MONTREAL (CP) — The U.S. dollar Thursday closed at a discount of 1 11-16 per cent in terms of Canadian funds, down 1-16. Pound sterling $2.76½, down ¼.

TORONTO

TORONTO (CP)—What started out as a full - scale advance Thursday fizzled in late - afternoon trading and the stock market recorded a moderate gain. But it was the third straight rise and ninth in 12 sessions.

Prices surged ahead at the opening, following Wall Street which was active and strong following the overnight news that margin requirements on United States exchanges had been reduced 20 per cent to 50 per cent.

The rise here was mainly a follow-the-leader one in which the stocks listed both here and on Wall Street set the pattern. Trading was the heaviest in more than two months and a portion of it was from the U.S.

Base metals and western oils also closed below their index-highs for the day with gains of one-quarter and one - half of a point, respectively.

Mines and western oils were stronger in the first half of the session than the last half and at the close many of the early winners were unchanged or a shade lower. But gains held a majority, although they were narrow.

Index gains: golds .47 to 72.09; base metals .33 to 148.63; western oils .51 to 144.75.
