THREE RIVERS STEAMSHIP CO.
may16—dy 2aw wky 1m

BELKAISER, 1819⅞,
Grandson of George Wilkes, 2.22,
IS a seal brown horse, three years old, about 15½ hands and 1000 pounds in weight, bred by the well-known horseman, Dr. J. W. Day, New York.

His sire is Kaiser, 2200, record 2.28½ in a race (foaled in 1882), sire of 3 in list, by George Wilkes 2.22, sire of 79 in 2 30 list, of 83 sons sires of 807, and 51 daughters dams of 65. George Wilkes stands at the head of over 1200 performers in 2 30 list, and made only nine seasons in the stud.

The first dam is by Bellwood, 371, by Woodford Mambrino 2.21¾ (sire of dam of Kremlin 2.07¾) out of Belle, dam of Belmont, sire of Nutwood, sire of 100 from 2.09¾ to 2 30. Second dam by Greyhound 2.31, by the sire of Ethan Allan 2.25½, sire of Daniel Lambert, sire of 36. Greyhound's dam produced two with records of 2.24½ and 2.25. Dictator, 113, sired the dam of Belkaiser's sire; he is also sire of the dam of Nancy Hanks 2.04, the world's champion trotter. The other champions are Kremlin 2.07¾, champion trotter; Martha Wilkes, champion race record 2.08¼; Moquette 2.10, champion four-year old stallion, and Silicon 2.15¾, champion two-year-old race record. The crosses close up in Belkaiser's pedigree combine the leading blood lines in the pedigrees of these champions of the turf. Belkaiser's is the Wilkes-Mambrino cross—the most successful Wilkes cross. A few of the great sires bred this way are Red Wilkes, sire of 79; Onward, 64; Alcantara, 51; Alcyone, 31 (sire of Martha Wilkes 2.08); Guy Wilkes, sire of 29, including Sable Wilkes 2.18, sire of Freedom 2 29¾, first yearling trotter in 2.30 list; Jay Bird, sire of 25, including Allerton 2.09¼, and Eagle Bird 2.21, sire of Monbars 2.11¾ (3 years). Eagle Bird was foaled in 1882, when his sire was only four years old. Another is Simmons (foaled in 1879), sire of Greenleaf 2 10½, New York Central 2 13½, Simmocolon 2.13¾, Coralloid 2.14¼, and 25 others.

A premium of $150 will be given to the owner of the first trotter by Belkaiser credited with an official record in table of 2 30 trotters, provided horse is living and in hands of his present owners. Although making this offer, the service fee has been placed at the low figure of $20, to be settled by note if not paid at time of first service. Usual return privilege season of 1894 if mare proves not in foal. Catalogue giving full particulars of pedigree, etc., furnished on application. Breeders will do well to call at stables of Mr. J. D. McLeod, near new Masonic Temple, where horse can be seen in charge of George Williams. dy 2i wy 4w—may23

Delays may cost a life. Relieves all Summer Complaints like magic. Price, 35 cts. post-paid; 6 bottles, $2. Express paid, I. S. Johnson & Co., Boston, Mass.

The Royal Wedding.

REGAL PERSONAGES EXPECTED—THEY WILL BE THE GUESTS OF THE QUEEN.

A large number of royal personages are expected to visit England on the occasion of the wedding of the Duke of York and Princess Victoria, including the Crown Prince and Princess of Denmark, unless the king and queen shall be able to come themselves; Prince Albert of Belgium, Prince George of Greece, the Duke of Aosta, or the Count of Turin. Prince and Princess Henry of Prussia, Prince and Princess Frederick Charles of Hesse, the Grand Duke of Hesse, the hereditary Grand Duke and Duchess of Mecklenberg-Strelitz, Prince and Princess Philip of Saxe-Cobourg-Gotha, the Duke of Oporto, Prince and Princess Adolphus of Schaumburg-Lippe, Duke and Duchess Albert of Wurtemberg, representing the King and Queen of Wurtemberg, and a representative of the Emperor of Austria. The court of St. Petersburg will be represented either by the Grand Duke and Duchess Vladimir or by the Grand Duke and Duchess Serge.

These royal guests will stay either at Buckingham Palace or Marlborough House, and some of them are to be quartered at Clarence House. The foreign royalties will stay in London, as the queen's guests, only a few days, and are to be entertained with a state ball, a state concert at Buckingham Palace, and a garden party at Marlborough House, with a dinner party each night. There will also be the functions at the Embassies and at certain private houses. Lord Rosebery will probably give a ball at the foreign office on the night before the wedding. The queen intends to give a state banquet at Buckingham palace to the royal family and the royal guests from abroad.

MISS MYRTIE SALLS' RECOVERY.—After a long term of illness from kidney trouble, obstinate constipation, headaches and general bodily pains, Miss Myrtie Salls, of Marlington, Stanstead County, P. Q., has quite recovered, and is able to work about the house as in past years.

For months this young lady's condition was serious; and notwithstanding the fact that she received regular medical treatment and great care, her condition became alarming to herself and friends. Miss Salls, like thousands of other suffering individuals, determined to try Paine's Celery Compound, which some friends recommended. The results that followed the use of that great medicine were wonderful, and delighted everyone who was interested in the young lady's recovery. Miss Salls is now a firm believer in the efficacy and value of Paine's Celery Compound; and her friends are of opinion that no other medicine in the world could have restored Miss Salls to her present good health. Under date of May 23rd, 1893, Miss Salls writes as follows:—

"Your Paine's Celery Compound has done so much for me that a sense of duty compels me to speak in its favor. For a long period I suffered terribly from kidney trouble; often I was so bad that I could not stand. Owing to kidney disease other sufferings were endured, such as constipation, headaches and bodily pains. I was unable to work at anything, my appetite was bad, and I did not sleep well. Thank God, things are now changed; I used your Paine's Celery Compound and have been entirely cured of the kidney trouble, and now find myself a new being. I can now work hard every day, my appetite is good and I sleep well. I feel satisfied that your wonderful medicine has done more for me than any doctor could have done. I will take pleasure in recommending it to my friends as the best remedy in the world."

DIED FROM WRESTLING.—A young man named J. H. Dowling arrived home at River Inhabitant, Cape Breton, a few days ago, from the United States. Soon after coming home he met, among other friends, one named McPherson. The two tried their skill at wrestling. The first trial resulted in Dowling going under, and the second in the same way, but no sooner did Dowling touch the ground than he expired. As blood issued from the mouth it is supposed that in his exertions he burst a blood vessel.

C. Nicholl, of St. John, says that Hawker's Tolu is the best medicine he ever took. He strongly recommends it to all. ....

LIBERAL MEETING.—At the Liberal Convention at Alberton on Wednesday, the following delegates were appointed to attend the Liberal Convention at Ottawa on the 20th inst.: Peter Doyle, Tignish; B. Rogers, Alberton; J. W. Richards, Biddeford, Bennet J. Haywood, Duvar Road; Daniel Campbell, Lot 16. Several alternates were also appointed. A resolution was passed expressing approval of Mr. Laurier and the Opposition policy. During the Convention a Liberal Association for Prince County was organized, with the following officers: President, Bennet J. Haywood; First Vice-President, Napoleon Gallant; Second Vice-President, Stephen E. Gallant; Third Vice-President; B Rogers; Secretary, P. N. Pate. The meeting was addressed by Messrs. Yeo, Perry, Richards, Rogers and others.

A. L. Brackett, of Boston, has used Hawker's Pills whenever he needed medicine for over three years. They are always used by him as a family medicine. ....

Wool—Nat Sewell is going to be a terrible bore.

Mrs. Van Pelt—In what particular?

Wool—I asked after his health this morning, and he sat down and told me all about it.

No other remedy for pulmonary troubles combines so many good qualities, nor proves so generally efficacious as does Puttner's Emulsion. For sale by all medicine dealers, only 50 cents for a large bottle. ....

USE SKODA'S DISCOVERY, the great blood and nerve remedy

LETTERS TO THE EDITOR

A Suggestion to Teachers.

SIR,—It is generally recognized by all who take the trouble to enquire, that of the various adverse influences to the more complete success of our educational system, the want of sufficient pecuniary inducements to teachers to remain in the profession is the most formidable. The records of educational work in the past go to show that, almost without exception, teachers of the highest rank for professional acumen quit the profession after a service of from one to four years—in most cases just when they have acquired sufficient experience to teach successfully. In fact, as a rule, it is only teachers of the very lowest rank, men whose ambition is easily satiated, who are content to make teaching their perdurable profession for the remuneration now available. Now, any move having for its object the obviation of this detriment to the cause of education should, I think, command the attention of teachers and the co-operation of parents and of all who have at heart the welfare of popular instruction. But in view of the present condition of our public finances, and the already burdensome tax on the treasury for educational purposes, we cannot justly look for the required remedy in this direction. Would it not, then, be well for the teachers themselves, seeing that they are the parties interested in the more substantial way, to make the initiative step to the desired end? There are, indeed, many, and some excellent ways of investing savings, with a view to providing against financial disaster in case of incapacitation of any kind. But in my opinion the best possible way of making such provision has not yet been tried by the teachers of this province. In many of the New England cities the work of establishing "Teacher's Annuity Guilds," has been undertaken and attended with complete success. These institutions are conducted on the principles of mutual benefit, being somewhat analagous to human life insurance, including in their constitution the advantages of assurance against accident at the same time. The tax imposed on the members is in no case burdensome, while the advantages accruing to many are immense. Such a scheme as this could, in the opinion of the writer, be operated in this Province, if not to the complete removal of the drawback, at least in a great measure to the mitigation therof. It is not my purpose at present to offer any practical suggestions as to how such an organization might be conducted. I merely wish to introduce the question of the expediency of such an institution to the attention of the teachers, and invite for it a liberal discussion.

Thanking you, Mr. Editor, for your valuable space, I remain,

TEACHER.

Prince Co., June 9th, 1893.

General Telegraphic News.

QUEBEC, June 8.—The Quebec Government has offered a reward of one thousand dollars for the capture of the Clarenceville murderers, although the opinion gains ground every day that the man who killed the ladies also killed himself and was buried with them.

BIDDEFORD, Me., June 8.—About fifty weavers and a number of spinners employed in the Pepperell Mills stayed away from work this afternoon. The others were obliged to stay out because of the absence of the back-boys. In all about 200 employes are out. The trouble began with the back boys, sweepers and cleaners, who stayed out yesterday. The street talk is that the employes struck for an increase in wages. Agent McArthur says no demand or request for an increase was presented to the company. He says the trouble amounted to nothing, and says Pepperell is paying as high wages as any cotton factory in New England.

SYDNEY, C. B., June 8.—The grit convention to nominate delegates to the Ottawa meeting was held here to-day. There were seventeen regular delegates from twenty-four polls and to make the gathering look decent, quite a few camp followers of the road money boodlers were hustled into service. Consternation spread when it was announced that there was not enough money left to pay the delegates expenses.

BANGOR, Me., June 8.—Greenwood C. Bray, of Shirley, put four bullets into his wife to-day, two of which pierced her heart. He then fired three shots at her sister, but none took effect. Then he went indoors upstairs, loaded the seven chambers of his pistol and fired one into his head. He is dying. He leaves two children. Domestic trouble separated him from his wife a month ago.

QUEBEC, June 8.—A farmer named Lefebvre, of Charlebourg, while feeding his horse, was kicked so badly that he died a few hours after the accident.

MONTREAL, June 8.—In October last Miss Brault, the 19-year-old daughter of a well-known musician here, was reprimanded for some trifling act of disobedience that had incurred her father's displeasure, and at once left the house, saying they would never see her again. Miss Brault never returned home, but her parents hoped that she had not carried out her dark threat, and duly looked for her return. This morning, however, the mystery was solved by finding the poor girl floating in the river. The body was so much decomposed that identity would have been impossible had not the family recognized certain articles of jewelry as belonging to the deceased.

For Over Fifty Years

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

For sale by all Druggists. Trade supplied by W. R. Watson, Charlottetown, P. E. I.

1893 SWIFT!
THAT the '93 "SWIFT" is the best wheel made in ENGLAND, and that it is second to none in AMERICA, any unprejudiced wheelman will say after a fair test of this Machine's powers.
Here are a few plain reasons why the SWIFT, made by the Coventry Machinists' Company, Coventry, England, the oldest Cycle Manufacturers in the world, is the acme of all that is great and good in a strictly high-grade wheel:—
WHY? BECAUSE it is simple, and the adjustment and bearings accurate.
BECAUSE it is light and strong—correct proportions not weight give strength.
BECAUSE its roller forged chain reduces friction to a minimum.
BECAUSE it is not possible to make a better wheel.
Many more equally strong reasons can be given why the "SWIFT" is THE wheel. I will have a sample wheel here in a few days. Hold your orders until you have seen it. Now is the time to buy the "SWIFT."
Terms Cash; or to those who prefer, on easy instalments.
