pen and a desk clock.
