Labor Federation Supports Motion To Halt Moonlighting

MONCTON (CP) — A motion that may eventually put an end to moonlighting among members of the Canadian Labor Congress and its affiliate members Tuesday received the support of the New Brunswick Federation of Labor at its ninth annual convention here.

A substitute resolution presented by Local 1151 of Saint John asked the federation to request the CLC and its affiliates to ask its members to desist from moonlighting.

The hour-long discussion, which followed the introduction of the resolution by the committee, was devoted in part to defining "moonlighting." The definition said it is the practise of working another job for less money than the job held in full-time.

A local union member argued that it is sometimes necessary for the family earner to work extra hours in order to pay the bills and supply the family needs. "Some of these jobs only take three or four hours," she said, "but they are jobs which must be done."

Another delegate said if "we need more money let us get it across a conference table. Let's bargain for it, not work more and harder hours. It is people like us who are willing to work these extra hours that make the millionaires of society. A moonlighter is certainly not a friend of the labor movement. For he is defeating the purpose of unions at the outset."

Other resolutions passed included one asking that the provincial government be petitioned to grant bargaining rights to all civil servants in the province.

S'ide Man Pleads Not Guilty To Leaving Accident Scene

SUMMERSIDE — A young Summerside man, Lowell Lloyd Oliver, entered a plea of not guilty on a charge of leaving the scene of an accident yesterday when he appeared in Prince County Court.

Testimony in the case was heard from two Crown witnesses — Const. Vernon Reeves of Kensington and RCMP Cpl. Victor Cameron of Summerside, the arresting officer.

Defence witnesses heard were the accused and the owner of the car, James Patrick Hughes. Bernard McCabe represented Oliver while George R. McMahon acted for the Crown.

Following testimony, the case was adjourned to Sept. 2.

PARKING CHARGES

The following were each fined \$10 and costs when they appeared on similar charges of parking their vehicles in a no parking area: James Robert Heath Hill, Fredericton; Gordon Archibald Stewart, Stanley Bridge; Sandra Eileen Mills, St. Eleanor.

On the same charge, David Herbert Douglas of RCAF Summerside and Kenneth Gordon Ramsay of Hamilton, P.E.I., were each fined \$15 and costs. These two accused entered not guilty pleas.

The charges arose as a result of cars being parked in no parking areas on the Freetown Road near the Prince County Stock Car Club Raceway.

Quebec Hopes To Make Own Wanted List

MONTRÉAL (CP) — Quebec Provincial Police hope to soon publish their own list of most-wanted criminals separate from a federal list issued annually by the RCMP, a QPP spokesman said Monday.

"There are a lot of fugitives wanted very badly in Quebec who aren't necessarily on the national most-wanted list," deputy QPP director J. P. Dessurault said.

"Listing them publicly would mean they'd be known to the 8,000,000 people of the province, not just the police," he added.

424 Traffic Fatalities

OTTAWA (CP) — There were 424 traffic accident fatalities in Canada during June, bringing the total for the first six months of 1965 to 1,897, the Dominion Bureau of Statistics reported Wednesday.

June fatalities were up 14.6 per cent from June, 1964, and the mid-year figure was three

per cent higher than a year earlier.

The bureau said property damage in the first six months of this year as the result of motor vehicle traffic accidents amounted to \$60,393,000, compared with \$48,717,000 in the same period last year. The figures covered accidents in which damage amounted to \$100 or more, but did not include Quebec statistics which are not yet available for the latest period.

All hospitals not qualifying for accreditation inspection would be reviewed by the committee to determine the type of treatment which might safely, from a professional and public standpoint, be undertaken.

The report was prepared by a committee of the society which is meeting monthly with the Maritime Hospital Services Association with the aim of curbing abuses. The association administers the plans.

Dr. J.A. MacDougall of Saint John, a spokesman for the MHSAA, told the meeting the financial condition of the association itself is "good". However, he said, the use of the Blue Shield's so-called Comprehensive Plan Three is "dangerously close" to 100 per cent.

"If the Province of New Brunswick's Comprehensive Plan Three had normal utilizations, we'd be able to implement the best fee schedule in the country," he said.

HOSPITALS CRITICIZED
New Brunswick hospitals were criticized for failing to provide proper training for foreign interns. Every hospital in the province is guilty, with one exception, said Dr. John R. Nugent of Saint John, registrar of the Medical Council of New Brunswick.

That exception is Tracadie. Dr. Nugent said that results of examinations written this year by foreign interns "does not disclose a very happy picture." Of 28 interns who wrote the examinations, only four passed. Twelve failed completely, while the other 12 failed partially. "I'm laying that firmly on the nose of the staff in the various hospitals who are accepting the services of these interns," Dr. Nugent said.

The interns were not receiving the kind of training and educational review that will fit them for the examinations.

The society adopted a recommendation aimed at improving hospital standards in the province. "Our main aim is to get into hospitals with fewer than 25 beds and bring them up to scratch," an official said.

COMMITTEE FORMED
Under the recommendation, a committee will be established to frame standards of control and supervision of hospitals.

The committee would "request and encourage all hospitals to attempt to qualify for hospital accreditation and request inspection by the recognized accreditation authorities."
