Budget Assessment Seen Requiring Prolonged Effort

By FORBES RHUDE

Canada Press Business Editor
Francis and a few computers, put to work Thursday night to assess the budget's impact on the economy over a long period of full employment ahead of them.

Each of the work centres around measures aimed at encouraging Canadian ownership of foreign companies and discouraging their sale to foreign interests.

Most of these measures the one arousing most immediate controversy and uncertainty is the 30-cent cent tax on sales to interests outside the country.

It applies, among other things to sales valued at more than \$50,000 in one day of shares of Canadian companies listed on Canadian stock exchanges.

WASHINGTON (AP) — The Pentagon virtually has given up on producing a spy satellite to detect Soviet ballistic missile launches and flash instant attack warnings to the United States.

A sharp cut in funds apparently spells the end for the Miltas satellite, although the defence department plans to continue research looking for a new approach to the same goal.

Dr. Harold Brown, director of defence research and engineering, told Congress about it in heavily-censored testimony made public here.

The slash in funds recommended by the Pentagon was based "on the conclusion that the way the program was going it would never produce a reliable, dependable system."

Thorough fiscal 1963 Brown said the program has cost \$423,000,000. "Of that, I would say about half has been wasted," he told the subcommittee.

French Canada Seen Lagging In Administrators
By REYD MCDUGALL

French Canada is producing too few professional men and too few business leaders, says Professor William Pugsley of McGill University's School of Commerce.

He said in an interview that while French Canada is producing a number of professional engineers and other professional men, the province is crying for administrators.

Prof. Pugsley described the professional man as someone making decisions by himself alone, hence his appeal to the individualistic French-Canadian.

The business administrator, however, was more of a team man. "Shrewd, flexible, opportunistic and a dollar cost-conscious, he fits together the many pieces of his jigsaw puzzle into a well-knit team to

Wife Facing Murder Charge

By BRANTFORD, Ont. (CP)

Shirley Patricia Sirvinskas, 30, of Brantford, has been committed for trial at a preliminary murder hearing here.

Mrs. Sirvinskas has been charged with the rifle slaying of her husband Roman, 23, at their home on May 6.

T. F. Forestell, Crown attorney for Welland County, replaced Charles Brock as Brant County Crown attorney because of Mr. Brock's previous professional dealings with the Sirvinskas.

Mrs. Sirvinskas will appear in court on May 14. She is charged with the slaying of her husband Roman, 23, at their home on May 6.

Without administrators familiar with markets throughout Canada and even abroad, any widespread plan by French Canada to take over more ownership from the English sector would fail.

For sizeable English companies in Quebec depend mainly on markets outside Quebec.

What could English Canada do to help French Canada produce more administrators? Prof. Pugsley said English Canada has business know-how and must share it with French Canada, something which will benefit both.

Prof. Pugsley suggested English companies should have an attention on French-Canadians on their boards and vice versa.

At the operating level, he suggested that a French-Canadian made to help the French-Canadian in an English company to gain wide administrative experience.
