THAT'S GOOD.—An interesting part of the programme of Arrah-na-Pogue by the Halifax Amateur Dramatic Club on Tuesday evening, the 26th inst., in the Opera House here, will be the specialties introduced. These include songs, clog dancing by two experts, lady and gentleman, and some Dutch jigs. The bride and groom in the wedding scene drive on the stage with a pony and phaeton. Secure your tickets at once, they are selling fast.

THE DEVIL'S CHAIN.—The Rev. William Lawson, G. C. T. of the I. O. G. T, delivered a very excellent lecture last night in the Upper Methodist Church on the "Devil's Chain." The Rev. W. J. Kirby presided and introduced the lecturer. The rev. gentleman commenced his lecture by referring to the origin of the title. Reference was made to the book written some years ago by the English statesman, which bore the same title as the lecture, but he had taken the title from the ancient legend of the king who ordered a blacksmith to make a chain with which, on the order of the king, he was afterwards bound and imprisoned. From this illustration he worked out the chain of habits which eventually bind men to a life of intemperance and sin. The lecture was illustrated by chalk charts and well told incidents, showing the first step is the end of a life of drunkenness. He drew some excellent lessons as he proceeded and concluded by asking and answering the question, "How can we stop this great evil?" L. U. Fowler, W. D. G. C. T., moved a vote of thanks to the lecturer, and said he wished the lecture could be repeated in every section of the Island. J. T. Mellish, Esq., seconded the motion in a neat speech and it was carried unanimously by the audience. After the Doxology and Benediction the congregation dispersed well satisfied with the lecture.

"ENGLAND BE BLOWED."

"The manifesto of Sir Charles Tupper savors of Imperialism. There is the fast Atlantic service, to cost $750,000; the policy of rifles and fortifications, $3,000,000; and the trans-Pacific cable, which will cost millions.

"What is there in all this that is of interest to Canada?

"England has an interest in uniting Australia and Canada by cable, in garnishing our frontiers and our ports with fortifications, and in having rapid steamers between Quebec and Liverpool.

"In case of war with other nations England will find these very convenient and very useful.

"Have good sense and patriotism.

"Work for Canada and for the well-being of her population before sacrificing our efforts for the glorification of England.

WHY THEY ENDORSE HIM

"You are the natural shipping port, especially in winter, for very large sections of our territory. You lie within very easy distance of our chief cities and of the most populous portions of our Dominion In one word, given free trade with Canada and you rise, at one stride, from the position in some respects of a frontier city with no great extent of trade territory assured to you to that of a central entrepot with the practical monopoly of a great region behind you, whose commerce no man can take away from you."—Sir Richard at Boston.

"The Little Finger Does It."

CITY COUNCIL MEETING.

Rates of Taxation Fixed—The Breastwork at Richmond Street West.

A special meeting of the City Council was held last evening, which was attended by every member of the Board. The meeting was called to pass several by-laws and to receive the report of the Street Committee regarding the connecting by a breastwork of Richmond and West Streets.

On motion of Councillor Johnson, the by-law adding to the by-law for sanitary purposes was read a third time and passed. It was ordered that said by-law be published for two weeks in THE EXAMINER and Patriot newspapers.

On motion of Councillor Nicholson the by-laws specifying the rates of assessment for general civic and waterworks purposes were each read a second time, and set down for third reading at next meeting of Council. The rate of assessment on real estate for general civic purposes was fixed at one per cent; and on personal property for the same purpose a similar rate was fixed. The rates of assessment for waterworks purposes were fixed at one-eighth of one per cent each on real estate and personal property, and ten cents on polls.

On motion of Councillor Nicholson the by-law allowing a rate of discount on taxes was read a second time, and set down for third reading at next meeting of Council. The by law provides for allowing a discount of 2½ per cent on taxes paid before the 15th July.

Councillor Hughes, chairman of the street committee, presented a report concerning the connecting of Richmond and West Streets, and a plan of the work. According to the plan the work would cost $408.40.

After some discussion Councillor Taylor moved the following resolution which was seconded by Councillor McCarron:—

Resolved, That tenders be called for filling in and connecting Richmond and West streets and putting a breastwork across connecting Mr. Purdie's and Mr. L. H. Davies' breastworks according to the plan or some other plan that may be provided.

Councillor Horne moved in amendment, seconded by Councillor McCarron,—

Resolved, That the report of the Street Committee regarding the extension of Richmond street west stand over until next regular meeting of Council.

Councillors Horne, McCarron, Hughes and Johnson supported the amendment, and Councillors Nicholson, Taylor, Douse and Hooper voted against it. The Mayor gave his casting vote against holding over the report.

A vote was then taken on Councillor Taylor's motion calling for tenders, and there appeared for the motion, Councillors Taylor, Nicholson, Douse and Hooper, and against it, Councillors Horne, McCarron, Hughes and Johnson. Mayor Dawson gave his casting vote against the resolution, explaining that it was not the Mayor's place to give his casting vote in favor of the expenditure of public money.

Council then adjourned until half-past seven o'clock this evening, when the assessment bylaws will be passed and the estimates of revenue and expenditure submitted for approval. The estimates are as follows:—

RESOLUTION OF CONDOLENCE TO MRS. JOSEPH HURRY.

At a meeting of Court Charlottetown, No. 516, C. O. F., held on the evening of the 8th of May, 1896, the following resolution was placed on record:—

Whereas, It has pleased the Almighty in His all wise Providence, to remove from our midst, Bro. Jos. Hurry, one of the charter members of this Court.

Resolved, That, as a Court, we desire to place on record our esteem for our deceased Brother, and to express to the beloved widow and family, our heartfelt sympathy for them in the great loss they have sustained. It has seldom been the lot of the members of our Courts to wait upon a death bed when the sufferer exhibited such Christian resignation and fortitude in anticipation of his final departure.

Further Resolved, That a copy of this resolution be forwarded the widow of our deceased Brother.

Signed on behalf of the Lodge.

NEWS NOTES.

French trade returns show an increase both in exports and imports for the months lately closed. France is in the swim with Great Britain, Canada and the other leading commercial countries.

According to the official returns, the French customs receipts for the first four months of 1896 show increases of imports to the amount of 167,000,000 francs, and exports to the sum of 83,000,000 francs, as compared with the same period of 1895.

Business men in the United States are now in fear of the effect on their affairs of the money planks adopted by the party National Conventions which meet within the next two months. At the time of the last Presidential election, the commercial interests were worried over the prospective changes of the tariff. Ill-informed theorists in politics seem to be a menace to business everywhere. Our Liberals are exhibiting the fact to Canada just now.

A despatch from Havana to Imparchial says the government troops in Cuba are being reorganized, but none of them can be spared to conduct operations against the rebels in the interior of the Province of Pinar del Rio, because of the risk the towns will be in of being burned by the insurgents if the garrison is withdrawn. Twenty additional battalions of reinforcements for the Spaniards are urgently needed. The despatch further says the volunteers now in the field are absolutely useless. The fact that many expeditions in aid of the Cubans were successful in landing in Cuba during April is suppressed by the government. The insurgents are well supplied with munitions of war. In the recent interview with a press representative the despatch adds, Captain General Weyler was very reserved in his expressions. From what he did say the reporter gathered he regretted he had not shot the competitor prisoners, especially the Cubans, for indulging in derisive remarks in the presence of the court before which they were arraigned.

DIED.

At Bay Fortune, on March 28th, of consumption, John R. Coffin, aged 52 years, leaving a sorrowing widow, four sons and five daughters to mourn their sad loss.

A precious one from us has gone,
A voice we loved is stilled,
A place is vacant in our home
Which never can be filled.

God in His wisdom has recalled
The boon His love has given;
And though the body moulders here
The soul is safe in heaven.
