THE INTERNATIONAL YACHT RACE.—We were shown to day excellent photographs of the yacht Valkyrie and Defender, taken when under full sail. They can be seen for a few days in the show window of Messrs. Johnson & Johnson's Queen Street Drug Store, and everyone interested should make it a point to see them. The photos are the property of Mr. J. A. Gourlie, of Summersville.

TIME BY THE FORELOCK.—The St. John Sun says: A Charlotte county farmer has prepared his potato ground for next spring. The drills have been made, filled with dressing, and covered with earth. All that will be necessary for him to do about the middle of next May is to make a hole with a sharp instrument of some sort, drop the seed into it and then cover it with a hoe. This arrangement will, of course, greatly facilitate matters in the spring.

HOME FOR INTERMENT.—The body of the late William Irving arrived from Boston on Saturday evening, and was yesterday interred in the Birch Hill cemetery. The funeral was largely attended, a great many people going out from the city. There were religious services both at the house and the grave. It seems that Mr. Irving was a brickman on the Fishermen's wharf and in some way fell between the cars while the train was in motion and was killed, three cars passing over his body. The deceased was in the fortieth year of his age and leaves a wife and seven children to mourn their loss.

TONKA. WHAT IS IT?

TRIED HIS MOTHER OCT.—There is no love like motherly love, we often hear it said. However, a very strange circumstance was brought to the notice of the North Sydney Herald the other day. A widow, aged about 80 years and belonging to a place not one thousand miles from East Bay, was lamenting that her eldest son had taken possession of her property and would not let her live on it, and she was thrown upon the cold world. She tried to meet her son in Sydney to effect an understanding with him, but he positively refused to see her who had spent many an anxious hour in rearing him.

CROSBLEY AND HUNTER.

Rev. Messrs. Crossley and Hunter, the Evangelists, arrived here on Saturday evening, and began work yesterday. Previous to the regular service in the Baptist Church, Rev. Mr. Crossley gave a brief address in the course of which he referred to the success which had attended their Evangelistic work in other cities, and spoke hopefully and encouragingly as to what might be expected in Charlottetown.

From their Mr. Crossley went to the Second Methodist Church, where he also spoke, taking for his text James 5:16, "The effectual fervent prayer of a righteous man availeth much."

Mr. Hunter spoke in the First Methodist Church in the morning to a large congregation. His discourse had special

reference to the work he and his colleague had done in other places and what they hoped to do in this city.

At the Union Service in the Baptist Church in the afternoon both Evangelists spoke. Their discourses referred especially to the results which may be expected with the greatest attention by the large number of people present.

In the First Methodist Church, in the evening, the large congregation was treated to addresses by Messrs. Hunter and Crossley which cannot fail to be productive of good. Mr. Crossley also rendered two vocal solos. Many persons remained for the after service.

WHAT THE DRUMMES SWEAR BY.

Commercial travellers and other men constantly exposed to the vagaries of the weather often get so chilled that a serious cold is the result, which may linger for months and cause no end of trouble and doctors' bills. A little precaution would make such chills well-nigh impossible. For even a moderately thin coat if lined with Fibre Chamoo makes a protection which no biting or raw wind can penetrate, while its porous nature and light weight make even long frosty drives possible without being burdened by the weight of one's wraps. The extra expense in making clothing up with Fibre Chamoo, so that the delight of being warmed in by it from the cold should be tested by everyone.

The reach of customers to Carter's Book store is so great that the floor at the entrance has been worn through by the many feet passing in and out. The Messrs. Carter have had a new floor laid this morning by Parkman & Crabbe, carpenters.

Messrs. Crossley and Hunter's books are for sale at Carter's Bookstore.

SERIOUS SHOOTING AFFRAY.

Benj. Doane Shot in the Leg Early Yesterday morning.

On Saturday evening a party of five or six young men hired a horse and double carriage at one of the livery stables and started out to have a good time. Before they returned they got into serious trouble, and one of their number, Benjamin Doane, is at the Prince Edward Island Hospital suffering from a gun shot wound in his right leg, as a result of which he will, in all probability, be maimed for life.

A general feeling of sadness and regret prevails among the young men who were Doane's companions on the occasion, and they do not care to say very much about the unfortunate affair. From those with whom they have talked concerning the trouble, however, THE EXAMINER has gleaned some particulars.

It seems, from all we can learn, that after they hired the horse five of the young men drove about the city for some time. Later on they were joined by another young man, and about eleven o'clock the party started for Charlottetown at North River, with the intention of staying there for the night. The reception they met with there was not what they expected, and they left on return to the city.

On the way they called at Mallet's, some distance from Charlottetown, reaching there about three o'clock in the morning. They found the household in bed and the doors locked. One or two of the number got in through a window and opening the door let the others inside. Once inside they asked for beer and luncheon, but this was refused, and they were ordered to leave the house. It is said that the number got in through a window and opening the door let the others inside. Once inside they asked for beer and luncheon, but this was refused, and they were ordered to leave the house.

After being shot young Doane was taken into Mallet's, and placed upon a lounge. Dr. J. T. Jenkins was summoned, and upon his arrival an examination of the wound indicated that the wounded man be removed to the hospital. This was done with all possible dispatch. Today he is reported "doing as well as can be expected."

Mr. Mallet was in town to-day. She feels very badly over the affair, and regrets deeply the occurrence. We understand she says that two shots were fired in all, the first from an upstairs window into the air and the second from the porch—all the boys say there were three shots fired. Doane's wound is in the knee-joint of the right leg, and it is a bad one. The doctors are not yet able to speak with certainty as to whether or not amputation will be necessary. The gun was loaded with fairly large shot.
