

Final Peace for Horn

By WARD T. SIMS
TALKEETNA, Alaska (AP)—Forty-two persons left their Michigan homes 3½ years ago to do battle with the Alaska wildness.

Their numbers have dwindled and endless toil and privation have taken their toll. But for the 17 Michigan 50ers who still live in the remote Susitna Valley, the wilderness has been licked.

Shielding his eyes from a bright autumn sun and looking approvingly over 17 acres of ripening oats, Marino Sik put it simply:

"We have found peace in our valley."
The calendar had just turned into 1959 when Sik and 41 others, including his wife and small daughter, moved their possessions into cars, trucks, old buses and trailers and left their Detroit homes for Alaska.

In the newest U.S. state, all 42 had high dreams of carving a homestead out of the wilderness from the dense birch forests and rich soil of the Susitna Valley, 30 miles north of Anchorage.

MANY DRIET OFF
The Alaskan wilderness was too big a hurdle for most of them, and they have long since drifted away, many back to the city life they once found distasteful.

Those who managed to stick it out found their days filled with work, improving their homesteads and trying to make financial ends meet. Under the homestead act the 50ers set their land free provided they build a dwelling on it, cultivate at least an acre of the area (usually 120 acres) and live on it at least seven months a year for three years.

U.S. Nukes Boast eence Against barbaric Raids
By ELTON C. FAY
WASHINGTON (AP)—The United States defence against bomber attack from Cuba is mounting as the Communist persist in refusal to remove a score or more of Soviet Ilyushin-28 bombers with nuclear-strike capability.

The bombers, together with Russian-made MiG-19 fighters and planes, which also can be used for bombing purposes, remain a menacing even though the Russians appear to have dismantled and shipped out medium and intermediate range ballistic missiles.

Wheat Board To Visit China
The Canadian Wheat Board will go to Hong Kong and perhaps Peking to negotiate for future grain trade with the Communist government.

New Deep Fend In Pacific Ocean
The Royal Navy survey ship Cook reported here it has found a deep-sea hydro-thermal vent area previously recorded in an ocean. In a radio message to the admiralty, the Cook said the depth was determined by echosounding equipment in the Mariana trench east of the Philippines.

WOMAN TAMES OLD CYCLIST
BLANDFORD, England (AP)—A 61-year-old woman, aged, has forced 91-year-old Thomas Edmonds to give up cycling.

Competition Has Stiffened On Wheat Market
OTTAWA (CP)—Exports of wheat and flour second largest item in Canada's sales last year, are showing the pinch of the European Common Market tariff.

Figures for the first nine months of the calendar year show the export value at \$415,300,000 against \$464,300,000 in the corresponding period of 1961.

Exports so far in the crop year—which began Aug. 1—show a comparable decline. Up to Oct. 2 sales amounted to wheat and flour totalled 72,200,000 bushels or 15,100,000 fewer than a year earlier.

Faced by Red China sales, which in 1961 were valued at \$100 million, the U.S. and Canada, Canadian exports to last year reached 338,000 bushels or the lowest highest on record. They were nearly as high two years ago. All the evidence indicates that if there was a wheat boom in 1962, it was a wheat boom in 1961.

Holmen's of P.E.I.

3 BIG DAYS - THURSDAY, FRIDAY and SATURDAY

BABY WETUM DOLL
14" in length, complete with feeding bottle. Regular \$1.25. Special **1.00**
