Quebec Kinsmen To Entertain French Airmen

QUEBEC, April 11 - (CP)—The Quebec Kinsmen Club will be host to 26 French air force navigational students during a two-day visit here next week-end, a club official said tonight.

The flyers, stationed at Summerside, P.E.I., will arrive Friday afternoon on an R.C.A.F. transport plane, accompanied by two officers, and will leave Sunday. Jean-Paul Gallipeault, president of the Kinsmen Club, said the French flyers will be lodged in members' homes here. He said the visit was suggested by Summerside Kinsmen.

Entertainment will include a dance, a tour of the city, a reception at the Royal 22nd Regiment's citadel mess and free time Saturday night and Sunday.

To Observe 10th Anniversary Of Air Cadet League

The Air Cadet League of Canada will celebrate its tenth anniversary during national Air Cadet Week April 15 to 22nd, and Charlottetown and Summerside squadrons will participate in the observance, it was announced last evening by Mr. Roy Johnston, Summerside, provincial chairman of the Air Cadet League. There are now more than 200 squadrons across Canada and under the current 50 percent expansion campaign it is planned to boost the number of air cadets training to 22,500, he said.

Mr. Johnston said that both the provincial committee and the local sponsoring committees will be making appeals to the citizens for funds to help out the work during this week. Both No. 60 Squadron in Charlottetown and No. 53 in Summerside will be at home to their parents and friends on drill nights. Charlottetown squadron meets at Prince of Wales College on Thursday evenings and Summerside squadron has its weekly parade at the High School on Friday evenings.

At present there is a total enrollment in the two squadrons of 98 cadets and it is hoped by next September to build this up to 150. The present enrollment is a substantial increase over that at the start of the cadet year.

F/L Gordon Raynor is the officer commanding Charlottetown squadron and F/L Murray Shanks is the O. C. of Summerside squadron. Both units are sponsored by the wings of the R. C. A. F. Association in the two centres.

Maritime provinces air cadet squadrons have, for the past several years, attended annual camp at R.C.A.F. Station, Summerside. This has meant that the Island boys have not had much of a trip and the Summerside boys did not get away from home at all. It is understood that this year the annual camp will be at Greenwood air station in Nova Scotia which should be interesting to local cadets. - S

FEARED GENERAL

achieved through a settlement based on the following factors: "One: The fighting must stop. "Two: Concrete steps must be taken to ensure that the fighting shall not break out again. "Three: There must be an end to the aggression."

While declaring that the limited war in Korea will be carried on with "vigor and determination" and without appeasement, he offered the Communists peace if they want it on acceptable terms.

And he said: "Defeat of aggression in Korea may be the turning point in the world's search for a practical way of achieving peace and security."

He added: "A settlement founded upon these elements would open the way for the unification of Korea and the withdrawal of all foreign forces."

Believes Course Best He said he removed MacArthur with the "deepest regret" but added that "the cause of world peace is more important than any individual."

"I have thought long and hard about this question of extending the war in Korea," he said. "I have discussed it many times with the ablest military advisers in the country. I believe with all my heart that the course we are following is the best course."

Truman said the word "liberation" was Communist double talk for "conquest". The President also quoted an intelligence report which he said described what another Communist officer in the Far East told his men several months before the Korean invasion:

"In order to successfully undertake the long-awaited world revolution, we must first unify Asia... Java, Indo-China, Malaya, India, Tibet, Thailand, Philippines, and Japan are our ultimate targets..."

"The U.S. is the only obstacle on our road for the liberation of all countries in Southeast Asia. In other words, we must unify the people of Asia and crush the U.S."

Quotes Secret Reports The President quoted from secret Communist intelligence reports to show that the attack on South Korea was part of a "greater plan for conquering all Asia."

Referring to the secret intelligence reports, he said a Communist army officer made the following statement to a group of spies and saboteurs last May, one month before the South Korean invasion:

"Our forces are scheduled to attack South Korea forces about the middle of June. The coming attack on South Korea marks the first step toward the liberation of Asia."

course we are following is the best course. "I believe that we must try to limit the war to Korea for these vital reasons: to make sure that the precious lives of our fighting men are not wasted; to see that the security of our country and the free world is not needlessly jeopardized; and to prevent a third world war. "A number of events have made it evident that General MacArthur did not agree with that policy. I have therefore considered it essential to relieve General MacArthur so that there would be no doubt or confusion as to the real purpose and aim of our policy."

Does No Seek Land Speed Record LONDON, April 11—(AP)—Lt. Col. A. T. (Goldie) Gardner said today there is no foundation in fact for the announcement he plans to go to the Bonneville (Utah) salt flats in an attempt to set an automobile speed record.

The announcement that the Briton probably would try to break John Cobb's one-mile record of 394.196 miles an hour was made Tuesday in Salt Lake City. "I am planning a project of my own which probably will take me to America," Gardner said, "but so far nothing has been worked out."
