THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr.
Colwell of Bright's Disease.

Windsor, July 11.—"It is true, Mr.
Colwell, that you have been cured of
Bright's Disease by Dodd's Kidney Pills?
our reporter asked Mr. R. F. Colwell,
jeweller, of No. 9 Oulette St., to day.

"It is indeed," was the answer. I
suffered two years with Bright's Disease. My
back ached all the time, I had awful, ach-
ing pains in my loins, a puffness under my
eyes, and my urine was very dark colored.

For a time I could find no remedy to do
me any good. But one day a friend told
me he had been cured of the same disease
by Dodd's Kidney Pills. I bought a sup-
ply. A few boxes cured me thoroughly."
Dodd's Kidney Pills cure all kidney com-
plaints.

H. H. HARVEY, Agent

Timidity and Greatness.

M. Dugas, a Frenchman, has written
an extremely interesting book on "Ti-
midity." He finds that the vast majority
of people are timid in their youth. A
considerable minority remain timid all
their lives. Timidity leads to medita-
tion and analysis. It enters into the
temperament of the philosopher and man
of science. Per contra, a thoroughly
stupid man is seldom timid.

Virgil, Horace, Benjamin Constant,
Michelet and Amiel were all notably
timid men. M. Dugas notes that in the
intellectual man you are apt to find
great speculative hardihood combined
with a practical timidity. Carlyle's is
the typical case. The mere thought of
having to order a coat or buy a pair of
gloves caused him the most acute dis-
comfort.

In its extreme type timidity ap-
proaches the malady of the will which
the medical dictionaries call agoraphobia
—the dread of the crowd, of the gaze of
other people. All public speakers have
known this feeling—even, it is said, the
brazen M. Rochefort. Cicero, used as he
was to the rostrum, was prevented by
"blue funk" from delivering his "Milo-
nian" speech. M. Sarcey, who has
lectured every week for 20 years, says
he has never been able to conquer his
timidity. Paillet, a famous Parisian ad-
vocate, was so nervous that he used to
say he half hoped some accident would
happen to him in the street on his way
to the court, so that he might be pre-
vented from appearing. Veteran actors
when they are worth their salt, seldom
get over their "stage fright."

FOR SALE.—Sloop yacht Abegweit fast,
sailor, newly painted and overhauled this
spring.—A W Weeks, Charlottetown,

Heating Capacity of Wood.

A writer in Die Staats Zeitung cor-
rects a very common supposition in re-
gard to the heating capacity of wood,
the most notable fact in the case being
that such a practical and easily demon-
strable error should so long have pre-
vailed—namely, that the heating ca-
pacity of hard wood is greater than that
of soft wood. The fact, as ascertained
by repeated determinations, is that the
greatest heating power is possessed by
one of the softest varieties of such ma-
terial—viz, the linden. Taking its heat-
ing capacity for the unit, the second
best heater is also a soft wood—fir, with
.99 heating power; next follow the
elm and the pine, with .98; willow,
chestnut and larch, with .97; maple
and spruce fir, with .96; black poplar,
with .95; alder and white birch, with
.94 only. Then come the hard oak,
with .92; the locust and the white
beech, with .91, and the red beech,
with .90. These examples leave no
doubt of the general fact that hard
wood heats the least.

Doctors Testify

There's strong testimony by eminent phy-
sicians of wonderful cures made by Dr.
Chase's Family Remedies—particularly Dr.
Chase's Ointment.

In round numbers there are 2,500
journals in Paris. One hundred and
seventy of these are political organs,
over 100 each are fashion papers and il-
lustrated journals, some 120 medical
papers, over 200 financial papers and
about 60 dealing with the turf and other
branches of sport.

The marriage of a Japanese bride is
not complete until she bathes the feet
of the bridegroom.

Toronto Firemen Testify

M. McCartney, Lombard Street, Fire Hall,
Toronto dated March 4th, 1887, states: "I am
subject to very painful conditions of consti-
pation and other troubles, resulting therefrom,
but I am glad to say that I have found a per-
fect remedy in Dr. Chase's Kidney-Liver
Pills. I trust this may be benefit to others."

Gunpowder Explosion.

The actual chemical result of the ex-
plosion of a charge of gunpowder cannot
be told with accuracy.

The general idea of what happens is
that when the temperature of the ignit-
ing agent reaches 482 degrees F. the
sulphur bursts into flame; the saltpeter,
acted upon by the heat, frees the oxygen
with which it is highly charged, and,
combining with the charcoal, forms car-
bonic acid and oxide, while the nitrogen
is liberated.

The products of combustion are ap-
proximately 57 per cent of solid matter
and 43 per cent of permanent gases.—
New York Sun.

Strategy.

Mr. Chamberlain when a little boy
was playing one day with his sister at
a game of "battle," each child having
a regiment of toy soldiers and a popgun
to fire at the enemy.

The little girl's soldiers went down
very quickly, but his stood firm, and he
was proclaimed the victor.

He had glued his men to the floor!—
London Figaro.
