The general verdict of the smokers in Canada is that "Myrtle Navy" is the finest tobacco they have ever used. There can be no mistake upon this point for it is proved by tangible evidence. The large demand for this tobacco shows it to be true, and the character of the demand gives further proof. It has never been of the spasmodic kind—up one month and down the next. It has been a sustained and constantly increasing demand. The unsurpassed quality of the tobacco accounts for this.

A YOUNG WOMAN about 25 years of age, named Mary O'Neill, who has been a servant girl at the Dominion House for the past three months, is the mother of a child about eighteen months old, for the support of which she has been paying a woman named Mary Morrill, who resides on Kent Street near the Rocklin House. The Morrill woman it appears, got tired of caring for the child, and yesterday morning left it with the mother at the place where she was employed. The mother did not take kindly to the infant, and shortly afterwards started off with it for the Morrill residence. On arrival there, finding she could not get into the house, she left the child at the back door. The Morrill woman complained of the desertion at the Police Station. Officer Bradley proceeded to investigate, and found the child at the back door as stated. He induced the woman to take the child into the house until he would see further about the matter, which she did. He then started to look for the mother of the child but could not find her at the place where she was employed. In the meantime the two women had repaired to the Police Station where they were discussing the matter before the officers. The Morrill woman gave an excuse for her conduct in refusing to care for the child that she was obliged to go out to work to earn a living which she could not do so long as she had the baby to look after. The O'Neill woman charged the other with keeping a house of prostitution and the police settled the matter by committing both to jail to await trial before the Stipendiary Magistrate this morning. They were arraigned this morning and each were sentenced to six months imprisonment for prostitution, and the O'Neill girl was in addition sent up to the Supreme Court for child desertion. A "boarder" of Mrs. Morrill's named Pearn, was sentenced to \$30 or thirty days, and two drunks were also disposed of.

DOMINION PARLIAMENT

OTTAWA, May 19.

House met at three p. m. In answer to a question Mr. McLellan said no applications had been made by the Government of P. E. Island for any advance to that Province out of the capital amount standing to its credit, that a claim had been made by the Island Government in respect to a refund for moneys expended on wharves and piers, and that the sum of \$54,000 had been paid on that claim.

Waking Them Up.

PORTLAND, Me., May 19. A large meeting of business men was held at the Fish Exchange to-day, for the purpose of taking action upon the course of the Canadian Government in seizing the American fishing schooners. Speeches were made denouncing the course of the Dominion Government, and resolutions were adopted of a similar effect, and demanding that the President of the United States should issue a proclamation at once, declaring non-intercourse with the Dominion of Canada in all matters pertaining to the fisheries.

It was also resolved to ask the United States Government to send armed vessels into Canadian waters to protect American fishermen, and it was voted that if the Government refused to do so the fishermen will arm and equip their vessels for protection from seizure.

Retaliation and Revenge.

PORTLAND, Me., May 19. The schooner Arctic, of Lockport, N. S., arrived here to-day and gave an order for 980 barrels of bait. Considerable excitement prevails among our fishermen and there is some talk of seizing her and running her out of the harbor. The Gem of the Ocean with a permit to "touch and trade" is reported to be putting arms on board and shipping men to protect herself from seizure.

A vessel from the provinces is bound here with 75 barrels of mackerel for bait. These fish come free of duty, and are sold to our fishermen who must pay the freight charges, and choose for themselves as they cannot go to the provinces to buy.

The Fisheries

HALIFAX, May 19. The warships Tenedos and Mallard are daily expected from Bermuda to engage in the fishery protection service.

Despatches from Shelburne say that American fishermen baited with mackerel at Barrington yesterday, and that other American schooners are hovering off that place.

A despatch from St. Peter's, C. B., says that the American schooner Louis A. Grant is there shipping a crew for the Grand Banks, and thus violating the treaty. She will probably be seized.

The Inch Arran Matter.

OTTAWA, May 19. Mrs. Grant proved, as a witness this morning in Inch Arran House investigation, too much for Mr. Davies. He had no show at all. Every politician in the committee room felt that Mrs. Grant was an awakened conscience to him, and doubtless recalled scores of promises he had made which still remained unfulfilled.

African Natives in Turmoil.

LONDON, May 19. A despatch from Cape Coast Castle, the capital of the gold coast of Western Africa, says that a conflict is proceeding between the Baquaahs and Admanis, two native tribes, and all trade with the interior is temporarily stopped. The Baquaahs recently captured 45 German traders, and killed them by the most horrible torture.
