BAND at the rink to-night. EARLE'S Concert in the Y. M. C. A. Hall to-morrow evening.

THE mails—partly English—left Cape Tormentine for Cape Traverse at noon to-day.

READ Mr. Earle's fine Concert programme in another column, which comes off to-morrow evening.

Hon. Mr. CHAPLEAU, Secretary of State, has improved in health. He is expected home in February.

AN Indiana paper, we notice, cites the case of Colonel Samuel H. Taylor, of Washington, that State, who was cured by St. Jacobs Oil of a severe attack of rheumatism.

MICHAEL UNIVERSITY authorities have seized \$32,000 belonging to the estate of the late Miss Barbara Scott, to meet a legacy left by her to fund a chair.

MR. JELIES HOFFSTADT, Madison, Ind., bears hearty testimony to the wonderful cure by St. Jacobs Oil, of his wife, who suffered terribly with rheumatism. Permanent relief followed its use.

MR. THOMAS CAMPBELL, the defeated candidate for Ward 3, at the close of the poll protested against the return of Mr. Crabbe last evening, but he did not demand a scrutiny of votes until this morning. He was therefore too late to do so. Mr. Crabbe consequently holds the seat.

THE Norfolk Virginian lately mentioned among other cases, that of a prominent druggist of Warrenton, N. C., who on a business trip to Norfolk, severely injured himself by falling on the ice. By advice he used St. Jacobs Oil with such happy result, that he went on his way cured and rejoicing.

OUR readers will notice that the Methodists are to open their new church on the Covehead road next Sabbath. The storm prevented them doing so last Sabbath. Instead of Mr. Burwash, in the evening we see that the Pastor, Mr. Steel, will conduct the service. We trust that the friends will have a successful day.

A SINGLE box of Mack's Magnetic Medicine will prove to any sufferer from nervous prostration or weakness of the generative organs, that it is the best and cheapest medicine ever sold for this class of disease. Read the advertisement in another column and send at once for the great Brain and Nerve Food.

THE St. John daily Sun, giving an account of a meeting of the Bible Society held at Hampton, refers to our young fellow townsman, Rev. D. D. Moore, A. M., who delivered an address upon the occasion. As an eloquent and thoughtful speaker—energetic in his work, and likely to become a leading Minister in the Methodist Church of Canada.

THE subject of the sermon at the mission tonight will be preparation for death. An instruction on repentance will follow the sermon. To-morrow (Friday) afternoon, there will be given in the Schoolroom at 3, P. M., an address to girls with special reference to the formation of a branch of the Girl's Friendly Society. On Saturday evening at 8 o'clock, and on Sunday afternoon at 4, there will be special addresses to men only.

THERE was a good attendance at the Y. M. C. A. Debating Club and Literary Society last night. The officers elected were S. S. Peterson, President; I. Oxenham, Vice-President; and the undersigned Secretary. Mr. H. V. McDonald made the opening speech. A lively discussion in which Messrs. J. Newson, W. W. Weeks, D. Montgomery, I. Oxenham, L. P. Tanton, D. McKinnon, took part, ensued. It was agreed to resume the discussion on Tuesday the 30th inst.—O. HARRISBERY, Secretary.

THE citizen who allows his horse or cow to run at large to the danger of his fellow-citizens should be severely punished. Of late serious injury has been done by wild horses and ferocious cows allowed to run at large in our streets. To-day the first step was made towards punishing the owners who allow their animals to run at large. A leading citizen complained of a servant allowing his master's horse to go to the pump without halter or bridle. The servant was fined fifty cents and costs. We think the fine should be much larger. However, small as it is, it will be a warning to others, and may assist to abate the dangerous nuisance.

THE meeting of Grand Division, held yesterday at Margate, was, we understand, quite a success. The Grand Officers were all present. Since the last session the membership has increased considerably, and the finances are in a good condition. Certain members of the Government came in for a share of attention for their public and private opposition to the Canada Temperance Act. The manner of appointing as vendors those who have been tavern keepers, was strongly deprecated. Druggists and only druggists should hold that position. The granting of certificates indiscriminately and improperly by many of our medical men, with the object of helping the vendors, and bringing the law into disrepute, was also severely denounced. The public meeting was largely attended. The speakers were Rev. Mr. Maggs, Messrs. Carruthers, Rogers, Edwards, McKay, Chapell, Simpson, Pollard and Hayden. A very efficient choir contributed much to the success of one of the best and most enthusiastic temperance meetings ever held by the Grand Division at Margate. The delegates speak in the warmest terms of the kindness shown by the people of Margate at this session.

Personal—Gossip.

The Vice-Regal party had a narrow escape from being robbed in passing through Missouri.

It is generally understood that Mr. Kirkpatrick will be the next Speaker of the Dominion House of Commons.

King Leopold has recovered from his indisposition, and will attend, with the Queen, the silver wedding of Crown Prince Frederick William, of Germany, on the 25th inst.

The Quebec Grits have followed the example of their Dominion brethren and changed their leader, Hon. M. Mercier having been elected leader of the Opposition in place of Mr. Joly.

Weather Bulletin.

Frogmore Notes.

We experience the ever-changing weather of winter. Keen frosts and chilling blasts predominate. As I write the day is a glorious one—the sun shines brightly on the pearly whiteness of the snow-clad ground, and myriads of tiny icicles glisten beautifully, like dewdrops in the morning breeze.

Death has accomplished its work here and there. Well-known faces rest in sleep, the sleep of the tomb, and new life springs forth to take the place of the departed. Some have been married, and ventured out together to meet life's joys and sorrows. May they be happy.

Some members of Lady Fane Division gave a concert in the public hall here, a short time ago. It was a financial success. The musical part of the entertainment was conducted by Miss Eliza Newson in a manner which elicited frequent applause. The young lady just mentioned, and Miss Lucy Rogerson, gave "In the Gloaming" in a way which led to an encore. Messrs. Campbell, Thomson, Cameron, R. Reid, Smith, Howatt, and others, also took part.

A very serious accident, nearly fatal, occurred to a young man, Mr. John Hagan, a few days ago. While in the woods chopping, a cut with his axe severed the main branch of the femoral artery. Dr. Tremaine, of Tryon, was called upon as quickly as possible, and rendered the necessary relief for the time being. At his suggestion, the case being a dangerous one, from an alarming loss of blood, the services of Dr. Robertson of Crapaud, were brought into requisition. Under his skilful hands, the young man was made as comfortable as possible, and so far seems on a fair way to recovery.

The spirited and persistent manner in which our Island rights are advocated by THE EXAMINER, in the matter of winter communication with the mainland, and the fulfilment of the terms of Confederation, causes much favorable comment among the many readers and supporters of your journal in this locality. Even those who differ politically with that journal acknowledged the patriotic tone of its advocacy on Island questions.

Wm. & Robert Reid have turned out quite an amount of seasonal work as sleigh builders, &c. An inspection of their premises reveals the excellence of their workmanship. The style and finish of their painting, and the general good quality of their manufactures, are all that can be desired.

The "Charlottetown Variety and Combination Club," gave an excellent Concert in the Crapaud Hall, last Wednesday evening. The whole affair was rendered in good style. The Company is an able and efficient one. It is only one more proof that native musical and dramatic talent, is very often better than the imported commodity.

The Tryon Mills have closed down for a short time to refit and prepare for the spring trade. Reid Brothers have found a wonderful increase in their business lately, no doubt arising from the fact that their cloths now rank second to none manufactured in the Province. Skilled labor has had much to do with the present satisfactory condition of affairs, which is amply proved by the durability, superior finish, and variety of pattern given to the various fabrics by the present excellent Superintendent, Mr. G. W. Miller. This is as it ought to be, and we want more skilled labor to keep the Island ahead.

The Church of England has placed in use, as a Mission Chapel, the old school-house at Victoria. At stated times services are held by the Rev. Mr. Johnson.

The semi-annual examination at Crapaud Schoolhouse took place last week. In both departments—the senior by Mr. Campbell, and the junior by Mr. Lefurgey—the scholars displayed fair proficiency in the various branches in which they were examined. The teachers, assisted by Mr. Thomson (master of Tryon school, and a former pupil at Crapaud School), and some of the visitors, examined the pupils in reading, dictation, arithmetic, grammar, geography, history, &c. The following names are especially worthy of mention:—

SENIOR DEPARTMENT.

General Proficiency—1st, Grace Newson; 2nd, Augusta Newson; 3rd, James McLeod. Attendance—1st, Theo. McKinnon; 2nd, Artemas Trowsdale. Arithmetic—1st, Grace Newson; 2nd, Augustus Newson; 3rd, Jennie Rogerson. Grammar—1st, Mary Rogerson; 2nd, Grace Newson; 3rd, Augustus Newson. Geography—1st, Jennie Rogerson and Augustus Newson, equal; 2nd, Ilda Smith and Grace Newson, equal; 3rd, Jessie McDonald. History—1st, James McLeod; 2nd, Mary Rogerson. In Dictation and Reading there was general proficiency.

The first prize for best attendance was awarded by Mr. Campbell, the second prize by Mr. Thomson. Mr. Archibald Shaw gave a prize to Augusta Newson for Geography, and another prize to James McLeod for general proficiency among the male pupils. Mr. Thos. Rogerson awarded a prize for general proficiency in the Junior department, and Mr. Lefurgey gave a prize to Harry Cameron for best attendance in the same department. The following names are handed in by Mr. Lefurgey:—

JUNIOR DEPARTMENT.

Reading—1st, Lucy McDonald; 2nd, Joseph McDonald and Percy Trowsdale, equal. Arithmetic—1st, Robert Trowsdale and Ernest Howatt, equal; 2nd, Archibald Trowsdale. Grammar—1st, Ernest Howatt, Robert Trowsdale, Joseph McDonald and Archie Trowsdale, all equally good. Dictation—1st, Archie Trowsdale; 2nd, Lucy McDonald and Bruce McDonald, equal. Geography—1st, Ernest Howatt; 2nd, Lucy McDonald. Best Attendance—Harry Cameron.

Very few visitors were present, and the apathy in this respect shown by the parents and friends of the children was anything but creditable. The want of proper apparatus for educational purposes—such as maps, etc.—was very severely (and justly so) commented upon by some of the visitors. The teachers rank high and deserve every praise for the efficient way in which they have conducted their labors. COM. January 24, 1883.

FRED. J. GARBETT, M. D., Graduate of the London University, Dean and Registrar of the Boston Medical College of Specialists, says:—"I had tried every system of treatment for the cure of nervous prostration, partial paralysis, and abouic dyspepsia. Per-suaded, much against my will, to try the Pad system, I put them on, and in two days found that the paralysis of the nerves had been over-come, the entire nervous system toned up, and now—six months from the day of application—I am free from any symptoms of nervous debility or dyspeptic tendency. In my professional practice as a Physician, in private life and among my personal friends, I shall deem it my bounden duty and my highest privilege, as an act of gratitude, to counsel and enforce this treatment, as the only reliable and effectual remedial agency having for its origin the stomach, liver, brain, and great nerve centres.
