3 Engineering Firms Hired To Study Causeway

\$400 TO \$500 MISSING

Sate Is Blown Open At Golf Clubroom

A safe blowing incident at the clubrooms of the Charlottetown Golf Club sometime during Saturday night or early Monday morning, netted thieves between \$400 and \$500. Dr. J.K.L. Irwin, club president reported last night.

The intruders apparently gained entry by breaking out the glass in the side entrance, and after forcing several interior doors made their way to the office.

In the office the close to 1,000 pound safe was tipped over, and a hole blown through the bottom. Dr. Irwin said that the en-

offer of aid loses friend

HAMILTON (CP)—A stamp-weighing machine and Irene Pikarski, 17, completed Saturday for the attention of 18-year-old Peter Napper. The stamp machine won't cling to Peter's finger for 2 1/2 hours.

Miss Pikarski gave up and went alone to the party while Peter went with an entourage of police and firemen to hospital to have his finger freed.

Police and firemen jugged at Peter's finger and finally wrenched the machine from his moorings.

Two-and-a-half hours later firemen smashed the machine spunging it from the party.

When he finally arrived at the party Peter was told by his girl friend they were through.

Said a disgruntled Peter: "Maybe he was mad about all the fuss with the stamp machine."

Yanks Reict Berlin-Cuba Deal With Reeds

WASHINGTON (AP)—U.S. authorities ruled Monday any Berlin-Cuba deal with the Soviet Union and predicted the German issue may become a first-class crisis by Christmas.

Soviet Premier Khrushchev said to have indicated he will test new types of multi-stage rocket carriers in two areas of the Pacific—including one north of the Hawaiian Islands—for six weeks starting today.

The Soviet news agency Tass said tests of the "savage" aimed for "cosmic objectives" would run until Nov. 30 in areas north of the Hawaiian and Midway Islands and west of the Marshall Islands and the Gilbert Islands.

The announcement said the Soviet government had asked interested governments to warn ships and planes to keep clear of the areas.

Girl Killed Leaving Bus

NEWCASTLE, N.B. (CP)—Sharon Bell, 18, died early Monday of injuries received when struck by a truck near her home at nearby Carleton.

Hit as she got out of a school bus, she died en route to hospital. Coroner W. W. MacKay has ordered an inquest.

Commons Hears Query Answer

OTTAWA (CP)—Three engineering firms have been hired by the federal public works department to study the task of constructing the causeway between Prince Edward Island and New Brunswick, the Commons was told Monday.

Robert McCleave (PC—Halifax), parliamentary secretary to Works Minister Fulton, said the department now is setting out the terms of an agreement between the government and the three companies, which together have formed Northumberland Consultants Limited.

No report has yet been submitted to the minister, he added.

Wheat Sales To Reels Sparks House Debate

OTTAWA (CP)—Social Credit Leader Thompson urged the government Monday to give priority to Canada's Western friends—instead of to Communists—in granting export credits for wheat sales.

But in reply to a speech by opposition farm critic Hazen Argue, Mr. Thompson said his party will support the government bill doubling to \$400,000,000 from \$200,000,000 the funds available for the Export Credits Insurance Corporation.

The Commons returned to the trade debate, which opened Friday, after spending nearly two hours on the afternoon's preliminaries—which include dealing with 243 written questions on the Commons order paper, the first batch of these this session.

Mr. Argue (Lib—Asiniboia) quoted statements made by Mr. Thompson and his deputy, Real Caouette, since the June 18 election.

Mr. Thompson said 19 countries, particularly Red China, the credits always had full support of all other parties.

Mr. Thompson said he proposed the credits to Communist countries when they were not on our side.

USE IT POLITICALLY He said the Communists are using Canada's wheat for political purposes. The first shipment of aid to arrive in new-ly-launched Communist countries is "Canadian wheat sold to China and moved in German boats."

Mr. Reid Scott (NDP—Toronto Danforth) introduced a motion that the Export Credits Insurance Act be amended to clear the way for Canada to provide low-interest loans to avoid underdeveloped countries to buy Canadian products.

Proceedings of the House of Commons, October 16, 1962. Minutes when officials were unable to find section 23, which Mr. Reid Scott (NDP) said the Trade Minister Hees waved a copy of the present act and said it continued to such extent.

Mr. Scott replied that he read the act from the revised statutes (1962). Hees said the act has been amended several times since then.

When further discussion was interrupted by the start of a private members' hour, it was carried over to the night session when there was a further 15-minute argument on the question.

COMMONWEALTH STUDENTS ENTERTAINED

Three students at St. Dunstan's University from Commonwealth countries were entertained yesterday by the Royal Edward Chapter, Imperial Order Daughters of the Empire. The function was held at the home of Mrs. C. St. Clair Trainor.

Mr. Earl said the tariff has been used to maintain industrial "white elephants." He cited the automobile and coal industries as examples and called for an end to "subsidizing inefficient producers."

The tariff should be used only in cases of emergency, to protect industries that offer potential problems of this region.

Mr. Earl, economics professor at the University of New Brunswick in Fredericton, said a policy of free trade would benefit Canada as a whole and the Atlantic provinces in particular.

Both spoke during a trade discussion at APEC's annual meeting. The council comprises about 2,100 businessmen, industrialists, and government officials seeking to promote regional development.

Mr. Woodfine said Canada's policy of protective tariffs has not worked. It cost the country an estimated \$1,000,000,000 a year, most of it borne by primary producers in Eastern and Western provinces.

Both spoke during a trade discussion at APEC's annual meeting. The council comprises about 2,100 businessmen, industrialists, and government officials seeking to promote regional development.

Mr. Woodfine said Canada's policy of protective tariffs has not worked. It cost the country an estimated \$1,000,000,000 a year, most of it borne by primary producers in Eastern and Western provinces.

Mr. Hamilton said the three-year period covered by the agreements can amount to \$50,000,000, with a total of \$100,000,000 in any one fiscal year. Provincial contributions depend on the net value of a province's agricultural production, the number of farms it has producing less than \$1,200 income a year, and the size of its rural population.

Mr. Hamilton said the three-year agreements were only the initial phase of a long-term program.

"We are going to use the three-year agreements to develop a number of pilot projects and extensive research, and to work out the best means of implementing the program's long-term goals."

Under the act, passed by Parliament in 1961, alternative uses will be sought for farm land which is no longer suitable for economic to cultivate. These could include establishment of community pastures, tree farms for recreational and wildlife areas, and water conservation and new uses for marginal and sub-marginal land.

Moon Shot Postponed

CAPE CANAVERAL, Fla. (AP)—U.S. space officials Monday postponed for 24 hours, until Wednesday, an attempt to launch the Ranger V spacecraft to the moon.

The effort was called off when checks changes made on the spacecraft could not be completed in time to replace the vehicle on top of the Atlas-Agena B booster rocket.

The 750-pound gold-and-silver-plated Ranger V is intended to travel 250,000 miles to through space in 68 hours, take closeup television pictures and then land.

Trouble developed in the payload during a checkout Sunday and it was removed to a hangar for replacement of a component.

Officials said they should be able to rejoin the spacecraft with the rocket in time for a Wednesday morning launching.

Instead Canada should offer British exporters greater access to Canadian markets. "I think this would meet with a sympathetic response in the United Kingdom and they might be persuaded to attack with the Commonwealth."

Edmund Morley, Halifax Conservative member of Parliament and former parliamentary secretary to Trade Minister Hees, said he has no doubt after attending the recent Commonwealth conference that Britain is going to take the initiative.

"Our attention should not be (Continued on page 4 Col. 2)

Saint John Mayor Teed Re-elected

SAINT JOHN, N.B. (CP)—Eddie L. Teed was swept to the mayoralty of Saint John for a second term Monday in a comfortable, election victory over two opponents.

Piling up 4,781 votes, the 36-year-old lawyer advanced his challenge to Mrs. Hazel O. Phillips, a housewife and businesswoman, and Richard T. other observers to contribute their ideas freely, Cardinal Bea told them the council would try

He addressed them as "my very dear brothers in Christ" Cardinal Bea said baptism "has established bonds that are indissoluble," among members of the difference branches of Christianity—bonds that are "stronger than our divisions."

Russia Plans Rocket Tests

MOSCOW (Reuters)—Russia will test new types of multi-stage rocket carriers in two areas of the Pacific—including one north of the Hawaiian Islands—for six weeks starting today.

The Soviet news agency Tass said tests of the "savage" aimed for "cosmic objectives" would run until Nov. 30 in areas north of the Hawaiian and Midway Islands and west of the Marshall Islands and the Gilbert Islands.

The announcement said the Soviet government had asked interested governments to warn ships and planes to keep clear of the areas.

He credited Pope John for sparking the change.

Of course the great and deeply-rooted obstacles which are separating us are clear before the eyes of all those gathered here," he added.

But he said the mutual re-examination of positions was showing that all Christians share a "more common substance" than is readily apparent.

He addressed them as "my very dear brothers in Christ" Cardinal Bea said baptism "has established bonds that are indissoluble," among members of the difference branches of Christianity—bonds that are "stronger than our divisions."

It was one of the most pointed assertions yet of Rome's mounting attitude of solidarity with other Christians.

HOLD PRIVATE TALK It received further impetus from a private conference between Pope John and a top aide of Protestantism, Fred Pierce Corson of Philadelphia, at the World Methodist Council.

He and the Pope met for 40 minutes for a private audience. It was the first such audience granted by the head of the Roman Catholic Church for a ranking Methodist official.

Pope's Adviser Affirms Ties with All Christians

VATICAN CITY (AP)—The Pope's leading adviser on inter-church relations Monday affirmed basic Roman Catholic ties with all Christians—through baptism.

He urged representatives of all denominations to take an active part in the Vatican's ecumenical council.

"Share with us as your positive criticism, your suggestions and your prayers," Cardinal Bea said during a special reception for about 40 orthodox, Protestant and other observer delegates.

He addressed them as "my very dear brothers in Christ" Cardinal Bea said baptism "has established bonds that are indissoluble," among members of the difference branches of Christianity—bonds that are "stronger than our divisions."

It was one of the most pointed assertions yet of Rome's mounting attitude of solidarity with other Christians.
