PORT HARDY, B.C. The largest pieces, DC-3 which killed 14 people above picture. Four persons escaped part of the Pacific Western Air was the "tail assembly" shown in caption with only "slight injuries."

CITY AND CENTRAL

WE REPAIR Washing machines, electric motors and appliances, Martin's Electric. Phone 3727.

ADELLA'S MILLINERY TABLE of hats clearing at \$1.95, \$2.95 and \$3.95.

SQUARE DANCE. Community Centre, June 26, Box lunch. Everyone welcome.

SATURDAY JUNE 29th is the final day for payment of second installment of Civic taxes.

SECOND installment of Civic taxes is due and payable on or before Saturday, June 29th.

PARKDALE Royalty United Church congregational meeting, Hertz Hall, Thursday 8 p.m.

INTEREST at the rate of one-half of one per cent per month will be charged on all over-due installments of City taxes.

JUST RECEIVED Men's dress boots of fine calf or kid leather. E and EEE widths. Priced at \$10.50 and \$13.95. Wright Shoe Co. Queen St.

PARENTS of Grade 1 pupils to attend City Schools next September are requested to enroll names immediately by phoning the Principal.

GALE Shoe samples for men. If you wear size 7, here is a bargain. A fine range of summer oxfords for \$7.95 and \$8.95. These fine shoes would regularly be \$12. to \$16. Wright Shoe Co.

AT HOME. Mr. and Mrs. Hammond Rodd, Winsloe, will be receiving congratulations today between the hours 2-4 and 7-9, the occasion being their fiftieth wedding anniversary.

SUDDEN DEATH — Word has been received by Mrs. J.E. Kelly, 60 Kent Street, of the death of Mrs. Ruth McCormick, R. N., whose death took place suddenly on Sunday at Selkirk, Manitoba. Mrs. McCormick was at one time matron of Beach Grove Inn and also nursed in the Montague Hospital. Her son is married to the former Miss Clarice Kelly.

CARD PARTY RESULTS — Results of a card party held in St. Paul's hall Monday evening were: Ladies' first, Margaret Perry; second, Mrs. M.J. Redmond; consolation, Mrs. J. Brown; men's first, J.M. Lee; second, H. A. Hebers; consolation, Mr. J. Chipman. Door prize, Mrs. Mary Gallant. Freezout, Joe Shelton and Mrs. Kelly.

POLICE COURT — Five drunk and incapable appeared before Magistrate K.M. Martin at City Police Court on Tuesday morning and were dealt with as follows: one was fined \$30.00 and costs or 20 days, two were fined \$10.00 and costs or 6 days and the remainder fined \$5.00 and costs or 2 days. A Dominion Government employee, charged with unlawful possession of a postal letter, was remanded, on cash bail of \$200.00 till Saturday morning.

BIRTHS
VANDERSTINE — At the Western Hospital, Edmonton, June 23rd, 1957, to Mr. and Mrs. Carter Vandierstine, Alberta, a son, Allan Carter, 8 lbs.

DEATHS
SIGSWORTH — In the Charlottetown Hospital June 25, 1957, Jeffrey Frederick Sigsworth of Cardigan, aged 80 years. His remains will be transferred from the Hennessey Funeral Home this morning at 10:00 o'clock to his late residence Cardigan from where the funeral will be held on Friday morning to All Saints Church for Requiem High Mass at 10:00 o'clock. Interment in the church cemetery.

MACLEAN — At his home at Coleman on June 17, Mr. Amos MacLean in his 78 year. The funeral was held from his home June 20. Interment was in Millburn Cemetery.

SHAW — At the Prince Edward Island Hospital on Tuesday, June 25th, 1957, Dr. J. Harold Shaw in his 51st year. Resting at the MacLean Funeral Home. Funeral from St. James Presbyterian Church tomorrow, Thursday, commencing at 2:00 o'clock. Interment in the People's Cemetery.

PERSONALS
Friends of Mrs. Harold Court, Donaldson, are sorry to learn that she has returned to the Prince Edward Island Hospital for treatment.

Mr. Robert C. MacDonald and Mr. Roland Cholette of Hardwick, Vermont, are the guests of Mrs. Margaret MacLeod, 24 Chestnut Street.

Restore Oldest Manitoba House
WINNIPEG (CP)—The Winnipeg suburb of West Kildonan has big plans for a big house. The house is on the old four-acre John Inkster estate and the suburban council has appointed a committee to restore it. The committee has \$3,400 to work with. Believed to be the oldest continuously inhabited residence in Manitoba, the house was built in 1851 by John Inkster, who did the masonry. His wife lived there until her death in 1881. A daughter, Mary, occupied it until her death in 1912, after which the property was turned over to the city to use as a park. When the last caretakers moved out, vandals moved in. West Kildonan became owners of the property in 1952 and decided to do something about it. It is planned to make the house into a museum and furnish it as it was in 1851. Some of the original furniture will be returned. Families with heirlooms from the Red River area will contribute to the museum. The estate, known as Seven Oaks Park, will be landscaped into a public park. The nine-room house is made of hewn oak logs.

P. E. I. Protestant Orphanage Annual Report Presented

Thirty consecutive years as chairman of finances of the P.E. I. Protestant Orphanage has been completed by Mrs. H.S. Henderson. The year ended with a total maintenance receipts at an all time high of \$35,271.54 and it was possible to close the books with a small surplus. The annual meeting was held Thursday evening at the office, 138 Prince Street.

W.A. Stewart was re-elected chairman; Mrs. H.S. Henderson, vice-president; and Mrs. W.A. Henry, re-appointed secretary-treasurer.

In the absence of Mr. Stewart his review of the year 1956 was read by Mrs. Henry.

"The Finance Committee, on which we make greater demands each passing year because of the rising cost of food labour and shelter has never failed us," stated the report. This does not happen by chance. The Chairman, Mrs. H.S. Henderson, devotes a portion of her daily life to the task of supervising and promoting a well organized collection effort that reaches every area of Prince Edward Island, and is ably supported there by loyal workers.

"The Endowment Fund continues to flourish. We received several bequests during the year and are confident that kind friends will remember us in the days to come. This fund is carefully invested. We only draw on the interest earnings of it.

The Adoption Committee, with Mrs. W.G. Bruce as Chairman, carried out its tasks in a very creditable manner. The movement of little ones into and out of the Orphanage is a great responsibility, not to be undertaken lightly.

"The Buying Committee, under the Chairmanship of Mr. I.A. Horne has demonstrated a most careful purchasing can produce excellent results.

"In co-operation with the matron and her staff, the Home Committee with Mrs. Arthur Henry as Chairman, has done much to maintain living quarters in keeping with the high standard of former years. Visitors are made welcome in surroundings which could well cause envy in many private homes.

The Property Committee with Major T.E. MacNutt acting as Chairman had another busy year. Our Orphanage building is now quite old and there is need for a constant and fairly extensive maintenance programme.

Instruction in the school under the supervision of Miss Christine MacInnis was efficiently conducted. The Royal Arch Masons, as in previous years, amply provided for our class room needs. I thank them for their continued interest in this connection.

"I express my appreciation too, for the splendid instruction in the field of music provided by Mrs. Lea Morgan and Mr. William Murchison.

"I am very grateful to Dr. J. Tidmarsh, Moreside, Cox, Brown, Lea, Lanix, Laidlaw, MacEachern, O'Keefe, and to the P.E. I. Hospital for voluntary medical treatment and care of the children throughout the year.

"I speak also with humble gratitude of the valuable assistance, received from Masons, Queen Mary groups, Needle Work, Ladies Auxiliary, R.C.A.F. Summerside Kinette Club, Grand Lodge L.O.B.A., the Kinsmen, the Kiwanis, Order of the Eastern Star, I.O.O.F., good neighbours of the Association, the Orange V.M.C.A. church groups, the Clergy, the Summerside and Charlottetown newspapers. I am indeed grateful for their kind and generous support in the field of Child Welfare.

"I thank those who have served on the Trustee Board, the matron, Mrs. Avelida Wright and her staff, the Sec'y treasurer, Mrs. Evelyn Henry, and all persons who in one way or another contributed to the successful completion of another year's service to the little ones entrusted to our care." W.A. STEWART

West Kent Holds Closing

The Junior grades (Grades I, II, III) of West Kent School take part in their final exercises for the school year, Wednesday Mr. Fremont Archer represents the City School Board at this function.

A program of musical numbers brightened the present action of certificates and prizes.

On Thursday morning, June 27th, Grades IV, V and VI have their closing program with Mr. Arthur Wright of the Board of School Trustees on hand to present the certificates and prizes. It is expected that many parents and friends will attend these exercises, music will be under the direction of Miss Ruth Boswell. The programs follow:

PROGRAM
Junior Closing Grades 1, 2, and 3, June 26th 2 p.m.
O Canada, Grades 1, 2 and 3
Remarks by the Chairman, Song— "Robin, Robin Sing for Me", Grades 1, 2 and 3
Rhythm Band, Grade 1
Presentation of Certificates and Prizes to Grade 1: Mrs. Bethune's Class; Mrs. Mutch's Class.
Motion Songs— The Squirrel, Grades 2 and 3; The Milk Man, Grade 1
Presentation of Certificates and Prizes to Grade 2: Miss Ferguson's Class; Miss Riley's Class.
June Time, Grades 2 and 3
Presentation of Certificates and Prizes to Grade 3: Miss Yeo's Class; Miss Taylor's Class.
Rhythm Band, Grades 2 and 3
This is My Father's World
God Save the Queen
Presentations Mr. Fremont Archer, member, City School Board, June 27th 9 a.m.
O Canada
Come to the Fair, Grades 4, 5 and 6
Rhythm Band— "Soldier's March", Grade 4
Pianist-Jean Wright; Presentation of Certificates and Prizes to Grade 4 Mrs. Robertson's Class; Mrs. Hogg's Class
Vocal Solo, Zoe Hyndman
Presentation of Certificates and Prizes to Grade 5: Miss MacLennan's Class; Miss MacLure's Class.
Girl's Chorus; All Through the Night, The Lord's Prayer, Grades 4, 5 and 6
Presentation of Certificates and Prizes to Grade 6: Miss MacNevin's Class; Mr. Hine's Class
Piano Duet, Carol Foster and Meredith Black
The Lord's My Shepherd (Crimond Grades 4, 5 and 6
God Save the Queen
Presentations Mr. Arthur Wright Member, City School Board

N. W. T. Provide Interesting Assignments For Teachers

OTTAWA (CP)—"School" is a big word in the Northwest Territories, with many contrasts in education as the northland itself.

The school system ranges north from the six-classroom school at Fort Smith, where 14 additional classrooms, an auditorium-gymnasium and library are under construction, to a single teacher, single classroom Eskimo school at Resolute on the south shore of Cornwallis Island, well above the Arctic Circle.

The latter, when completed this year, will take over from Tuktoyaktuk the latter's long-held distinction as the most northerly school in Canada and the Commonwealth.

BIG VARIATION
At Fort Smith federal school a teacher is only 12 miles north of the Alberta boundary, and is one of a staff of 21. At Resolute, the teacher now is a young Eskimo girl who spent some time in hospital "outside" some years ago.

The northern affairs department, making public a handbook for northern teachers written by J. V. Jacobson, departmental superintendent of education, says that somewhere between these extremes lie some of the most interesting teaching assignments in the world.

"This is the land of oil lamps and fluorescent lighting," says a departmental release. "It is a land where the three Rs are likely to include resourcefulness, resilience and repair work and a teacher can become handy at hitching up a dog team."

VALUED WORKERS
The department, looking for more northern teachers, says he or she is a most valued member of the northern community where education now is being more widely spread among the Eskimo and the Indian. The work of the teacher is "indispensable to the welfare of the people and the larger development of the north."

The department offers good pay and a bonus called the northern allowance. A teacher with a first class certificate starts in the north class at \$3,100 a year and may get as much as \$5,200 with an extra \$100 a year for each year of university training. The northern allowance, additional to salary, is \$1,500 annually for married teachers, \$900 for single ones.

In the District of Franklin, where settlements are more isolated, northern allowances rise to \$2,100 and \$1,200, respectively.

Cripple Builds Motor Scooter

WINDSOR, Ont., (CP)—Joseph Weston, crippled by arthritis since 1950, has shown his heels to "do-it-yourself" fans by building his own motor scooter.

A former Ford of Canada powerhouse worker, Mr. Weston built his one-seater from parts of two wrecked motorcycles, the sides of a small furnace, an easy chair, a few standard car accessories and household electrical fixtures.

When he suffered the arthritis attack, Mr. Weston refused to be confined to bed so he set out to build his own motor scooter.

The result is a vehicle that cruises up to 15 miles an hour on city streets.

Sitting in a comfortably padded chair, Mr. Weston operated the little car with a single lever control and a couple of wall-type switches. It is powered by a motorcycle engine.

When the last caretakers moved out, vandals moved in. West Kildonan became owners of the property in 1952 and decided to do something about it. It is planned to make the house into a museum and furnish it as it was in 1851. Some of the original furniture will be returned. Families with heirlooms from the Red River area will contribute to the museum. The estate, known as Seven Oaks Park, will be landscaped into a public park. The nine-room house is made of hewn oak logs.

Headboards
(Continued from page 1)
In 1941 he joined the Air Force as AC2 and saw service in North Africa, Sicily, Italy, Corsica and the South of France. He was discharged in 1945 with the rank of flight Lieutenant at which time he entered the service of the P.E.I. potato Growers' Association.

In addition to being an expert of agricultural production, Mr. Reid also has the Charlottetown agency for the Harris-Ferguson farm implements. He is a former director of the Maritime Provinces Board of Trade, a former President of the Charlottetown Board of Trade and is P.E.I. Vice Chairman of the Maritimes Transportation Commission. He is active in all community work and is a member of the Charlottetown Rotary Club, and the Session of Zion Presbyterian Church.

Mr. Reid is married and has two daughters.

SURVIVES FALL
NEW YORK (AP)—A 51-year-old accountant plunged from the 18th floor of a skyscraper in the downtown financial district Monday night and lived. Joseph Klein crashed through a skylight on a second-floor setback. Police said he "jumped or fell" from an office in a 22-story building just south of Wall Street. Klein was reported in critical condition in hospital.

ALASKAN FIRES
ANCHORAGE Alaska (CP)—An estimated 500,000 acres of forest land in the interior of Alaska is in flames, district fire dispatcher, Russ Hanson said Monday. He said no relief is in sight yet, dry weather and high winds continue to fan the flames.

RECEIVES PH.D.

MADISON, Wis. — Dean B. Robinson, Route 3, Charlottetown, was awarded the Doctor of Philosophy degree at the University of Wisconsin's annual commencement late Friday afternoon, June 21, at the University.

He is employed at the Experimental Farm Charlottetown and is at present attending a convention in Vancouver. Some 2,400 students filed across the platform to receive diplomas. Bachelor degrees were awarded to 1,700 students, while some 700 men and women received higher degrees.

Plan Alberta-U. S. Pipeline

BY FORBES RHUDE
Canadian Press Business Editor
JASPER, Alta. (CP)—Plans for a new 30-inch natural gas pipeline from the Savanna Creek field of Southwestern Alberta to the United States northwest, were outlined Monday by Frank M. McMahon, president of Westcoast Transmission Co. Ltd., to the annual meeting of the Canadian Gas Association.

The line would run from Savanna Creek to the international boundary between Eastern British Columbia and Idaho—a distance of about 125 miles—and would then join an extension of the Pacific Northwest Pipeline Corporation would build from Spokane, Wash. Permission from three government bodies is required—from the Alberta petroleum and natural gas conservation board, the Canadian board of transport commissioners and the federal power commission of the United States.

Mr. McMahon said he expects that authorizations will be granted and that at least a part of the program can be completed next year.

SECOND LINK
The Savanna Creek line would give Westcoast Transmission its second link with Pacific Northwest.

This year—probably by September—it will complete its 650-mile 30-inch pipe line from the Peace River area to Vancouver and to the international border. It will deliver gas to Pacific Northwest.

Through Pacific Northwest, Westcoast ties into a vast United States pipe line system.

In regard to Westcoast's Peace River-Pacific coast line, Mr. McMahon said that even before its completion, plans are proceeding to more than double the amount of gas it was originally expected to put through it.

ADDITIONAL GAS
Westcoast had contracted to supply an additional 400,000 cubic feet per day to British Columbia and Pacific Northwest pipeline "due to demands far exceeding original estimates."

Since November Westcoast had been receiving gas from Pacific Northwest to feed into Vancouver and as a result of last winter's experience, it now has clear that much larger volumes of gas would be required for the British Columbia lower mainland.

The pipeline from the Peace River area runs southerly through British Columbia and, through its completion, is available to numerous communities and to about 65 per cent of the province's population.

N. E. Tanner, chairman of Trans-Canada Pipe Lines Ltd., which is now constructing the world's longest pipe line from Alberta to Montreal, said three contracts have been let on the Toronto-Montreal portion and work will start there next month.

On other portions of the line four "spreads"—involving about 1,000 men—were laying the line between Regina and Winnipeg and one "spread" was working between Winnipeg and Manitoba's eastern boundary, while four "spreads" were working on the section to Port Arthur.

Mr. Tanner said new industries have been announced or are being studied for Regina, Brandon, Portage la Prairie, Winnipeg, Kenora and Port Arthur as a result of natural gas being made available.

Suggest Maritime M.P.'s Meet With APEC Officials

HALIFAX (CP)—Executive officers of the Maritime Provinces Board of Trade today called on Maritime members of Parliament to get some tips from the APEC Provinces Economic Council on how they can better serve the Maritimes at Ottawa.

They presented a resolution to the board's annual meeting here urging APEC to invite the 33 Atlantic area MPs to a meeting. There they could "discuss ways in which the members... can collectively aid in the advancement of the economy of the Atlantic region."

APEC officers also urged local trade boards to see that their local members attend such a meeting.

The board elected E. D. Reid of Charlottetown president for 1957-58. Vice-presidents are L. G. Desbrisay, Moncton; Brigadier A. R. Roy, Mahone Bay, N.S.; John Wright, Summerside, Nfld. and Leo Bruce, St. John's.

The caravan chamber of commerce presented a resolution calling for a uniform system of municipal assessment in New Brunswick.

BREADALBANE

Rev. and Mrs. Harold S. Raynor motored to the mainland on Monday, June 10, when Mr. Raynor attended the United Church Conference at Sackville. Mrs. Raynor visited relatives in Sydney, Cape Breton.

Mr. and Mrs. Paul Richardson, New Glasgow, visited friends in Breadalbane on Friday, June 4th. Misses Eleanor and Jurie to Murray, who have completed their sophomore year in Alberta Bible College, Calgary, are presently vacationing at their home in Breadalbane.

Mr. and Mrs. Paul LaVore, Carleton, were visitors at the home of Mr. and Mrs. Pomroy Murray on Tuesday, June 4th.

Miss Muriel Haslam and relatives in Newmarket, Toronto, Ridgeway and Harrow, Ontario, for the past three months, returned to her home in Springfield on Tuesday, June 4.

Oceans Could Rise 200 Feet If The Ice Caps Melted Away

NEW YORK (AP)—Glacial ice hides 10 per cent of all the earth's land. If it all melts, oceans will rise 65 to 200 feet or more, drowning London, New York, Singapore, and huge areas of coastlines.

Can it happen? Are icecaps standing steady? Where are we in respect to repeated great ice ages of the past?

Search for better answers to these questions is one phase of the International Geophysical Year. Scientists from 20 countries will make a worldwide census of glaciers and snowfields, and measure great ice sheets covering Antarctica and Greenland.

ONE SURPRISE
IGY has already turned up one surprise in Marie Byrd Land, east of Little America in Antarctica. U.S. scientists discovered the ice cap there is nearly two miles thick. Yet, standing atop this ice, they were only 5,000 feet above sea level. The rocky land mass below lies nearly a mile below sea level.

Marie Byrd Land was once thought to be part of the continental land mass. Sheer weight of all this ice could have pushed the land down considerably, but not that much. Perhaps this area is part of a string of islands which thrust up high mountains along the coast.

This finding—made by shooting sound waves down through the ice and timing their echoes—indicates there may be far more ice in Antarctica than had been thought.

86 PER CENT
Estimates are that 86 per cent of all the world's ice is in Antarctica.

Scientists floating on ice islands in the Arctic Ocean will try to learn whether the icecap there is growing or shrinking.

Britons will be busy with glacier research in the high mountains of Kenya and Uganda. Danish, German, French and Swiss scientists will check on inland glaciers and their effects on climate.

By sharing all facts learned, scientists hope to learn what happened in the past to produce ice ages—ice sheets once covered a third of the earth's whole land mass—and what may be coming. **THREE-QUARTERS OF GLOBE**
Water in unfrozen form—in the oceans—covers nearly three-fourths of our globe, and events in the seas vitally affect our weather and welfare.

But there are perplexing unknowns about the oceans, and oceanographers of 18 nations will go seeking the answers.

Oceanographers have plotted many long voyages.

Dozens of special stations on islands and along coastlines of participating nations will make sensitive measurements of changes in tides, waves and sea level. Sea level is usually higher in summer and autumn than in winter and spring. Movement of masses of water among oceans could be a reason.

Using echo-sounders, some ships will draw maps of the unseen but spectacular ocean bottoms, cut by canyons, jugged with mountain ranges.

Attention Truck Owners

All 1957 truck registrations, prefixed by the letter X, expire at midnight 30th June 1957. Monday, July 1st, 1957 being a statutory holiday, arrangements for a regular registration should be made prior to 5 p.m. Friday 28th June 57.

J. A. GALLANT,
Registrar of Motor Vehicles.
