Election of a Commissioner of Sewers & Water Supply

In pursuance of an Act of the General Assembly of this Island, made and passed in the 61st year of the reign of Her present Majesty Queen Victoria, intitled: "The Charlottetown Sewerage Act," and the Act of 62nd Vic Cap 4, entitled: "An Act to amend the Charlottetown Sewerage Act."

I do hereby give Public Notice that an Election for a Commissioner of Sewers and Water Supply for the City of Charlottetown, in the place of Hon David Laird, resigned, will be held on

Thursday, the 18th day of May, A. D 1899,

at the several places, that is to say: In Ward No. 1, at or near the office of Mr. John MacEachern, Queen Street.

DESCRIPTION OF WARDS. Number One shall comprise all that part of Charlottetown which lies south of Dorchester Street, and the parcel of land formerly known as the Military Barrack Ground.

Number Two shall comprise all that part of Charlottetown which lies south of Richmond Street and north of Dorchester Street.

Number Three shall comprise all that part of Charlottetown which lies south of Grafton Street and north of Richmond Street.

Number Four shall comprise all that part of Charlottetown which lies south of Fitzroy Street and north of Grafton Street.

Number Five shall comprise all that part of Charlottetown which lies north of Fitzroy Street, including the Common of the said Town.

NOMINATION DAY. THURSDAY, May 11th, A. D. 1899, from the time of Twelve at noon until the hour of Four o'clock in the afternoon of the same day.

For qualification of Electors, see Act 61, Victoria, intitled "Charlottetown Sewerage Act," also 61 Victoria, Cap. 12.

JAMES WARBURTON, Mayor of the City of Charlottetown

H. M. DAVISON, City Clerk

City Clerk's Office, Charlottetown, May 1st, 1899.

In Chancery In The Rolls Court

DAVID P. IRVING & others, Complainants and MARGARET IRVING & others, Defendants

In pursuance of an order of this Honourable Court, made herein, on the 28th day of March, A. D. 1899, notice is hereby given that all persons having claims against the estate of George Irvine, late of Orwell Cove, Lot of Township number 57, in Queen's County, deceased, intestate are required to come in and prove the same before me at the Prothonotary's office, in the Law Courts Building, in this town, on or before Monday, the twenty-second day of May next, A. D. 1899, and all persons neglecting to come in and prove their said debts and claims by that time are to be excluded from the benefit of said order.

Dated this 29th day of March, A. D. 1899. F. L. HASZARD, J. A. LONGWORTH, Solicitors Master in Chancery 76-d-Wt

The Economical Use of Fertilizers.

Six.—Few farmers have all the manure that they need to increase the fertility of their farm. Such can make a profitable use of fertilizers in growing crops for feeding on the farm, such as roots, mixed grains, ensilage corn, etc, enabling them to keep more stock and to make a large and better lot of manure.

Many are finding it profitable to use fertilizers on their money crops, especially on potatoes, beets, cabbage, tomatoes, beans and peas.

By so doing they obtain these crops earlier, of better quality and in larger quantities, and thus obtain better returns from them.

Mr. R. C. Williams of Long Reach, N. B., President of Agricultural Society, No. 23, writing to the Provincial Chemical Fertilizers Co., of St. John says: "I had eleven rows of potatoes 150 feet long planted after May 24th. I dug 40 bushels first class potatoes." (This was more than 420 bushels to the acre.) They were grown on your fertilizer. I used it on corn of all varieties.

My fodder corn was considered by all who saw the field the largest yield they ever saw. I used it on tomatoes and had no rot or rust, and with marvellous yield. I think the Imperial a first-class dressing for strawberries. My root crop was larger this year than ever before.

Now if farmers wish for such results they should buy only high grade fertilizers. Too many of us are inclined to buy the cheapest grades and find at last to our loss and sorrow that they are dear indeed. The farmers of New Brunswick have recently had a bitter experience of this kind. A Phosphate Powder was offered them a few dollars per ton cheaper than the high grade fertilizers.

Large quantities were sold at \$25 per ton, and car loads were sold two years ago in Carleton County.

The coming season not a car of it will be sold in the entire County. The results were unsatisfactory.

But the sales of high grade fertilizers are increasing steadily because the farmers find their use profitable.

The best is none too good for the farmer, and the best is the cheapest in the end. The Fertilizer Bulletin issued by the Dominion Government for 1898 gives the value of that Phosphate Powder as \$14.50 per ton. The value of high grade fertilizers range from \$25.57 to \$34.15 per ton.

These latter are well compounded and well proportioned and can be profitably used by the farmer. The use of 200 or 300 pounds of fertilizer to the acre has given most satisfactory results as top-dressing for grass and increasing the crop for two or three years. Farmers have found it a saving of strength, time and money to use fertilizers on fields a long distance from the barn, and the manure on those fields nearby. A load of fertilizer will manure a number of acres for most crops, and by its use the crops can be put in much more rapidly.

Another profitable use of fertilizers is with manure to give the crops a quick start, especially on the roots, to make them vigorous so that they will better withstand the ravages of those bugs, worms, and flies that prey upon them. This is the experience of many farmers in our own and in neighboring provinces. No better evidence of the economical use of fertilizers could be had than the large increase in their sales during the last ten years.

But each farmer should be sure that he buys the best, and then uses them judiciously and he will have the satisfaction of harvesting bountiful and remunerative crops.

A FARMER.

NOTES AND COMMENTS.

—The surplus about which Mr. Fielding boasts it is not the largest that has been, even if it should be as large as he anticipates, which is very doubtful.

—Pending detailed information, the London papers comment approvingly, but cautiously on the news of the Anglo-Russian agreement regarding spheres of influence in China. The Daily Chronicle points out that this agreement will produce similar arrangements with Germany and France, resulting in the partition of China, which Lord Charles Beresford predicts will bring war.

CITIZEN.

SOME SUFFERING THAT IS SENSELESS.

Because it Can be Easily and Quickly Cured.

Why Should we Endure the Torments of Dyspepsia When Doid's Dyspepsia Tablets Cure the Disease Promptly, Perfectly, Positively and Permanently?

You've had the toothache! But you didn't suffer with it any longer than you could help!

HORRIBLE AGONY.

Suffered by Mr. Thomas Harrison of St Mary's, N. B.,

Stone in the Bladder Brought Him to the Point of Death—Dodd's Kidney Pills Cured Him After All Else Had Failed.

Fredericton, N. B., May 3.—All residents of the village of St. Mary's, a suburb of the city, will remember the recent narrow escape of Mr. Thomas Harrison, who was seriously ill with Stone in the Bladder.

It will be remembered that Mr. Harrison became so ill that many of his friends thought he could never recover. All medical treatment failed to relieve him; his urine was thick and bloody, and his chances were small.

At this period Mr. Harrison was persuaded to give Dodd's Kidney Pills a trial.

He had no faith in them, nor hope that they would afford either relief or cure, but he nevertheless agreed to give them a trial.

After having used one box he passed a large stone that had formed in his bladder as a result of defective kidney action.

All his pain vanished with the passing of this stone. He "mentally" rapidly, gaining health, strength and flesh, rapidly.

Mr. Harrison continued the use of Dodd's Kidney Pills for a time, till his kidneys were perfectly restored and all danger of another stone forming had passed.

To-day he is strong and healthy, and no man in Canada is louder in praise of Dodd's Kidney Pills.

Dodd's Kidney Pills have had the same result in every case of Kidney Disease for which they have ever been used. They have always cured.

Victims of Kidney Disease—in any form—may be absolutely certain of a thorough and permanent cure, if they use Dodd's Kidney Pills.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it.

Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies out.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to world's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

QUEENS BIRTHDAY CELEBRATION.

Sir,—Referring to the celebration of Her Majesty's birthday, of which Mr. J. J. Pollock writes I think it is becoming that we should, one and all, do our utmost to make the few remaining years of Her Majesty's reign memorable. It is astonishing to see the 24th going year after year without our citizens making any public effort to show their gratitude to our beloved sovereign for the peace and prosperity which has been bestowed upon us during her long reign. It seems to me fitting that we as loyal subjects, should join hand in hand with the militia in their endeavor to celebrate the birthday of Her Most Gracious Majesty.

CITIZEN.

GOOD SEED AND WEEDS.

Six.—Now that spring has come, and the farmer is making ready to get his seed into the ground, would it not be better for him to devote a little more time than usual to the preparation of his seed grains? In other places many farms are overrun with weeds. Why should ours, if we can keep them out? As "like produces like," good seed will certainly produce better results than poor. Then why sow the poor? A bushel of wheat don't always mean a bushel of good seed. It may not even be all wheat. There may be many weed seeds, some very bad, and some comparatively harmless. No seed should be sown but the best, and as nearly pure—the one variety as possible. The sowing of what will produce almost nothing is certainly a loss, and gives room for weeds to grow. G. A. E. all the grains, taking the best only of each, and then, if sown in well prepared ground, and in proper time, good returns may almost certainly be expected. Under no condition sow weeds. By grading, every weed, except those the same size or shape of the grain, can be taken out. When anyone sows his own growing of seed, he ought certainly to know what weeds he is troubled with, and can prepare it as best suits him; but when he buys his seed he should grade every pound of it to make sure he is not sowing even worse weeds than he already has. Don't imagine the importer can guarantee freedom from weed seeds. Don't ask him to, but examine for yourself. You have about the same opportunity to know that he has. All he can do is take the word of others. You can do the same, with this difference, he sells while you use. All you can require of him is to import seed as he can get it, true to name, and as free from weeds as possible. You must do the rest. Grade it and take out every seed that don't belong there. You can't expect to buy absolutely clean seed. Look after every bushel you buy, for you must if you expect to keep pace with the times. Some weed seeds are large, but the greater number are small. The large are more difficult to separate from the grain than the small. It is only a very careless and ignorant person who would sow the small weed seeds when they can be so easily removed. Such a person is a continual menace and expense to his neighbors, for while he grows the weeds, they have to fight them. Again I say, don't sow weeds.

PRUDENCE.

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Substitution No fraud of the day.

See you get Carter's, Ask for Carter's, Insist and demand Carter's Little Liver Pills

Today's Shipment—American Muslin Gooden in stripes, Organdie Valenci in spray patterns, Danabé Dimity, Windsor Vanda muslins for blouses and dresses, Gazonette Broderie, baby muslin goods, American belts, American collars, linen American sailor hats, straw trimmings, walking hats, sailor hats, dress hats, trimmed walking hats, veillings and muslins. The above goods were purchased by our Miss McEachern. Call and inspect our millinery. Miss McEachern will be pleased to show you the styles. Jas. Paton & Co. 92, 31, why.

SPORTSMEN—The Forest and Stream Publishing Company, New York, announces the immediate issue of the number of their new illustrated sportsmen's magazine, entitled Game Laws in Brief and Woodcraft Magazine. It gives all the fish laws of the United States and Canada so far as they concern anglers and shooters; and there is a long list of fishing and shooting stories and sketches of wild life and adventure. The price is one dollar a year.

DEAR SIR,—I have been a great sufferer from rheumatism, and lately have been confined to my bed. Seeing your MINARD'S LINIMENT advertisement, I tried it and got immediate relief. I ascribe my restoration to health to the wonderful power of your medicine.
