March 23, 1889—6m eod

## Local and Other Items.

SUPREME COURT.—The Supreme Court will meet in Summerside on the 11th June.

A SPECIMEN BRICK.—A brick of gold, valued at \$2,000, was brought to Halifax on Friday from the mines at Oxford, Halifax County.

The itching of the scalp, falling of the hair, resulting in baldness, are often caused by dandruff, which may be cured by Hall's Hair Renewer.

CROPS INJURED.—It is said that in South Carolina the crops are so seriously injured by the heat that many of them will have to be re-planted.

ARBOR DAY.—Wednesday last was Arbor Day with the schools in Summerside. In the neighborhood of fifty trees were planted by the children.

NO OPPOSITION.—It is said that there will be no opposition to the election of Col. McMillan, the newly appointed treasurer of Manitoba.

WANTED.—At this office copies of THE DAILY EXAMINER of February 4th and April 4th and 5th. Also, copies of THE WEEKLY EXAMINER of April 5, 1889.

THE PARNELL COMMISSION.—It is now reported that the Parnell Commission will not make their report to the House of Commons until February, 1890.

EARLY WHEAT.—The Pioneer understands that Hon. James Yeo sowed a field of wheat on the 18th of April, and it now completely covers the ground.

SUMMER HOTEL.—An exchange says there is talk of a big summer hotel on the Point at Buctouche, where the extensive Roman Catholic institutions are located.

CAPE TORMENTINE WHARF.—An exchange reports that Mr. Murphy, contractor for the Cape Tormentine wharf, expects to have half of the stone embankment, or 659 feet, completed by the 1st of June.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become clogged by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fineness and beauty.

ABOUT LIBEL.—It is said that such a thing as bringing a libel suit against a newspaper has not been known in Italy for 50 years. The belief is that a newspaper seeks to tell the truth. If it is mistaken, a frank statement to that effect satisfies the Italian.

Dyspepsia causes depraved blood, which in time affects every organ and function of the body. As a remedy for these troubles, nothing can approach Ayer's (Sarsaparilla). It vitalizes the blood, strengthens the stomach, and corrects all disorders of the liver and kidneys.

LUMBER SHIPMENTS.—Richibucto advises that there is considerable activity this season in shipping lumber to ports in P. E. Island. The Schr. Minnie Long, has already made two trips from Summerside, bringing nearly four thousand bushels of oats for G. R. McLeod & Co.

BAPTISMS AT TRYON.—A correspondent from Tryon to the Visitor and Messenger says: Bro. Allaby baptised six at Tryon, on Sabbath, May 5th. Six more are received and others are enquiring. Bro. Allaby has been granted a short vacation, as he is quite wearied out with the work of the past few months.

ODDFELLOWS HALL.—The Oddfellows of Springhill, N. S., are about to erect a large building on Main street, 60 feet long, 27 feet wide, with 38 posts. The lower story will be used as a store and will have all the latest improvements, plate glass front, etc. The hall upstairs will be finished and furnished throughout regardless of cost. It will likely be one of the best society halls in the province when completed.

TEMPERANCE DELEGATES.—Rev. Edward Bell, of Biddeford, P. E. I., left Thursday for Chicago, Ill., to attend the session of the Right Worthy Grand Lodge of Good Templars, which commences its sessions on the 28th inst. He was accompanied by Rev. Thomas Marshall and William Vaughan, of New Brunswick, and Rev. W. G. Lane and Dr. Black of Nova Scotia. Miss Ackerman, well known in Summerside, now in Chicago, will also attend the meeting as a representative of P. E. Island.—St. John Telegraph.

A NARROW ESCAPE.—The Pioneer says that what came near being a most serious accident happened at the planing mills of Messrs. Joseph Reid & Co., Summerside, on Friday last. This firm, says our contemporary, had got a new hand to run the moulding machine, some part was not in place, or not properly fastened, so that when the miller was running at its utmost speed, some 1000 revolutions a minute, a fourteen inch knife flew out and struck the ceiling above with terrific force. The knife was smashed into atoms besides other parts of the machinery damaged considerably. It is a wonder someone wasn't killed.

SINGULAR OPERATION.—A Birmingham, Ala., despatch says:—Dr. W. H. Shoe-maker, a talented and leading physician of this city, has been declared insane owing to his having become a victim of the cocaine habit. While under the influence of the drug in December last, he performed upon himself probably the most unique and most remarkable surgical operation ever recorded. He had been a sufferer for some time from a tumor on his liver. One night, while alone, he took his surgical instruments and deliberately cut into his abdominal cavity, cut the tumor from his liver and sewed the incision up. The next morning he showed the cut at tumor to his brother physicians and has since entirely recovered. The use of cocaine previous to this last operation became habitual.

## School Notes.

Time, and teaching, and love, these three, can slowly and surely make the eye see, and the mind inspire the eye, and be inspired in turn. The slowest can begin through the swiftest cannot end. Time, teaching, and love, these three, transmute all things when life is at work. There is no incapacity which can prevent observation. And there is no inability to enjoy what observers give. The great writings of all time rightly treated are but lenses which all can look through. The problem of power in a man's self is capable of no hard solution. There is no stupidity. Once impress on the minds of a generation that teaching and training are names of life and pleasure, names of new senses, new strength, new delights, which all can attain and Plato's Schoolboy will appear again. There will be no stupidity.—Thuring.

The teacher is the figure paramount in every school—texts, methods and courses are minor; the teacher is everything. The times demand now, more than ever before, teachers who give to children something more than mastery of sums and spelling books. Breadth and symmetry of character must be the outgrowth of elementary instruction. It must implant desires and longings that will make a life-long student, whose honesty will keep pace with the thrift. Elementary instruction should give purpose, ambition and moral character. In this sense, it is, has been, and ever will be, more important to the state than the work of instructions of higher learning. Give us good elementary teachers, and our common schools will give their attendants an impetus for self-improvement that will do more for the state than the important, though limited, work of colleges can do. Elementary teachers should be the equals, if not the superiors, of college professors. They should be thinkers and leaders, in a broad and liberal sense. Their efforts either drive the child early from the pursuit of truth, or wed him to it and thereby insure progress through higher grades.—Western School Journal.

I once remarked, in the hearing of one of my directors, that I was going to polish the schoolhouse stove. I noticed a smile on his face, and asked him what he was laughing at. He replied: "That stove has stood there for fifteen years, and has never seen a bit of polish." The looks of the stove corroborated his statement. This incident illustrates a common mistake of teachers and school boards. Some folks think that, if the roof keeps out the rain, and the stove gives sufficient heat, that is all that is required. School houses may be made very attractive or very tiresome to little folks. It is in their younger years that their tastes as well as their habits of study are formed. If the school-house walls are bare, if the floor remains unswep, if they find their seats covered with dust in the morning, and the stove looks more like a storm-beaten bake-oven than a modern heating appliance, it is not surprising that "they do not take to their books kindly." School-rooms should be well swept and dusted. The walls should be beautified by bright-colored picture cards. There is nothing so attractive to the eye of a child as bright colors. When a child notices that a room is neat he is more apt to be careful of his personal appearance, and to clean his boots upon entering the room. Teachers who attend to such matters are the successful ones. And as it is our duty as teachers to attend to everything within our power that moulds the child's mind for good in after life, it is necessary that we pay particular attention to the condition of our school-rooms.—Philip Darnley in Ohio State Journal.

## How to Take Away Appetite.

A certain lady who keeps a rather fashionable boarding house in this city is troubled with ten boarders—no less than ten—who possess enormous appetites. Everybody who knows a boarding house can realize that ten boarders with large appetites are very hard upon the profit of the concern. She tried, like a thorough business woman, all sorts of methods to check these ungodly appetites, but with no avail.

One day she happened to tell her family doctor of these ten hungry men and how they worried her, and he said immediately: "Why, I can give you an easy remedy for that." She told him that she would be very much obliged to him for any help that he could give her on the subject, and moreover said it would be worth a great deal of money to her. "Well," said he, "next week bake a lot of lemon pies and see that those ten boarders get their share of pie." "Is that all your prescription, doctor?" said the lady. "Yes, ma'am," he replied; "and you will find it is quite enough." So the next week she baked a number of lemon pies, and she saw to it that the ten boarders were helped twice to pie on the first day. After that she noticed gradually that their appetites fell away, and at the end of that week there was an unmistakable diminution in the bill for provisions required for that boarding house.

The lemon pie diet was continued until the boarding-house became as profitable as it had previously been unprofitable. It is not within my power to say exactly how the lemon pie acts upon the average boarder, but it is certainly a fact that in this case the lemon pies produced what no other system of diet could accomplish. This recipe may be of use to some of the down-trodden boarding-house mistresses in this city.—Pittsburg Dispatch.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. [April 1 '88]

## The German Emperor's Visit to England.

The London papers are talking with great confidence of the festivities which are to take place in London during the visit of the German Emperor in July. But—says a correspondent—"unless I am much mistaken, the Emperor will not come to London at all, and will confine himself to a visit to the Queen in the Isle of Wight. At this moment the relations between the Emperor and the Prince of Wales are so strained that it is not possible for them to meet. Many attempts are being made to bring about peace, but the Emperor is very obstinate and hot-headed, and feels so aggrieved by the Prince of Wales' remoteness with him, that he will not meet him. It may be that matters will be arranged before the visit comes off. But if things remain as they now are, the Emperor will be accompanied by the Empress and two children, and probably arrive at Portsmouth escorted by a large German squadron, and, after passing a week at Osborne, will come incognito to London for a few days, and return to Germany the same way."

## Personal.

The Shah of Persia is meeting with a grand reception in Russia.

William O'Brien's libel trial against Lord Salisbury will take place in Liverpool.

The physical health of the Empress of Austria has been much benefited by the massage treatment.

Hon. John Lefurgey was in Moncton on Friday last attending a meeting of the directors of the cotton factory.

William Campbell, Esq., ex-Commissioner of Public Works, is, we regret to learn, so ill as to be unable to leave his house.

Rev. Canon Walker died in St. John, N.B., on Friday last, aged 87 years. We understand that some years ago he labored at Cornwallis and St. Elenor's, after which he was rector of Hampton, N. B., for many years, retiring in 1883. He leaves four sons, all clergymen, three of whom are in the United States.

Eustace Shaw, son of James Shaw, Esq., of Brackley Point, has rented a shop in Scurry, where he intends starting a watch making and jewelry business. It is a want which the inhabitants have long felt, and as Mr. Shaw is a steady young man and has served five years at the business in Charlottetown, we think that he is, to say the least, "the right man in the right place."

## News Notes.

One hundred and twenty cargoes of coal have been ordered in England for Germany.

It is promised that the price of hard coal will be reduced fifty cents a ton next fall at Winnipeg.

An enormous landslide has occurred at Spiessback, Switzerland, destroying villages, forests and cattle.

The body of an unknown man that had been kept at the bottom of the river with heavy weights was washed ashore at New York.

## Odds and Ends.

"Only a hew and cry," said the boy when he sliced his foot with a broadaxe.

Heaven is above all yet; there sits a Judge That no king can corrupt. —Shakespeare.

"The editor down the street," writes a Kansas editor with withering scorn, "should go to school during the winter months, so that the teacher can learn him something about grammar. We have seen bad writers before, but we never seen one who could crowd so many grammatical erratum into a single sentence."

Life should be full of earnest work,  
Our hearts undashed by fortune's frown;  
Let perseverance conquer fate  
And merit seize the victor's crown;  
The battle is not to the strong,  
The race not always to the fleet,  
And he who seeks to pluck the stars  
Will lose the jewels at his feet.  
—Phoebe Carey.

## MARRIED.

At Lower Grand River, at the residence of the bride's father, on the 9th inst., by the Rev. J. G. Cameron, William C. Jenkins to Margaret Amanda, eldest daughter of Mr. John A. Dingwell.

## Summerside Exports.

Summerside, May 15—Shipped per steamer Princess of Wales, Cameron, master, for Point du Chene:	
171 cases eggs.....	\$ 620
