HOW TO TREAT A COLD.

Don't stuff a cold, as the old adage advises, if you do you will have a fever to starve. A genuine cold is a shock received by the many million nerves which approach near the surface of the human body, and which control the nearly seven million pores of the skin. This shock closes the pores of the skin, is transmitted to the nerve centre and back to the mucous membranes, forcing a great amount of blood to these membranes, creating more or less irritation and consequent fever, inflammation, dryness, then watery discharge and catarrh. The shock may have its cause from a chill, from improper eating, a nervous fright and various other causes which irritate the nerves of the skin and mucous membranes of the nose, throat and bronchial tubes. Excess of blood in the stomach still more clogs the system and pores of the skin, so that effete matter, which should be carried off by the natural courses is retarded; which is ample reason for not stuffing a cold. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy until some friend suggests another "sure cure." When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from whatever cause, act promptly, delays are dangerous; with children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Liniment near at hand for colds and croupy children. The proprietors, I. S. Johnson & Co., Boston, Mass., will send their new illustrated book entitled "Treatment for Diseases," free to any person for the asking.

"What did the phrenologist say when he examined your bumps?"

"He said that my wife had a very well developed muscle."—Judge.

A STEALTHY FOE.

Bright's Disease may Exist a Long While before it is Suspected.

DROMORE, Jan. 14.—Brights disease has no symptoms of its own, and may long exist without the knowledge of the patient or practitioner, as no pain may be felt in the kidneys or their vicinity. There may be no albumen in the water and no tube-casts, yet Brights disease may be present. It often develops suddenly and may run a fatal course before it is recognized. Bright's Disease is thus recognized as a mysterious every day malady, which is increasing at an alarming rate. Before Dodd's Kidney Pills were placed within reach of the public, these diseases were considered by medical men and the public to be incurable. Thanks to this popular remedy, thousands are now enjoying perfect health who, without it, would to-day be laid away in their graves.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ar.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

LITERARY NOTES.

Dr. Parkhurst has coined a new word, and its aptness and clever construction are quite likely to make it famous. The eminent reformer's word is "Andromania," and of it he says: "There is an element in the feminine world that is suffering from what I shall venture to call 'Andromania.' The word is not an English one, for the reason, I suppose, that the English language-makers never supposed that we should need such a term. It is constructed on the same principle as the word 'Anglomania,' which means a passionate aping of everything that is English. 'Andromania' means similarly, a passionate aping of everything that is mannish." Dr. Parkhurst makes his new word serve as the title for his first article in the next issue of The Ladies' Home Journal, and uses it for a vigorous treatment of the type of women for whom he invented it.

HARD TIMES IN KANSAS.

The Governor of Kansas, in the January North American, draws an awful picture of the condition of the Kansas farmers.

To begin with, the aggregate of the real estate mortgages on farms in the state is $168,000,000, while the liens on chattels amount to $48,000,000 more and 10,000 people are driven out of house and home every year by foreclosure.

Nor is there any prospect of improvement. Prices are low and the tendency is still downward. To produce a bushel of wheat costs fifty cents, and the selling price is only forty cents. Twenty-five years ago two bushels of grain produced $5; now twelve bushels will not yield the same sum. A few years since a good horse would fetch $75; now eight horses will not bring more than the same sum.

No wonder the farmers of the Western States are so ready to move across the border into the Canadian Northwest.

All About Phosphorous.

Phosphorous is one of the most potent life giving principles, and is found abundantly in the Norwegian Cod Liver. Combined with hypophosphites of lime and soda, it forms the wonderful blood creator known in science. Miller's Emulsion of Cod Liver Oil produced from the Norwegian fish is the finest preparation of this oil in the world. Its flesh and blood producing qualities enables the sufferer to gain the mastery over consumption and commence a new life under higher physical conditions. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all Lung affections. In Big Bottles, 50c. and $1, at all Drug Stores.

ROME, Jan. 17.—A despatch from Massowah says General Baratieri, commander of Italian troops in East Africa, again met Chief Ras Mangasola and his army last evening, after persuing them ten hours. A battle was fought south of Coatit. The Italian artillery cut down the enemy by hundreds, and and eventually put them to flight. The Italian victory is complete and decisive. The enemy left his dead wounded, arms, ammunition and quantites of stores on the field. Among the wounded were several chiefs.

The most careful calculation as to the financial loss inflicted by the late cold snap in Florida places it at seven million dollars.

Boston will require something like $14,000,000 to keep the departmental wheels running during this year.

With Invalids.

Yes! with invalids the appetite is capricuous and needs coaxing, that is just the reason they improve so rapidly under Scott's Emulsion, which is as platable as cream.

Harper's Weekly

IN 1895

HARPER'S WEEKLY is pictorial history of the times. It presents every important event promptly, accurately and exhaustively in illustration and descriptive text of the highest order.

The manner in which during 1894, it has treated the Chicago Railway Strikes and the Chino-Japanese War, and the amount of light it was able to throw on Korea the instant attention was directed to that little known country, are examples of its almost boundless resources. Julian Ralph, the distinguished writer and correspondent, has been sent to the seat of war, and there joined by C. D. Weldon, the well-known American artist, now for many years resident in Japan, who has been engaged to co-operate with Mr. Ralph in sending to HARPER'S WEEKLY exclusive information and illustration.

During 1895 every vital question will be discussed with vigor and without prejudice in the editorial columns, and also in special articles by the highest authorities in each department. Portraits of the men and women who are making history, and powerful and caustic political cartoons, will continue to be characteristic features. This Busy World, with its keen and kindly comment on the lesser doings of the day, will remain a regular department

FICTION.—There will be two powerful serials, both handsomely illustrated—"The Red Cockade," a stirring romance of olden days by Stanley J. Weyman, and a novel of New York, entitled "The Son of His Father," by Brander Matthews—several novelettes, and many short stories by popular writers.

Send for Illustrated Prospectus.

The Volumes of the WEEKLY begin with the first number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order.

Cloth Cases for each volume, suitable for binding, will be sent by mail, postpaid, on receipt of $1.00 each. Title-page and Index sent on application.

Remittances should be made by Post office Money Order or Draft, to avoid chance of loss.
