DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto: Market lower; extremely heavy trading.

New York: Market lower; active trading.

Montreal: Market lower; moderate to active trading.

CURRENCIES

MONTREAL (CP) — United States dollar in terms of Canadian funds was unchanged at $1.07 9-32.

Pound sterling was up ½ at $2.99.

NEW YORK

NEW YORK (AP)—The stock market took a moderate loss Monday in advance of news that the federal reserve board had stiffened the discount rate following a raise in the British bank rate.

Volume settled down to 4,860,000 shares on the New York Stock Exchange from 5,220,000 in Friday's rising market.

News that the discount rate had been increased to four per cent from 3½ per cent came after the close of stock market trading in New York.

Wall Street generally expected that the basis rate would be increased, because trading began with news already out that the British bank rate had been boosted to seven per cent from five.

The Dow Jones industrial average declined 1.43 to 889.29.

It was an irregular market decline, with a number of key stocks bucking the downtrend.

The Associated Press average of 60 stocks declined .9 to 331.7.

A loss of 3¼ by du Pont was a major depressant to the averages but this was partially countered by Union Carbide's advance of 2½.

AIRLINES LOWER

Airlines were upset by the crash of a TWA jetliner at Rome.

TWA fell 1⅜ and Eastern Airlines 1½.

Westinghouse Electric rose to the top of the most-active list as it gained ¾ at 45½ on 86,700 shares.

Among Canadian issues Dome Mines gained ¾. Canadian Pacific lost ⅝, Distillers Seagrams, International Nickel and Aluminium Ltd. each ½, Granby Mining ⅜ and Walker Gooderham ⅛.

Prices were mostly lower on the American Stock Exchange. Brazilian Traction, Canadian Javelin, Fargo Oil and Jupiter Corp. added ⅛. Scurry Rainbow Oil lost ½. Molybdenite and Preston each 1-16.

MONTREAL

MONTREAL (CP) — Papers and industrials led the decline Monday as all major sections registered losses in moderate industrial trade on the Montreal and Canadian Stock Exchanges.

Trading was active in speculative mines with a turnover of 1,131,400 shares. Industrial volume was 222,600 shares.

The composite index dropped off a point to 158.1 as declines outnumbered advances 112 to 72.

Papers were the heaviest hit, losing 2.7 on index to 135.3. Great Lakes fell ⅞ to 25⅝, MacMillan, Bloedel and Powell River ¾ to 32¾, Price Bros. ½ to 42½ and Abitibi and Consolidated ⅜ each to 13⅜ and 39⅞. Domtar was up ⅛ at 21⅝.

The paper index has been losing steadily since last week's announcement by MacMillan of a $10 decrease in its basic price for newsprint.

The industrial index lost a point to 163.6. Dominion Textile lost ¾ to 31½.

Utilities were off 0.9 on index to 149.9. Quebec Telephone and Trans-Canada Pipe line highlighted the decline falling a point each to 26 and 19⅞.

Quebec Natural Gas was up ⅜ to 10¾ and Maritime Telephone ¼ to 21¾.

Banks were down 0.3 on index to 134.3. Nova Scotia, Banque Canadienne Nationale and Royal dropped ½ each. Banque Provinciale picked up ⅛ to 56.

Speculative mines were lower. Alscope lost 35 cents to $1.05. Chipman Lake added three cents to 26 cents.

TORONTO

TORONTO (CP)—After three relatively normal months, the floor of the Toronto Stock Exchange Monday resembled a mad house as traders screamed their way through the eighth busiest day of the year.

Speculative mining issues took off—for the second time this year—and 12,330,000 shares crossed the tape, the best trading pace since April 23, right in the midst of the Timmins, Ont., copper rush in which Windfall played such a large roll.

Strangely, the stocks most in demand also have properties near Timmins, but the attraction this time is nickel.

McWatters sparked the boom, and led it. The company says it has encountered mineralization in a drill core from the 145-foot level to the 440-foot level on its Langmuir Township property. Assays on the first 135 feet showed 1.11 per cent nickel.

The opening of McWatters was delayed for almost an hour as exchange officials scrambled to match buy and sell orders. The stock finally opened at $1.90, climbed to a high of $2 and sold as low as $1.61. It closed at $1.64 with a 31 cent gain after churning through a whopping 2,700,000 shares.

STOCKS TRADE HEAVILY

With McWatters moving, speculators leapt in to other issues. A total of 14 stocks traded 100,000 shares or more.

Quebec Manitou was ahead 25½ cents at 48 and was the second most active issue as 990,058 shares changed hands. Texmont added 23 to 67 cents, Urban Quebec eight to 34 cents, Norlex three to 22½ cents and Jaye 7½ to 25½ cents.

While buyers outnumbered sellers, there was some profit taking late in the day as most issues were below their best at the close. Cadamet, which traded more than 500,000 shares was off two at 17 cents and Consolidated Negus 3½ at 22½ cents.

Meanwhile, industrials sagged as paper issues were lower. Price eased ¾ to 42¾, Great Lakes 1⅛ to 25⅜ and MacMillan Bloedel ½ to 33.

In base metals, Falconbridge eased ½ to 88¼.

Golds were higher.

On index, industrials were down 1.23 to 167.30, base metals .31 to 72.65, western oils .84 to 96.16 and the exchange index 1.10 to 156.32. Golds were ahead 1.64 to 152.40.

No Membership No Ban Talks, China Declares

TOKYO (AP) — China has reaffirmed its refusal to take part in any United Nations - sponsored discussion to ban nuclear weapons as long as it is denied membership in the world organization.

An editorial in the official Communist Chinese party newspaper Peking Peoples Daily said:

"Apparently with some ulterior motive, the United States has said it is not opposed to Communist China's participation in the 18-nation disarmament talks at Geneva.

"But these talks are being held under the auspices of the United Nations. . . . We will have no part of them until the Chinese Peoples Republic is accorded its rightful place in the United Nations."

The official organ also said China "has made it clear it will never be the first to use nuclear weapons."

Air Density And Radiation To Be Probed

LOS ANGELES (AP) — Two small orbital vehicles designed to measure space radiation and air density were shot aloft from Vandenberg Air Force Base in the nose of a four-stage solid-fuel Scout rocket.

U.S. space agency officials said plans called for a 12-foot diameter balloon to be inflated in orbit after ejection from a cannister. By measuring tiny changes in the balloon's orbit due to drag caused by scattered molecules of air, scientists hope to determine density of the upper atmosphere.

The cannister is carried in a spacecraft called Injun Explorer, designed to record radiation encountered along the orbital path. Scientists plan to compare this with action of the balloon to determine relationship between air density and intensity of radiation.

what is red and black with white stripes, and pulls a ton for a few cents a mile?

A CN diesel locomotive . . . pulling power for the most efficient form of transportation on earth.
Here are just a few reasons why it's so good at moving goods:
(1) It's got the right of way all the way. (2) It's weatherproof. Neither fog nor snow nor rain can stop it.
(3) Five men keep a 100-car train rolling.
(4) Steel wheels glide on steel rails with hardly more friction than ball bearings.
There are many more reasons. But these should explain why a diesel locomotive can pull a ton for just a few cents a mile.
True - not all of CN's 225,000 tons of shipping a day travels so inexpensively. Elephants don't, for example.
But, for almost anything you can think of, shipping by CN is the fastest way to save money.
Anywhere along CN's 25,000 miles of track.
'Most anywhere in Canada's 10 provinces.
Put your shipping on the rails. Ship CN and save!
