BANK AMALGAMATION.—The Merchants of Halifax and the Maritime Bank of St. John, New Brunswick, have called a special meeting of their shareholders for December 11, for the purpose of getting their consent to an amalgamation of the two institutions and an application to Parliament for an act authorizing it.—Moncton Times.

ACCIDENT TO A STATION MASTER.—Saturday Mr. R. M. Holesworth, station master at Shubenacadie, was hunting ducks, and when in the act of firing at a flock the gun exploded in his hand. SABBATH SCHOOL SERVICE.—On Sabbath, the 28th inst., the public annual exercises of the Stanhope School, of which Mr. George Alexander is the efficient superintendent were conducted in the presence of a large congregation. It is therefore unnecessary to say that his success has been very marked.—Pioneer.

MISSIONARY MEETINGS on the Little York Circuit have recently been held at Little York and at Union Road with a fair amount of success. At Union, the chair was ably occupied by Mr. Isaac Sells, and the meeting was addressed by Rev. H. R. Baker, A. B. The speech was a very able one. Rev. G. Steel read the report. At Little York, Mr. George Vessey made an excellent chairman. Mr. Baker was the speaker. His address was very appropriate. Mr. Steel read the report and made suitable remarks thereon.

SUMMERSIDE seems to be looking up this fall, and to be making visible signs of improvement though not before it was needed. The Pioneer says that Water Street in that town has very much changed its appearance for the better during the past few months. Several of the houses and stores have received a touching up of paint and been otherwise made to look more tidy. The vacant lot east of Holman's store has been filled up by the new bank building, now complete on outside. This handsome brick structure, besides filling the gap in question improves very materially the appearance of that section. But the excellent sidewalk laid along north side of the street in question does more than all the other "fixings" to improve its general appearance. The town may justly be proud of this excellent piece of work, and when the opposite side of street receives similar attention and is more regularly built up, the improved appearance will be still more marked.

A LITTLE TOO MUCH.—The Moncton Transcript, of the 30th October reports:—Yesterday I. C. R. Policemen McDonald and O'Rourke took a passenger on the St. John express to the station. The following was entered on the police record: "Andrew Sunphy, drunk and disorderly on train and smashing window in first-class car. Had on his person \$25 in cash, coupon ticket for Portland, Maine, check, purse, knife, some small articles, and a flask half full of brandy. Andrew formed up before Stipendiary Workman at 10 o'clock to-day. To a Transcript reporter last evening the man gave his name as John McDonald, and said his father had given him \$30. He was from P. E. Island and was on his way to Portland. This was his first trip away from home and he had got into company with some fellows who were drinking and had taken a little too much. He inquired what town he was in, if the building was a jail, and what he had done. He was never in a lockup before, and when he got out he was going to stay out. He was overjoyed when he learned his money and railway check were safe.

At the regular monthly meeting of the Caledonian Club, held in their rooms, Oct. 30th, the following gentlemen were elected officers for the ensuing year:—Chief—Hon. A. A. McDonald, (re-elected.) Financial Sec'y—John McPhee, Esq., (re-elected.) Recording Sec'y—Robert J. Campbell, (re-elected.) Corresponding Sec'y—John M. Campbell. Board of Directors—J. J. Davies, P. P. Gillis, John S. McDonald, Murdoch McLeod, Summerside; A. R. Beaton, East Point; Hugh L. McDonald, Cardigan; Duncan McMillan, A. C. McDonald, M. P., Montague; Charles McNeill, Summerside.

THE BOSTON COMEDY CO.—"Not Guilty, a tale of the Manchester Cotton Famine," was put on the stage last night by the above company, and was well played throughout. The play opened with Noah Leary, of the leader of the strike, presenting a petition to Richard Readley, a wealthy and influential manufacturer, desiring that he would use his influence to give more liberal terms to the strikers. The petition is of course rejected and the men told to come back instantly or the factory would be shut down. The strikers then held a meeting and propose to fire all the factories, commencing with Readley's first. At the time these things were taking place Readley is professedly in love with Leary's daughter. Thus he is enabled to discover the plans of the strikers and had numbers of the leading men amongst them arrested, with the exception of Leary. He then makes an engagement with Jane to meet him at a certain secluded spot, where he is shot dead by Leary. Jim Starlin, an shod head by Leary, is arrested for engineering, and a lover of Jane's, is arrested for the murder, and is on the point of being convicted when an alibi is proved, and he is discharged. The play was one of thrilling interest, and the different performers sustained their different parts tolerably well. Miss Grey as Jane Leary, and Mr. Webber as Moneybags, the counsel for the defence, were very good indeed. Webber's local hits being much appreciated. The whole performance concluded with a laughable farce. To-night East Lynne will be played, and, no doubt, will have a good audience.

GAS-HEATING STOVES.
THESE Stoves can be seen in operation
every evening at Mr. G. H. Haszard's
Bookstore, South Side of Queen Square,
where orders for Stoves can be left, and
where an illustrated catalogue can be seen,
containing every information. The cost of
these Stoves range from \$4.00 upwards.
The cost of gas varies from less than one
cent per hour upwards, according to the
size of the stove and heat required. The
great advantages of these Stoves are that
they will heat any sized bedroom, nursery
or sick room, in a few minutes after lighting
the gas, the consumption of which can be
instantly stopped, by turning off the tap,
thus preventing the waste of fuel, either
before or after the necessary heat is re-
quired. No coal to be taken up stairs. No
ashes to be brought down. No dust, dirt or
smoke about the room, which is most im-
portant in case of sickness. At a cost of
about one-half to three-fourths of a cent
boiling water, warm food or hot drinks can
be had at any time during the night, in from
two to four minutes after lighting the gas,
thus making the stove useful in the nursery
and sick room, both summer and winter.
The Stove also lights the room with the same
gas that warms it.
