

The Daily Examiner

JUNE 16, 1885.

Death of Mrs. Vance.

The death of Mrs. Vance was all the circumstances considered—a terrible event; and had the event created no further interest than appeared evident from the proceedings and verdict of the Coroner's Jury in her case, the public apathy and callousness which the fact would indicate would be perfectly appalling to an enlightened and sympathetic mind.

We are not disposed to discuss with Dr. McLeod the range and limitation of the duties of Coroner's Juries, nor is it necessary that we should do so. THE EXAMINER simply pointed out that the investigation into the Callaghan case was searching and thorough, extending over weeks, while the Vance case was disposed of at one short sitting. That fact is unchallenged and undeniable.

But Dr. McLeod pleads that the cases were not analogous. This is a good plea. Let us see how much it is worth. Dr. McLeod says: "I do not feel called upon to reply to the unfounded assumption of the Patriot, that any other poison than that of alcohol, pure and simple, was the cause of the sad death in question."

when there was no Scott Act, cases of poisoning by alcohol were as common, or more common, than they are now. Such cases are not a result of the Scott Act. They are a result of the violation of that Act. The remedy for them is to respect and enforce the law.

Prince Edward Island Hospital.

THE Annual report of the Directors of this valuable institution shows that 56 persons received hospital aid as inmates during the past year, making seventy-eight since it was opened; and the building of a large addition to it shows that there are grounds for anticipating a larger number of patients in the future.

The total receipts for the year amounted to \$3110.19, the balance in hand at the end of the year being \$2104.34. But after the completion of the contract for building, the balance in hand will not be a very large one.

Much is due by all interested in the institution, to the generosity of Mr. F. R. Starr, of Litchfield, Conn., who bestowed upon it donations to the amount of \$2060. Much credit is also due to the Ladies Aid Society, who, besides collecting the sum of \$616.77 from contributors generally, obtained \$613.92 from the tea and bazaar held by them in February last.

We notice with much pleasure that, at the reception given to the members of the Presbyterian General Assembly, now in session at Montreal, on Saturday last, they were welcomed by the Mayor, the Hon. Mr. Beaugrand, on behalf of the citizens.

WHEN King James the first wrote his counterblast to tobacco the royal penman knew nothing of the "Myrtle Navy." If he had, instead of wasting his brains over his curious production, he would have filled his royal pipe with it, and would have taken a royal smoke, he would then have been prepared to admit that with regard to the injurious effects of tobacco, it all depends on what tobacco you smoke.
