

ELIAS KAYS

## Six Kays Brothers Share Roles In Wholesale Firm

Six of the seven sons of Elias Kays are the principal shareholders in the firm of Kays Brothers Limited.

Paul Kays is president and manager while George is vice-president and Gabriel, secretary treasurer.

Other brothers are James, Emmanuel and Louis. Paul and George are both widely known on the island not only for their roles in the wholesale drug business but also for their endeavours in the field of athletics.

### Father Proud Of Seven Sons

The proud father of seven sons and one daughter is Elias Kays of Upper Queen Street in Charlottetown.

Mr. Kays helped his sons get their start in the wholesale drug business by purchasing the Keefe Drug Company in association with his son Paul in 1949.

He watched the firm managed by Paul grow into a successful business and it was with great satisfaction that he saw the firm of Kays Brothers Limited incorporated this year with six of his sons as principal shareholders.

Mr. Kays is not playing an active role in the new business but is happy in the knowledge he helped make it all possible.

A native of Lebanon, Mr. Kays came to this country in 1913 as a young man of about 20. He spent 3 1/2 years as a salesman before going into the grocery business with his brother Frank in 1916.

The two men opened two stores, one on Upper Queen and the other on Hillsboro Street.

to holding the office of president of the Charlottetown Tennis Club for several years, he was a member of the board of directors of the YMCA and also the board of directors of the Protestant Welfare Bureau. At present he is a member of the Charlottetown Board of Trade.

Active in the affairs of St. Peter's Church he was a member of the vestry for many years and was also a warden of the church. At present he is church Sacristan.

He is married to the former Mary Haddad of Westville, N.S. and the couple has three children ranging in age from one to three.

**LEADING BOWLER**  
The principal field of athletic endeavour for George has been bowling and in this field he is widely known throughout the Maritimes. He was a member of the Keefe Drug bowling team and a leading figure in the outstanding success enjoyed by the team as it won the Maritime bowling title in six of the last seven years.

George is also an ardent curler and golfer.

He is a warden and a member of the vestry of St. Peter's Church.

Although still a bachelor he won't be for much longer as he is scheduled to be married to Georgette Dow on the 21st of this month.

Gabriel, better known to Islanders as "Babe", the youngest of the three brothers, is a

member of several local social clubs and is married to the former Violette Moore of Abney. They have three children, two girls and a boy.

### Indonesia Put On War Footing

JAKARTA (AP) — President Sukarno has ordered most of Indonesia placed on a war footing, giving him authority over the rights and property of the majority of his 96,000,000 people.

Sukarno's move strengthens his hold on his sprawling archipelago, which is reported preparing to fight The Netherlands for the disputed territory of West New Guinea.

Under the state of war, which will come into effect in most regions May 20, the government has the right to mobilize the population and militarize public gatherings and jail persons suspected of endangering the national security.

The guitar was played in Spain as early as the 12th century.

### Forced Labor Is Regretted

GENEVA (Reuters) — An International Labor Organization survey published here notes "with regret" the recent setting up of forced labor services in seven former French West African colonial territories.

The survey, by a committee of 16 experts under Sir Ramaswami Mudaliar of India, will be discussed at the international labor conference here in June.

The report named Chad, Gabon, Ivory Coast, the Congo Republic, the Malagasy Republic, Mali and Senegal as countries where compulsory labor services had been instituted for economic development.

The countries in question were bound under the 1930 forced labor convention to "suppress the use of forced or compulsory labor in all its forms within the shortest possible period."

**Carleton U Tightens Up On Entrance**

OTTAWA (CP) — Expecting too many students for too little space, Carleton University Mon-

day boosted admission requirements for the 1962-63 term.

President A. D. Dunton said in a statement the basic requirement for first-year students has been raised to 60 per cent senior matriculation average from 55 per cent.

Last year's enrolment was 1,600, an increase of 35 per cent over the previous year.

A new arts building and an addition to the science building are being added to the campus, but official said the university won't be able to handle any more than 2,100 students in the coming scholastic year.

**HEAVIER TRAFFIC**

OSLO, Norway (AP) — This capital city had 93,000 registered motor vehicles last year, an increase of 11,200 over 1960. It also had more traffic accidents, the total of 3,639 being a 30-per-cent increase.

### Adjustment Need Is Seen

CHICAGO (AP)—A Canadian dentist said here that governments have intervened in the health professions only when "public pressures could no longer be ignored."

Dr. Don W. Gullett of Toronto, secretary of the Canadian Dental Association, added, however, that the intangible patients seek from a good health service "are missing in government-controlled plans."

He said dentists, along with members of other health professions, must adjust themselves to a rapidly changing society in which "the availability of service, the type of service, and the position of the person rendering the service are all involved."
