NOVA SCOTIA MATTERS.

Last year 1674 immigrants arrived at Halifax. Many of them were induced to leave again for the States; but some of these have since returned, and their example is likely to be followed by others.

Mr. J. K. Mayo, an American gentleman, for some years a resident at Weymouth, has disposed of his patent for manufacturing Staveless Barrels and Tanks to a Company in New York, of which he is a member, for the sum of $150,000.

Four men named Hilchey, Henneberry, and two brothers Cleary, left the market slip in their boat for home, at the Eastern Passage, on Saturday evening last. The boat was found on Sunday, bottom up, and it is supposed that all have been drowned.

The stockholders of the Halifax Gas Company have just received in dividends and bonuses on last year's business fourteen per cent of their capital.

Nearly five millions of newspapers passed through the Post Offices of Nova Scotia last year; over two millions through the Halifax office alone.

Steps are being taken to hold a Provincial Exhibition in Halifax in the coming summer. The Mayor has decided to call a public meeting to consider the matter,—General Williams will preside. Members of the Legislature and prominent citizens take an active interest in the project, which will certainly be carried out. No similar exhibition has been held for twelve years.

Nova Scotia is pushing forward her Railway system vigorously. An engine has gone over the new line all the way from Truro to New Glasgow. The line will be open through from Halifax to Pictou, 112 miles, for passengers and light freight by the 1st of May. Engineers are surveying the line from Windsor to Annapolis—they were working through Cornwallis a few days ago. The contractors for the Railway have just been locally incorporated under the title of "the Windsor and Annapolis Railway Company," and include the following persons, and their associates, namely —Thomas Brassey, William Henry Ponchard, Edwin Clark, Thomas Hendry, Edmund Kell Blyth, George Washington Harris, and Julian Horn Tolme.

The French Admiral, Baron de la Roniere, has left Halifax in the French gunboat *Megere*, for Boston; he intends to visit Washington and other American cities, and afterwards Canada. Thirty or forty members of both branches of the Nova Scotia Legislature visited the French iron clads a few days ago, and were received in friendly style. The vessels will visit U. S. ports before returning to France; they are briefly described, thus:—

"The *Magenta* (flagship) is a three decker aronside, of fifty guns and 750 men. The *Flandre* is an iron side frigate of thirty-four guns and 574 men. The *Magnanime* is an iron side frigate of thirty guns and 580 men. They are magnificent ships, and well equipped."

The Halifax papers inform us that large quantities of halibut, packed in ice, are being shipped to the United States. The fish is worth eight cents per lb. in Halifax.

SUGAR LEAKAGE.—We take the following from a summary of proceedings in the Nova Scotia Legislature:—

"The Financial Secretary introduced a bill authorizing the manufacture of sugar and tobacco in bond. Mr. Tobin referred to the loss sustained by the leakage from sugar while in bonded warehouse, and contended that merchants should not be compelled to pay duty on the weight taken at the time of landing. A hogshead of sugar, after being in a warehouse a few months, would weigh a hundred weight less than when first put in store; he argued that it was not right that retailers, and consumers through them, should pay duty on sugar which they do not receive."

The Government will give its attention to this important matter.

FROM THE WEST INDIES.—Havana correspondence dated April 3, says:—

Three frigates of the Spanish South Pacific fleet, with Admiral Nunez commanding in person, have arrived at Santiago de Cuba. The causes given for this movement are conflicting. The most important and probably the most reliable is that Admiral Nunez is en route for Washington, to represent Spain in the Peace Congress proposed by Mr. Seward. The Steamer R. R. Cuyler is said to have been captured by the frigate "Guoria," and brought to Santiago.

Advices from Hayti report that Nissage Saget had assumed the reins of government, and that all was quiet.

By way of Havana we have intelligence in detail of the last news from British Honduras. The Anglo Indian war difficulty was at an end so far as actual hostilities are concerned; but considerable excitement of a very unhealthy character prevailed in the colony. The mahogany cutting influence of England was on the wane toward complete disappearance. American enterprise by settlement and agricultural development of the territory are equally needed.

PROBABLE RELEASE OF JEFF. DAVIS.—A Washington despatch states that several leading Republican Congressmen, and other influential citizens, have recently been urging the President to release Jefferson Davis from imprisonment on bail, or upon his own recognizance, inasmuch as there is now less probability than heretofore that Chief Justice Chase can be induced to preside at a session of the U. S. Circuit Court in Virginia within a reasonable time. The despatch professes to have good reasons for the statement that Davis will be released during the next fortnight upon his own recognizance to answer the charges that may be brought against him.

The Dublin *Freeman's* Journal says that Mr. Burke, the constabulary officer, who behaved so nobly at Tallaght on Shrove Tuesday night, is a Catholic gentleman of high connection. He is a nephew of Sir Joseph Burke, of Glinsk, county Galway, and of Sir Dominick Daly, Governor of South Australia, and of the gallant Major Burke, who fell at Albuera, while rallying the 3rd Buffs.

PRUSSIA AND HOLLAND.—Although great secrecy is maintained in regard to the demands made by the Prussian Government upon the Court of the Hague, we have received corroboration of the correctness of the announcement which we made on this subject some weeks ago. The Prussian government requires that the King of Holland shall either enter the North German Confederation as representing the Dutch provinces of Limburg and Luxemburg, whereby the military forces of these provinces would be entirely under the direction of Prussia; or else that a portion of this Dutch territory shall be ceded to Prussia, so as to place the fortresses which it contains in Prussian keeping, and give a good military frontier to the German Confederation on this side of France. The French Government is now stirring in the matter, and lends its diplomatic support to the King of Holland to help him in withstanding the demands of Prussia.—*London Globe.*

The floods at the West are of extraordinary magnitude. They extend for hundreds of miles, and the destruction of sheep, cattle and hogs is enormous. Much grain, too, is destroyed. Many families lose their houses, and are reduced to utter poverty. The winter of 1857 writes his history in water, but writes it indelibly.—*Exchange.*

ROME.—A Florence letter in the *Debats* contains the following statement in reference to the Roman emigrants:—

It is alleged that the Roman emigrants are about to cause grave embarrassment to the Government, and consequently to the Italian Government. The emigrants are very numerous—about 14,000 it is said. They intend to enter Rome all at once as to their own homes, according to the suggestion of Garibaldi. However pacific the entry may be, it is difficult to believe that some trouble will not be caused to the temporal power. The project is attributed to Professor Filopanti, of Bologna, who is one of the chiefs of the advanced party.

A horrible suicide is reported from Lerida in Spain. A few days ago a man was brought into the hospital of that place in a dreadful state of mutilation. It appeared that he had locked himself up in his room, ripped himself open with his knife, and tore out his intestines, cutting them into fragments, and throwing them about the room. He then opened the door and called in his wife, whose horror may be easily conceived. At the hospital, being asked his motive for the act, he said he was driven to it by violent pains in the stomach. He lived until the following day.

PAINFUL OCCURRENCE.—On Thursday last a little girl, about two years old, only child of Mr. Howard Steeves, Lower Hillsboro', was burned so badly that she died in a few hours. Her clothes caught fire during her mother's absence from the room for a few minutes.—*Eastern Advocate.*

The New York Freeman's Journal demolishes the sensation story about Mrs. Minnie Baker Dean, who it says is living happily with her husband in a handsome cottage of their own at West Hoboken. Mrs. Dean says her married life is and has been far happier than that of most of her early acquaintances.

Despatches from Miramar state the reports recently circulated about the improvements in the health of the ex-Empress Charlotte, of Mexico, are without foundation. The condition of the young sovereign has always been the same. No noteworthy improvements has manifested itself.

The Emperor of Austria has just re-established the Polish language for the study of law at Lemberg. All the examinations will be made in the same language. The telegram announcing this new imperial concession was received with great rejoicing.

A Bill for the promotion of a new Gas Company is before the Nova Scotia House of Assembly, and the Halifax *Reporter* says that the proposed organization will be got speedily to work so that the people can get gas at half the rate charged by the existing Company.

WAR RUMOURS.—We hear from Warsaw that within the last fortnight there has been observed a great increase of activity in the military departments here. Troops are being massed on the Galician frontier, and the town of Konstantynow, in Podolia, which is an important strategical position in that district, is being fortified and provided with guns of a new pattern, which have been lately brought from St. Petersburg to the citadels of Warsaw and Modlin. These preparations are openly declared in Russian military circles at Warsaw to be made with a view to a new Turkish campaign.

A government train consisting of eleven wagons *en route* for Arizona, was broken up on the 10th inst., in the Colorado Desert by a water spout. The waggons were carried a distance of eighteen miles by the flood of water, and several lives were lost.

"I am glad this coffee don't owe me any thing," said a book-keeper to his wife one morning at breakfast. "Why?" ask she "Because I don't believe it would ever settle."

An astronomical phenomenon, of which two observations are only on record, will occur during the present year. On August 21, Jupiter will appear to lose its moons for nearly two hours—three of them disappearing by passing across its face, and the fourth being masked by its shadow.

Deacon Brown lately took occasion to administer a reproof to old Joe for swearing. Joe listened attentively to his words, seemed to appreciate the exortation, and when he had concluded, replied, as follows: "The fact is, Deacon, that I may swear a great deal, and you may pray a great deal, but neither of us mean nothing by it." The Deacon alludes to Joe as an instance of total depravity.

An appalling accident lately happened at Clifton, near Penrith, on the London and North Western Railway. It seems that as a luggage train from the south was passing Clifton, the axle of one of the wagons broke, and the train was thrown from the track. A car loaded with gunpowder being among the number, was thrown across the parallel track. A down train soon came along and ran into the gunpowder car, and the powder to the amount of four tons, igniting from the fire of the locomotive, blew up and scattered cars and goods in every direction. The shock of the explosion was heard for twenty miles. The driver and stoker of the engine were killed, and the cars were set on fire. The driver's watch was afterwards found almost melted into one solid piece by the flames.

Never indulge in the inordinate use of any medicine. It is important to take even a good medicine judiciously. Parsons's Purgative Pills are safe, prompt and reliable, and free from all deleterious substances.

The strongest drugs known are used in the composition of Blood's Rheumatic Compound, and it is believed to be as good panacea for pain as there is in the world.

Advices from Mexico by way of San Luis Potosi represent that the Imperialists at Queretaro, Puebla, and the city of Mexico, are surrounded on all sides by the Liberals.

The Catholic priests in New Orleans are opening schools for the freedmen.

It is reported that real bonnets are soon to be the fashion.

Missouri owes a debt of over thirty millions and is not able to pay interest on it.

One of the most beautiful heiresses of France has run off with her father's footman.

His Excellency the Lieut. Governor in Council has been pleased to appoint the following Gentlemen Trustees of the Lunatic Asylum:—

MILITARY GENERAL ORDER.—2ND QUEEN'S COUNTY REGT.—Assistant Surgeon Frank Beer, from the 1st Queen's County Regt, to be Surgeon.

Sore Throat, Cough, Cold, and similar troubles, if suffered to progress, result in serious pulmonary affections, oftentimes incurable. "*Brown's Bronchial Troches*," reach directly the seat of the disease, and give almost instant relief. They have been thoroughly tested, and maintain the good reputation they have justly acquired. *As there are imitations, be sure to obtain the genuine.*

HOLLOWAY'S OINTMENT AND PILLS.—Ease for every Sore.—This Ointment affords the shortest, safest and easiest path to soundness in all kinds of skin diseases, scrofulous affections, scorbutic maladies, ulcerations, eruptions, and inflammations. There is nothing deleterious in the composition of Holloway's Ointment, but, on the contrary, its ingredients possess the most soothing, purifying, and strengthening qualities. The delicate skin of infants is not irritated by the application of this unguent, which is therefore as admirably suited for the nursery as for subduing the tedious ulcerations attacking the aged. In all constitutional, chronic, and complex afflictions Holloway's Pills should be taken whilst his Ointment is being used, in order that all baneful matter may be expelled from the system.

Curran, the witty Irish barrister, was pleading the cause of a certain Miss Tickel. The Judge was also a bit of a wit; and when Curran opened his case with "Tickle, my client the defendant, my lord, ——" the Judge interrupted him with "tickle her yourself, Curran, you're as well able to do it as I am."

Ship News.

Arrived at Civiti Vechia, Italy, on the 17th March, Brigt. ATHLETE, of Georgetown, Prince Edward Island, Alexander Macdonald, Master, from Falmouth, England, after a remarkably quick passage of sixteen days. All well.

Married,

At the residence of Mr. John Bryan, Lot 11, on Tuesday, the 26th March, by the Rev. H. B. Swabey, A. B. Mr. Peter Warren, to Catherine, eldest daughter of Mr. George Murray.

Birth.

At Georgetown, on Monday, the 15th inst, the wife of the Hon. A. A. Macdonald, of a son.

At Souris, on the 10th inst, the wife of John Macgowan, Esq, of a son.

Died,

Of consumption, on the 15th April, in his 36th year, Philip Leslie, Esq., Collector of Her Majesty's Customs for the port of Souris. He always enjoyed the confidence of his superiors, was much respected by the mercantile classes, and a favourite with the whole community.

At Charlottetown, on the 8th inst, of inflammation of the heart, Flora, the second daughter of Mr. John McQuarrie, aged 12 years and 10 months.

At Cascumpec Village, of consumption, on Wednesday, the 3rd inst, in the 31st year of his age, James, third son of Mr. John Ellis, of New Bideford, Lot 12. The deceased has left a widow and a large circle of relatives and friends to mourn their loss, to whom he was justly endeared in consequence of his amiable and gentle disposition.

At Summerside, on Monday morning, the 8th inst, after a severe illness of twelve hours, Clara, second daughter of Charles G. and Liza Ann Ross, aged 8 years and 3 months.

On Tuesday, the 9th inst, of worm fever, Emily Ella, aged 6 years and 7 months, fourth daughter of Mr. Samuel Worth, of this city.

On Wednesday evening, the 16th inst, after a lingering illness of two years' duration, which he bore with marked patience and resignation to the Divine Will, Archibald Forbes, the beloved son of Donald and Christiana Darnell, Canoe Cove, aged 16 years 3 months and 16 days.

On Thursday, the 18th inst, Maria, relict of the late John Turner, aged 56 years, trusting in the merits of a risen Saviour.

A Washington correspondent says that "those who have been painfully fortunate enough to see a prize fight can realize Mr. John Morrissey's feelings when he took the oath as a member of Congress:—'I tuk off my coat,' he said 'many a time afore now, to fight, and—give you my word!—I never shuck as I did then. It was orful, that was it!'"

FATAL ACCIDENT.—A distressing fatal accident occurred at Indian River on Wednesday last. A young man named William Wallace, son of Mr. George Wallace, of Indian River, being about to go to the woods to make shingles, with some neighboring young men, thought he would take a gun with him, in case an opportunity might offer to shoot something. When near the house of Mr. Stephen McLellan, having loaded, capped and left the gun at full cock, he rested the butt on the ground, and leaned his arm upon the muzzle, when the weapon exploded and shattered his arm above the elbow. Dr. Homer was called, and amputated the limb; but the shock received was too much for the system to bear, and he died that night. This should serve as a warning to all persons in the habit of handling firearms, to be very careful. In fact they can never be *too careful.—Sum. Prog.*

GEORGE LEWIS, Market Clerk.

TO THE MARTYRS OF LIVER COMPLAINT.—Among the wonderful medicinal properties which have rendered HOSTETTER'S STOMACH BITTERS pre-eminent among the health-restoring preparations of the age, its anti-bilious virtues are not the least remarkable. No words can do justice to its marvellous effect upon the diseased liver. Perhaps the simple words of a convalescent sufferer, who describes it as "going right to the spot," tell the story as clearly as may be. It does go right to the spot. It operates directly upon the disordered organ, and whether unduly active or in a state of paralysis, restores it to a condition of health. The sickness of the stomach, pain between the shoulders and in the right side, yellow suffusion of the skin, costiveness, drowsiness and langour, dimness of sight, colic, palpitation of the heart, dry cough, low fever, and other symptoms which indicate the various phases of acute and chronic liver complaint, are one and all promptly relieved, and finally removed by the action of this famous preparation, which is at once the best of correctives, the gentlest and most genial of aperients, an infallible regulator, and a powerful restorative. Persons of a bilious habit, who use the Bitters as a protective medicine, will never suffer the pains and penalties of liver disease or bilious remittent fever. This the proprietors guarantee. For sale by all Druggists. [apl 15 2i

April 15 1867.

NOTICE.

THE well-known thorough bred Entire Horse, SIR DANDIE, seven years old, of a gray chestnut color, which is none of your half or quarter breed, but is the real thorough Canadian, imported direct from Canada, is of a graceful symmetry, stands fifteen and a half hands high, weighs twelve hundred and odd pounds, and is one of the fastest horses our Island can produce, and that without a doubt; and has been allowed by the best judges of horse stock to be the most serviceable animal that has ever stood on the streets of Charlottetown. The "Sir Dandie" will leave the owner's stable, Lot 49, on Wednesday the 1st day of May, 1867, and will proceed to Charlottetown, to Mr. Samuel Worth's stable, where he will remain till noon, 4th May; and then return home to the owner's stable, and there remain till nine o'clock, on Monday the 6th; thence proceed to Mr. George Jenkin's, Seal River, and remain there from 12 till 2; thence proceed to Mr. Wm.
