

Vanier Medal Is Presented

OTTAWA (CP) — Robert B. Bryce, Canada's deputy minister of Finance has received the Vanier Medal of the Canadian Institute of Public Administration from Governor-General Vanier.

Mr. Bryce, 55, was honored at a Government House ceremony attended by about 40 people, including high-ranking civil servants at the federal, provincial and municipal level.

The medal is presented annually by the institute to distinguished public servant.

Gen. Vanier warmly praised Mr. Bryce for his service to Canada since he joined the finance department in 1938.

The Governor-General's tribute was both a personal and public one. He said: "The contribution which Bob Bryce has made is one which, of course, affects every Canadian but I cannot help mentioning, the more specific assistance he gave me personally during my first and most difficult years in my present office when he served as clerk of the Privy Council.

"I need hardly tell you how reassuring the encouragement and unfailing aid of Bob Bryce were during this period. He has been a wise and impartial adviser, not only to myself and to successive prime ministers, but to all who had the wisdom to seek his help."

Mr. Bryce, who received his masters degree in economics from Cambridge University in 1935, was clerk of the Privy Council and secretary to the federal cabinet under three prime ministers, Louis St. Laurent, John Diefenbaker and Prime Minister Pearson. He held the post from 1954 until his appointment in 1963 as deputy minister of finance.

Twisted Ballot Case Reported

OTTAWA (CP)—The case of a twisted ballot, as a means of switching support from one political party to another in an election, has been reported by Dr. Marc Arsenault, defeated Progressive Conservative candidate in Ile-de-la-Madeleine in the Nov. 8 federal election.

In an interview here, Dr. Arsenault, who lost by 307 votes to Forestry Minister Maurice Sauve, charged his opponent received votes from illiterate electors when Liberal party representatives in polling booths turned the ballots upside down before they were handed to the voters.

Dr. Arsenault said his campaigners told voters who could not read that if they wanted to vote for him they should place an X beside the first name on the ballot—his own, because of alphabetical listing. But the Liberals, he said, turned the ballots upside down before they gave them out and the name, Mr. Sauve, became the first.

Dr. Arsenault did not say how many votes were involved.

Newsprint Output Up

MONTREAL (CP)—Canadian newsprint production in October amounted to 685,816 tons, an increase of 21,896 tons or 3.3 per cent over October 1964, the Newspaper Association of Canada has reported.

The production rate in October was 95.7 per cent of 1965 rated capacity, against 91.3 per cent in September. In October 1964 it was also 91.3 per cent of capacity.

Canadian shipments totalled 693,576 tons for the month, an increase of 32,370 tons or 4.9 per cent over October 1964. Shipments to United States consumers were 595,430 tons or 81.5 per cent of the total, marking a gain of 11.7 per cent over October of last year.

Capacity is calculated from past records of all paper-making machines plus expected performance of new machines coming into production during the year.
