IMPROVED.—Mrs. Katie McKenna, Victoria Cross, has received a cable stating that her son Pte. William E. McKenna is officially reported "Conditions Improved." It will be remembered that Pte. McKenna was recently reported "wounded and dangerously ill, gunshot wound in thigh." His many friends will hope the favorable report will continue and that he will shortly be all right again.

A HEAVY LOSS.—A correspondent informs the Guardian that Mr. Joseph Noonan of Albany, for several years the leading contributor to the Tryon Dairy Company, has sustained a serious loss by the death of two of his choice cows. It appears the first cow took sick and was given the usual two pounds of salts. She died shortly afterwards. Later three cows belonging to neighbors took sick in the same way and were similarly treated. An investigation followed when it was discovered that the salt was ground saltpetre all purchased at the same store and evidently put up by mistake. A second cow owned by Mr. Noonan got into a fight and had a leg broken which necessitated having her killed. To further add to his loss a promising heifer had to be let go dry on account of difficulty in milking her. Mr. Noonan estimates the loss of his two milk cows at \$400. With three cows out of his valuable herd Mr. Noonan's milk contribution to the factory this season will necessarily fall below his anticipations at the beginning of the season. If every farmer in the province valued his dairy cows as Mr. Noonan does, and his valuation is none too high, it would not take long to double the dairy output of the province. Mr. Fred Woolley is another contributor to this factory who deserves special mention, his cows last year averaging \$139 each. Mr. Noonan received last year \$1132 for his milk and this season, notwithstanding his loss, he will no doubt make a creditable record.
