PARSONS' PURGATIVE PILLS
MAKE NEW RICH BLOOD,
And will completely change the blood in the entire system in three months. Any person who will take 1 Pill each night from 1 to 12 weeks, may be restored to sound health, if such a thing be possible. For curing Female Complaints these Pills have no equal. Physicians use them in their practice. Sold everywhere, or sent by mail for eight letter-stamps. Send for circular. I. S. JOHNSON & CO., BOSTON, MASS.

DIPHTHERIA, CROUP, ASTHMA, BRONCHITIS.
JOHNSON'S ANODYNE LINIMENT will instan-
taneously relieve these terrible diseases, and will positively
cure nine cases out of ten. Information that will save
many lives sent free by mail. Don't delay a moment.
Prevention is better than cure.
An English Veterinary Surgeon and Chemist,
now traveling in this country, says that most
of the Horse and Cattle Powders sold here
are worthless trash. He says that Sheridan's
Condition Powders are absolutely pure and
immensely valuable. Nothing on earth will make hens lay like Sheridan's Condition Powders. Dose, 1 teasp-
ful to 1 pint food. Sold every where, or sent by mail for 8 letter-stamps. I. S. JOHNSON & Co., BOSTON, MASS.

CURRENT NOTES.
Lord Granville, it is stated, has offered
to mediate between France and Madagascar.
Shediac takes the lead in old age. There
is a woman, a Mrs. Corneau, living in
Tadish, now past 102 years old.
At the Hampton summer meeting, on
the 15th inst., the Bushy Park selling
Welter handicap, was won by Reed's Lady
Macbeth; ten starters.
The Conservatives of Jacques Cartier
have nominated Hon. Mr. Mousseau as
their candidate at the coming election for
the Legislative Assembly.
The Government bill abolishing the
hereditary Chamber of Peers and creating
a Senate, has been submitted to the Bureau
of the Cortes. Gen. Pereira De Mallo, the
Prime Minister, has been instructed to re-
organize the Cabinet.

After years of discussion, and the expendi-
ture of a large amount of money, the
question of tunnelling the English channel
has at last reached a point which leads us to
believe that the matter will shortly be set-
tled, either one way or the other.
Three hundred girl students of Vassar
College, are reported as having rebelled
against the course pursued by the professor,
and the senior graduate declined to deliver
the valedictory. They claim that they are
crowded with studies to the detriment of
both their mental and physical systems.
The papers in the appeal from the judg-
ment of the Supreme Court in the case of
Doutre vs. the Queen, have been forwarded
to the Privy Council. Mr. Doutre was
awarded \$8,000 in connection with the
fishery claims, for professional services,
and the Government are now appealing
against this.
The German Government has resolved to
purchase six railways, including the upper
Silesian and Berlin and Hamburg roads.
The estimated cost is \$325,000,000, for
which special arrangements will be made.
The possession of these roads will enable
the Government to control the whole
system of railways in the Kingdom.

A serious accident occurred at Mystic
Bridge, Conn., Wednesday, during the cere-
monies attend the dedication of a soldier's
monument. While a salute was being fired
from a battery of artillery, two Grand
Army Posts, who were marching by at the
time, received the contents in their ranks.
Eighteen men were more or less seriously
injured, but all are now doing well.
Kennedy, the Winnipeg Registrar, and a
director of the Merchants' Bank, is \$50,800
short in his accounts there. He has in-
dulged in speculation which has been going
on for three years. Recently he refunded
\$13,000 to the Government, and all his
real estate has been transferred to the Gov-
ernment for the balance. He has a large
family and will be dismissed from office.
The other day a friend called upon Mr.
T. B. Aldrich at his office in Boston, which
overlooks the Granary burying-ground, and
made a casual remark on the pleasant sur-
roundings. "Yes," said Mr. Aldrich,
glancing out of the window at the moss-
covered tombstones in the graveyard, "I
have excellent neighbors; they never send
in any manuscript."
The committee of the Lower House of
the Landtag, on the Church bill, has ap-
proved clause 5 of the measure, with an
amendment allowing Bishops recognized by
the Senate to exercise their functions out-
side of their diocese. All amendments to
the 6th clause (which repeals the provisions
of the May laws,) inconsistent with the
bill, were rejected. The first reading of the
bill has been concluded by the committee.

An underwater for children is the subject
of a patent granted to Mary E. Higgins, of
Cadillac, Mich. This invention consists in
a laced waist, composed of two seamless
half bodies, and capable of adjustment
down its back and front to vary its size,
combined with the waist straps for sup-
porting the hose and leggins of the wearer,
all the parts being so adjusted that a child
wearing the article has the greatest liberty
of action, and without any strain on the
body.
A peculiar case of larceny came up before
an Ottawa magistrate the other day. Two
young men were charged with presenting
themselves at the house of one Jennie
Bates and representing that they were do-
ing special duty. The woman admitted
them and allowed a search of the premises
to take place, under the impression that
they were clothed with the proper authority.
After the scamps had departed, she missed
five hundred dollars in cash and a gold
scarf pin. The prisoners were remanded.
AQUATIC—Kennedy, the oarsman, was
asked if the published report that arrange-
ments for another meeting between himself
and Hanlan are being made was true. He
replied that he had not authorized any such
statement.
"But is another race contemplated?" in-
quired the reporter.
"Not by my authority," he replied. "I
am under engagements here for a time that
I must fulfil, and for the present I can't row
with anybody."
In an interview at Rome, Friday, 15th
inst., King Humbert, speaking of the
Vatican question, declared that he had the
sincerest respect for the person of the Pope,
and regretted deeply that reconciliation be-
tween church and state seemed so far dis-
tant. "If the Pope were to leave retire-
ment for the streets of Rome," said his
majesty, "I feel convinced he would meet
with the utmost deference. I have no
ambition save to diminish taxation, which
is very heavy, I admit, and to retain what
we have won since Italy became united.
We have no selfish ambition, colonial or
otherwise. When people wish to diminish
taxation it does not increase the expendi-
ture. We have made great progress; we
need peace."

CURRENT NOTES.
The Suez canal is to be illuminated at
night by electric lights.
It has been decided that the American
team shall go to Wimbledon according to
the programme.
The grand jury at Cobourg have returned
a true bill against Aikins and McClung, of
Centreville, for homicide.
The fraudulent assessment case at
Welland has terminated in a verdict of
guilty. Sentence has been deferred for a
week.
The Apaches captured by Gen Crook will
be held prisoners until provision has been
made for settling them in the Indian
territory.

The members of the American legation in
Paris deny that a number of United States
naval officers have asked permission to
serve in the Chinese navy.
Mr. Small, a Parnellite, has been elected
to Parliament, without opposition, for
County Wexford, in the place of Mr. Byrne,
Home Ruler, who resigned.
London Truth states that the Queen has
quite recovered from the injury to her
knee, but her general health is suffering
owing to depression of spirits.
Mr. D. B. Woodworth, M. P., has sub-
scribed to the funds of Acadia College the
sum of \$500. This makes \$1,000 Mr.
Woodworth has given to this institution.
The King of Annam has sent two envoys
to Saigon to protest against the action of
the French, and to express his desire for
a peaceful solution of the present difficulty.
Mr. Norman L. Munro, the New York
publisher, has brought suit against Mr.
Bennett, of the Herald, for \$100,000 for
estranging his wife and breaking up his
family.
It is reported that a new monthly steam-
ship line between Bremen and Montreal has
been formed, and the Dominion Govern-
ment has given the company a subsidy of
\$2,000 a month.

French silk manufacturers are reported to
be very hopeful as to the capabilities of a
big spider lately discovered in Africa,
which weaves a yellow web of great strength
and elasticity.
British relations with Bulgaria have been
severed, and the other powers are threaten-
ing to follow England's example, as they
considered the Government of the country
is without authority.
A contract has been given out to build
the Gatineau railway from Ottawa for
seventy miles up through the district where
the phosphate mines are situated. The
cost is estimated at \$16,000 per mile.
Farmers in the Ottawa Valley anticipate
a heavy hay crop, but are by no means as
anguine regarding grain crops, owing to
continuous wet weather. The low lands are
suffering severely from moisture. In some
instances farmers have been obliged to
plant potatoes a second time, the seed hav-
ing rotted in the ground.
John Wesley once wrote to one of his fol-
lowers a letter which contained a bank-note
and the text, "Trust in the Lord and do
good; so shalt thou dwell in the land, and
verily thou shalt be fed." His follower
replied that he had been often struck by
the beauty of the text, but had never seen
such useful expository notes on it before.
The London Truth states that the Queen
has quite recovered from the injury to her
knee. The depression of her spirits is,
however, said to cause some anxiety owing
to its influence on her general health.
Arrangements for the Queen's departure
from Scotland on the 20th instant are being
made. The report of her intended abdic-
ation is positively denied.

The venerable member of the House of
Commons for Derby, Mr. M. T. Bass, of
the great brewing firm, has resigned his
seat on the ground of ill health. The
honorable gentleman, who was born in
1799, entered Parliament for Derby at a
bye election in August, 1848, and has since
continued to sit for the town, having at
every election except one been returned at
the head of the poll. Two of his sons re-
main in Parliament.
There is a correlation between the differ-
ent senses which is worthy of observation.
Thus the near-sighted man says he can
hear better when he has his glasses on and
the deaf man can see better when he is
using his ear trumpet. These important
facts are added to by the recent obser-
vations of a New York modiste, who has
discovered that sewing girls work more
rapidly when they are chewing gum than
when their mouths are entirely empty.
This is an important scientific discovery,
and probably shows the correlation between
the female jaw and other muscular forces.
The fact has hitherto escaped the attention
of sociologists, although it has long been
known that the most profound reflections
of the cow occur while she chews her cud.
Mr. Davin announces the success of the
Leader, established by him, about three
months ago at Regina, the capital of the
North-West. In an editorial in the issue
of the 7th instant, he says: "In the
history of journalism there never has been
so rapid a success as the Leader. It has
been magnificently supported by the
citizens of Regina and the settlers of the
Province. Our expenses during the first
month were simply appalling, but the in-
come of the paper has not only paid running
expenses, met all the expenses incidental to
starting in a new country, but enabled us to
pay a large sum to capital account." We
congratulate Mr. Davin upon his being in a
position to make the above announcement.
The Leader has honestly and earnestly gone
to work to promote the interests of Regina
and to expose what it regarded as abuses. It
has been fearless and outspoken. The
editor appears to have unlimited confidence
in the future of Regina.
