**Car Badly Damaged By Fire**

"Fill 'er up", said the driver of a 1953 Mercury sedan when he pulled into a service station on the St. Peters Road yesterday afternoon. The station attendant, however, could not oblige because as he looked at the rear end of the automobile he saw flames spurring out. The driver, thinking that he could blow out the fire started out the road but the faster he went the more intense was the blaze. Since this did not work he pulled into Palmer's Lane and sent a call to the Parkdale Fire Department. The fire was quickly extinguished but not before the interior and rear portion of the car was badly damaged. The name of the driver who is believed to come from the western part of the Island could not be learned.
