WESTERN SUMMIT SHOWS CRACK

Summit Talks Cordial But Powers May Be Far Apart

By ALAN HARVEY
Canadian Press Staff Writer
GENEVA (CP)—Russia and the West sketched broad plans for European security at the opening Monday of the Big Four talks at the summit.
The atmosphere of these first top-level talks since Potsdam in 1945 was cordial and free from recriminations. But East and West still may be far apart in the search of mutually compatible solutions.
Specific but flexible ideas on German unification and European security were outlined for the West by Prime Ministers Eden of Britain and Faure of France.
Marshal Bulganin, in a 29-minute speech—the longest made Monday—promptly countered with the suggestion of an immediate freeze on all foreign troops in European countries.

Will Announce Result Of Hillsboro Bridge Meeting

OTTAWA (Special)—The Hillsborough Bridge linking Charlottetown and Southport was the subject of a high-level conference here today between Prime Minister St. Laurent, Public Works Minister Robert H. Winters and Donald Gordon, president of the Canadian National Railways.
Outcome of today's conference will be revealed by Mr. Winters as soon as parliament reaches the appropriate item in the minister's estimates.

Coming Events

- Your Saturday night Jamboree—Forum.

D. T. All heads of departments are asked to give their reports ready. Rev. H. Milton will give an address. The boxes will be opened. Members bring sandwiches and cake. Short Executive meeting will be held at 1:30 daylight hours.

CONFERENCE IN HEAT WAVE
GENEVA (Reuters)—Big Four leaders trying to thaw the cold war had the weather on their side Monday. The temperature reached 29.6 degrees. Geneva's heat wave continued.

Gun Shots Fired In Montreal Civic Election

MONTREAL (CP)—Gun shots were fired and approximately 20 persons, including the chief of police, were arrested Monday during a municipal election in the Montreal suburb of St. Leonard-de-Port-Maurice.
The mayoralty and three aldermanic seats were at stake in the election.
Police Chief Richard Raymond was arrested by special constables on the grounds that he had shown himself partisan and that he had disturbed the peace. Approximately 100 special constables were sworn in by Ernest Crepault, secretary-treasurer of the municipality and returning officer in the election.
The constables patrolled the streets and guarded roads leading into the municipality. All cars were stopped at the outskirts of the town to prevent the entry of what the special constables described as "trouble makers."
Mr. Crepault said that for several days there have been rumors that boxers, wrestlers and bouncers would be brought here from Montreal to influence the election.
He said that Monday morning a gang had attempted to gain control of the town and some gunshots had been fired. About 20 persons had been arrested. It was not immediately known who fired the shots.

Arrest Chief

MONTREAL (CP)—Approximately 40 persons, including the police chief, were arrested Monday in suburban St. Leonard-de-Port-Maurice during a municipal election.
No one was injured during the shooting and it was not immediately known who fired the shots, but civic officials said the disturbances were caused by "outside interference" and "strong arm threats."

Canadian Heads NATO Parliamentary Body

PARIS (Reuters)—Members of parliament from the 15 countries in the North Atlantic Treaty Organization elected Senator Wishart Robertson of Canada as their president at the first meeting of an inter-parliamentary NATO conference here Monday.
They are meeting here this week to discuss relations between NATO and its member parliaments. Robertson, Speaker of the Senate, was behind the original proposal to hold such a conference.

Veteran Dies In Truck Accident At Johnston's R.

Daniel MacEachern, 34-year-old veteran of World War II and for three years a member of Canada's occupation forces in Germany, lost his life last evening about 6:30 A.M. when his half-ton Ford truck plunged through the railing of Johnston's River Bridge and landed upside down in the water. His body was thrown clear of the truck and recovered two hours later.
Two neighbors, J. G. MacDonald and Fred Trainor along with members of the RCMP located the body and brought it to the surface after which it was removed to the Hennessey Funeral Home.
It is reported that the late Mr. MacEachern had made a call at the store of Mr. Levi MacNally of Johnston's River and was on his way home travelling in an easterly direction when the accident occurred. There is a sharp turn in the road just before coming to the bridge and it is presumed that it was on this curve that the vehicle first went out of control.
The late Mr. MacEachern was the son of the late Mr. and Mrs. William MacEachern of Glenfinnan. He was unmarried. Besides his mother and father a brother, John, of Boston, Mass., survives as well as three sisters, Mary (Mrs. Leo Rooney) Brighton, Mass.; Helen (Mrs. Douglas McGrath) New Hampshire; Clara (Mrs. John Hardy) Boston, Mass.
Corner L. E. Prowse ordered an inquest held and after the jury had viewed the body, which was identified by Donald A. MacDonald, adjourned the hearing until Monday, July 25 at 7 p.m. City Hall.

Banker Dies

OTTAWA (CP)—Cyril H. Broughall, 57, assistant chief of the Bank of Canada's securities department, who died here in hospital Friday, was buried Monday.
Survivors include his widow, two daughters, Mrs. Bernard Pearson, Windsor, Ont., and Mrs. R. Gordon Fairweather, Rothesay, N.B.; and two sisters, Mrs. Marion Boyd, Toronto, and Mrs. Forbes Thayer, Halifax.

Body In Dry Dock

SAINT JOHN, N.B. (CP)—The body of Leo Donovan, 38, an employee of the Saint John Dry Dock Company, was found Monday on a boiler in the plant's main boiler room. He had been missing for a week, and searchers previously overlooked the spot where his body was found. No inquest will be held.

U.S. President And Soviet Def. Minister Meet Again

GENEVA (AP)—President Eisenhower and Georgi Zhukov greeted each other warmly Monday but Nikita Khrushchev soon took over the conversation.
Zhukov, Soviet defence minister who is a delegate to the summit conference, was talking with Eisenhower for the first time since 1945. Then Khrushchev, boss of the Soviet Communist party, came up. He grabbed the president's hand and said:
"Mr. president, Zhukov's daughter is getting married in Russia this week and I suppose he should have stayed for the ceremony but he didn't."
"He didn't stay for the wedding because he wanted to come to Geneva and see you."
The meeting took place as the Big Four conference began at the Palais des Nations.
James Hagerty, Eisenhower's press secretary, said the president and Zhukov "had a very enthusiastic meeting."
The two became friendly after the war when they headed Allied and Soviet forces in Europe. Recently Eisenhower disclosed he had been in correspondence with Zhukov.

Still Smoke Over Morocco Scores Dead

CASABLANCA, Morocco (Reuters)—French tanks and armored cars patrolled the streets of Casablanca Monday night after three straight days of rioting which left scores of persons dead.
Smoke still spiralled over the waterfront area after bombings Sunday by anti-French Moroccan crowds.
Tough Foreign Legionnaires and other troops were alert to nip any new street battles like those which in the last three days killed at least 63 demonstrators, soldiers and police. Most observers said Monday night the death toll probably is 150 to 200, with more than 200 wounded.
SNIPING CONTINUES
Troops and policemen, brought from Paris by plane, ringed the Old Medina, the ancient harbor area where angry crowds Sunday battled with firemen supported by tanks. Police fired on crowds with cannons and machine guns to quell the rioting.
Arab and French families alike buried their dead in blazing hot sunshine Monday. Sporadic shots broke the silence as troops and police, perched on rooftops, exchanged fire with Moroccan snipers.
In the outlying cities of Rabat, Sale and Port Lyautey, Arabs closed their shops to mourn the deaths of Moroccans in the rioting.
POLICE CHIEF SUSPENDED
Resident-general Gilbert Grandval already has imposed martial law on the port city and ordered an all-night curfew. Monday he suspended the city's chief of police. The trouble broke out last Thursday.

U.S. And France Differ On Two Propositions

By John M. Hightower
GENEVA, (AP)—The "solid front" of the western powers in the "summit" conference showed a sudden crack Monday.
President Eisenhower and Premier Faure pulled apart on two important propositions.
The differences were confirmed by an American delegation member who described Faure's speech as going much further in some respects than U. S. policy now goes.
Other officials said the split should not be taken too seriously but it obviously poses a problem in Western relations.
The issues on which the differences appeared were disarmament and European security.
AGREE IN PRINCIPLE
Eisenhower said on the first issue that the four powers should concentrate on the problem of working out an effective inspection system to enforce any arms cuts agreed on.
Faure, by contrast, said he thought disarmament might be achieved by budgetary controls, meaning that a country would be assumed to be cutting its actual armaments if it showed in its budget less money for arms.
On the second point, Eisenhower said Russia could be given additional security guarantees to meet its legitimate security concerns over rearming Germany. Faure proposed creating a European security organization to which all European states could belong.
Officials said that while Eisenhower and Faure were in complete accord on the principle of reas-

No Surprise That Russia Will Join Peaceful A-Pool

By J. M. ROBERTS
Associated Press News Analyst
Students of Soviet tactics would have been surprised if to Geneva they had not come to Geneva with a couple of new angles, if not new ideas.
This they did with the announcement that they would join President Eisenhower's atomic pool for peaceful purposes. And by it they became the first to lay an actual deed of conciliation on the conference table.
The suggestion of a freeze of foreign forces in Europe pending discussion of arms limitations also is an attempt to give a business-like air to their expressions of desire for relaxation of tensions.
So is the announcement that they intend to demobilize the troops used in Austria when the occupation is ended.
These "fringe benefits" offered by the Russians, however, fall far short of signalling any broad policy of conciliation when it comes to such major problems as Germany. On that point Russia is still working to break up the North Atlantic Treaty Organization and prevent the rearmament of Western Germany.
The Russian announcement of participation in the atomic pool followed directly on the heels of a renewed invitation expressed by Eisenhower in the opening speech of the conference. Whether it was actually a reply, or something the Soviet leaders had been saving all the time, could not be determined.
The Allies' initiative on opening day consisted primarily of offers to work out security guarantees for Russia if she would meet their requirements on reunification of Germany. Sir Anthony Eden even suggested the Allies might accept

Eisenhower Entertains Old Ally-In-Arms

By MARVIN ARROWSMITH
GENEVA (AP)—President Eisenhower entertained his old ally-in-arms, Marshal Georgi Zhukov, Monday night. Both sides drank champagne toasts to the success of the Big Four conference and achievement of a lasting peace.
The official word after the 2 1/2-hour stag affair at Eisenhower's Lake Geneva villa was that both the American and Russian delegations enjoyed themselves.
It was the first meeting of the president and Zhukov at a social affair since November, 1945.
They saw each other for the first time in those 10 years at Monday morning's opening session of the "summit" conference. But at that meeting Soviet party boss Khrushchev took over the conversation.
He told Eisenhower that Marshal Zhukov, Soviet Defence Minister, was missing his daughter's wedding in Moscow in order to "see you."

Manitoba Takes Half-a-loaf Unemployment

WINNIPEG (CP)—The Manitoba government says it reluctantly accepted the federal "half-a-loaf" offer on unemployment relief.
Subject to certain modifications in the federal government's offer to share 50 per cent of relief costs, Premier Douglas Campbell informed Prime Minister St. Laurent in a letter during the weekend that Manitoba was willing to sign an agreement.
In the letter, Mr. Campbell again recorded his "protest against the failure of this proposal to endorse and implement the principle that assistance to the unemployed employables be exclusively a federal government responsibility."
Modifications in the plan asked by Manitoba included inclusion of mother allowance cases where the father was incapacitated. Unlike other provinces, Manitoba pays mother's allowance; not relief.

One Airmen Missing As Flaming Bomber Crashes

COLD LAKE, Alta. (CP)—Three airmen bailed out safely Monday from a flaming Mitchell bomber on a routine training flight 300 miles east of here, about 200 miles northeast of Edmonton.
The fourth man in the RCAF twin-engine plane still is missing and a search for him is under way.
The bomber crashed in flames. Wreckage was strewn over a wide area. RCAF officials said they did not know whether or not the pilot of the plane bailed out.
The three who bailed out were FO A. (Ted) Tommehauer, second pilot of Chatham, Ont.; FO Keith Graham, navigator, of Parry Sound, Ont.; and FO Joseph Ernest Sicard of Montreal.
None of the three were injured. They were returned to the base by helicopter.
Name of the missing pilot is being withheld.

Drivers Warned Of Manoeuvres

CAMP GAGETOWN, N.B. (CP)—Day and night tactical manoeuvres leading up to exercise Rising Star will be staged here during the last 10 days of July.
Lt.-Col. Freeman Waugh, commander of the eastern command administration unit, made the announcement Monday as a warning to motorists in the area.
Large scale movements of troops and vehicles will take place, some without lights, he said. Provost corps personnel will erect signs and direct civilian and military traffic.

Back From Near East

OTTAWA (CP)—Eight RCAF Sabre jet ground technicians have returned to Canada after eight months in Turkey and Greece, the air force announced Monday.
They were instructed Turkish and Greek air force instructors on the maintenance of Sabre jets donated by Canada under the NATO mutual aid program.
The members of the team included Sgt. A. R. Grondin, St. Andrews, N. B., and Sgt. H. P. Fisher, Halifax.

U.S. House Passes Vote For Atomic Merchant Ship

WASHINGTON (AP)—The House of Representatives voted Monday to build an atomic-driven merchant ship—but not the demonstration type requested by President Eisenhower.
The House passed by voice vote and sent to the Senate a measure authorizing the maritime administration to construct an experimental, commercial type ship that could some day compete for the world's shipping business.
The atomic experts will what type of vessel to build. The construction job could take five to 10 years.
The House merchant marine committee, in unanimously approving the measure, had suggested a combination model that could carry both cargo and some passengers.
This differs from the "peace" ship Eisenhower proposed to use to demonstrate to the world the peaceful possibilities of atomic energy. Although his project was rejected as a "showboat" earlier in the congressional session, the president has said he still wants Congress to give it approval.
Unlike Eisenhower's "peace" ship, which could get under way in a matter of months by using an already developed atomic engine like that of the submarine Nautilus, the merchant vessel envisaged in the House bill would travel on a more commercial type atomic reactor.

Bring Back The Cats

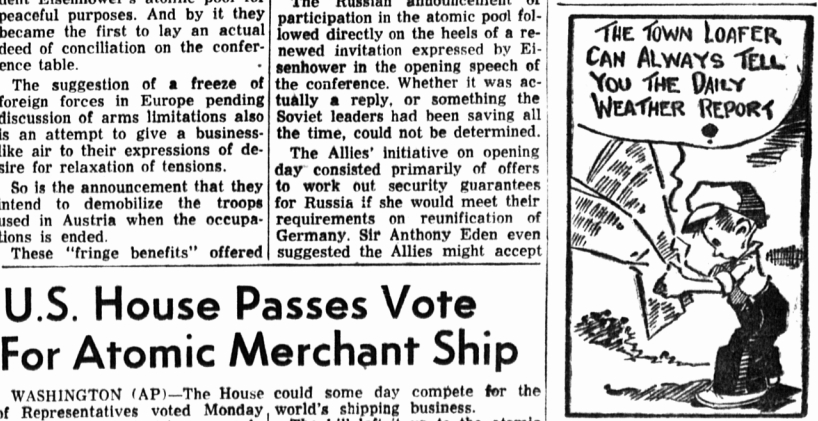

OTTAWA (CP)—Bring back the cats, cried Harold E. Winch Monday as he said Parliament's mice are getting out of hand.
The CCF member for Vancouver East made the appeal in the Commons while criticizing the verminous state of Parliament's Centre Block.
He said that a number of cats which had once made the building their home were exiled before this session. There were no mice before.
Now there were mice on the fifth and sixth floors, in the restaurant and cafeteria, skittering across the marble corridors.
Cockroaches, too.
"May I suggest you bring those cats back, as being exterminators between sessions," Mr. Winch said. "Not while we're here, though."

TRUCK EMERGING AFTER FATALITY

A large crowd of onlookers viewed the grim tragedy which took the life last evening of Daniel MacEachern, 34-year-old war veteran whose truck went out of control and crashed through the railing of Johnston's River Bridge. His body was located in the water of the river about two hours after the accident. Seen above is the truck just as it was pulled from the water.
