Miscellaneous.

An English Hermit.—A few miles from Stevenage, and not more than thirty from the metropolis, there is a living hermit. Visiting a friend in the above locality, not many days ago, I was invited to see this extraordinary character. Indeed hermits are no common mortals in the nineteenth century, and to be told that such a one was existing at a short distance acted like electricity upon my nerves. As I walked through some delightful scenery of various tints and hues, amid the falling leaves of autumn, I came at last with in sight of the spot which had excited my curiosity. I had pictured to my mind a venerable old man, with a beard as white as snow, a massive girdle, and a profusion of books and hour-glass, in a cell of picturesque beauty and neatness. Alas! how soon was I to experience that imagination is one thing and reality another. I shall not venture in future to speculate upon things so unearthly. At the termination of the road a mansion of no ordinary size met my view, but better and happier times had reigned within; without all was desolation and ruin; time, that destroyer of all things, had done its work here; every inlet was barricaded by the rude axe and hammer; its portals no living mortal has passed for eleven long years; the interior, which was one rich in design and comfort, is now mouldering to decay; no cheering voice is heard within its walls, only that of rats and vermin. In tracing my steps to the scene of the hermit's cell, which is situated at the back of the building, and looking through the wooden bars of a window devoid of glass, I perceived a dismal black, and dirty cellar, with an earth floor, not one vestige of furniture, except a wooden bench and a few bottles, with the remnants of a fire. It was with difficulty, by the faint rays of light admitted into this loathsome den, that I could trace a human form, clothed only in a horse rug, leaving his arms, legs, and feet perfectly bare; his hair was prodigiously long, with a beard tangled and matted. On my v dressing him he came forward with readiness. I found him a gentleman by education and birth, and most courteous in his manner. He anxiously inquired after several aristocratic families in Staffordshire and adjoining counties. It is evident he had at one period mixed in the first circles, but the secret of his desolate retirement is, and probably ever will remain, a mystery to his neighbours and tenantry, by whom he is supplied with food (chiefly bread and milk). Already eleven weary winters had he passed in this dreary abode, his only bed being two sheepskins, and his sole companions the rats, which may be seen passing to and fro with all the ease of perfect safety. During the whole of his seclusion he has strictly abstained from ablution, consequently his countenance is perfectly black. How much it is to be regretted that a man with such high intellectual powers, in the prime of manhood, and possessed with such ample means should spend his days in filth and seclusion, in waste of time and in misery.—*Corresp. Wolverhampton Chronicle.*

Who Will Set the Fashion?—The Piedmontese have a fine independant bearing worthy of their Ligurian ancestors; and the women, generally speaking, are very handsome, with especially good eyes, eyebrows, and hair. None of them wear the pretty fresh snow-white cambric cap so characteristic of their sisters in the north of France, and the Antwerp nurses. A grisette of Nice has her hair becomingly dressed, and a tulle cap profusely bedizened with showy ribbons, and often quite dingy with dust, placed like the lately fashionable bonnet very far back on the head. Some patronise a fringed kerchief of bright-coloured wool or silk, which, fastened behind with gay pins and tied under the chin, forms a graceful enough coiffure. Others have thick rolls of black velvet twined round the head with long ends hanging down. On Sundays and fete days this simple coronet is set off with massive gold ear-rings, and every day you see both young and old women with throat-bands of black velvet clasped in front by a heart-shaped gold ornament with pendant cross. Some matrons from the neighbouring villages wear a singular little cap with a broad flyaway border standing back from the face; and occasionally you observe a well-dressed stranger in the pretty Genoese scarf of white muslin, which, pinned among the black plaits of hair, and falling in soft folds over the neck and shoulders, has a most statuesque appearance. Those simple and elegant national head-dresses! When will the mothers and daughters of England, known all over the world for their bad taste in dress, discard the stiff ugly bonnet, hot in summer and cold in winter, and take to hoods, as in days far more remote than those of the *Spectator!* What English lady with rank, wealth, and beauty on her side, will first set the fashion for all to follow!—*Fraser's Mag.*

The "Six Hundred."—Enthusiasts are not wanting, who would rather have ridden in it than have won the highest distinction to which civilians can aspire. Who dares to object that it was not ultimately successful? Such a taunt has never been weighed in the balance against the glories of Thermopylae. I frequently meet in society one of the Paladins of that fatal Roncesvalles. In private life he has few peculiarities, except a tendency to engage in each and every game of chance, and a perfect monomania for waltzing. Yet we regard him with an immense respect and reverence, that the object of the feeling would be the last to understand. I think of the awful peril out of which the delicate feminine face has come without a scar; and I protest I would no more dream of speaking to him angrily or slitingly, than I would venture to discourse about the Derby to the Bishop of O——, or to offer to that dignified prelate the current odds against the favourite. Rely upon it, in many homes of England (if the Manchesterians leave them standing), there will be one family portrait that our children will most delight to honour. Pointing out to strangers the crowning glory of their house, they will pass by grave effigies of lawyers, ecclesiastics and statesmen, and pause opposite to a martial figure, dressed in the uniform of a Light Dragoon. All his ancestors shall give precedence to the simple soldier who rode that day in the van of the Six Hundred.—*Fraser's Magazine.*

A Fish Anecdote.—Joe Phillips was an awful story teller. When a stranger came to his tavern, if he appeared at all credulous, old Joe would tell a long yarn to some of his village acquaintances, but talk at the stranger. Sometime since, a stranger came into his bar-room with a rod, line, and other fishing paraphernalia, when Joe seized a friend, and startled him by the question—

"Did you hear about that big fish Colonel P—— caught to-day in the river?"

Stranger pricked up his ears.

"No," said friend.

"...iggest sturgeon ever caught anywhere," continued Joe.

"...don't say!" said friend.

"...d Joe; "when I came away he hadn't caught ... he had about six feet of him ashore!"

"...friend; "how much did he weigh?"

HOLLOWAY'S PILLS.

A BOON TO THE SICK!

The want of a sterling medicinal preparation to meet the many "ills that flesh is heir to," and one entirely free from minerals and other deleterious particles, was severely felt till this all powerful medicine was ushered into the world. *Holloway's invaluable Pills* have become the *Household remedy* of all nations. Their attribute is to *prevent* as well as to *cure*. They attack the *root* of the complaint, and thus by removing the hidden cause of disease, re-invigorate and restore the drooping energies of the system, assisting nature in her task of *vital* and *functionary reformation*.

INDIGESTION,

The great scourge of this country, as well as of all hot climates and marshy districts, yields quickly to a course of these invaluable Pills, and the digestive organs are restored to their proper tone, and fevers of all kinds avoided. It matters not in what shape this derangement exhibits itself, Holloway's searching and unerring remedy expels it from the patient's system.

GENERAL DEBILITY,

From whatever cause, *Lowness of Spirits*, and all other signs of a diseased liver, or of a *general disorganization* of the system, vanish under the eradicating influence of this powerful and most searching remedy, which in warm and relaxing climates act like a charm.

FEMALES

Should lose no time in trying a few doses of this regulating and renovating medicine, whatever may be their complaint. It can be taken with safety in all periodical and other disorganizations. Its effect is all but miraculous, either to young persons entering into womanhood, or to those at the turn of life.

BILIOUS COMPLAINTS.

Those who suffer from bile and liver complaints should try the effect of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, remove all impediments, cleanse the blood from all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious attacks be allowed to continue without using such a preventive, fever will arise, and the sufferer be confined to a bed of sickness. These Pills are an extraordinary remedy in removing acidity from the stomach and correcting indigestion, especially in hot and swampy localities.

A CERTAIN CURE FOR COUGHS AND COLDS.

The cause of half the diseases to which humanity is heir is the mode of treating the human system when attacked with these disorders, which often lead ultimately to a fatal result. By persevering in the use of Holloway's Pills, the most obstinate cold or cough is soon checked and cured; for this medicine, by purifying the blood, regulating the secretions, checking the depraved humors, and encouraging a free perspiration, rapidly turns the system into a sound and vigorous condition, thereby enabling it to throw off the disorder. The cure is complete and permanent, particularly if Holloway's Ointment be well rubbed into the chest and throat night and morning.

COMPLAINTS INCIDENT TO CHILDREN.

In no country in the world are more children carried to an early grave than in this. Cough, measles, scarlatina, fevers and similar diseases attack the little sufferers, and death but too often follows at a rapid pace; yet, if at the first stage of the complaints parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels being gently but effectually cleansed by this mild aperient, the depraved humours corrected, and the secretions duly regulated, a perfect cure is soon effected, and the little patient is restored to sound health.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Dysentery	Liver complaints	toms
Asthma	Erysipelas	Lumbago	Tic-Doloureux
Bilious Complaints	Female Irregularities	Piles	Tumours
Blotches on Skin		Retention of Urine	Ulcers
Bowel complaints	Fevers, all kinds		Venereal Affections
Colics	Fits	Scrofula, or King's Evil	
Constipation of the Bowels	Gout		Worms, all kinds
	Head-ache	Sore Throats	Weakness, from whatever cause
Consumption	Indigestion	Stone and Gravel	
Debility	Inflammation	Secondary Symp-	&c., &c.
Dropsy	Jaundice		

Sold at the Establishments of Professor Holloway, 244 Strand, (near Temple Bar,) London, and 80, Maiden Lane, New York; also at all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s 3d, 2s 3d, and 5s. box.

There is a considerable saving by taking the larger sized Box.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

BURNETT'S COCOAINE!
BURNETT'S COCOAINE!!
BURNETT'S COCOAINE!!!
The Human Hair.

HOW many persons abuse this delicate and beautiful ornament, by burning it with alcholic washes and plastering it with grease, which has no affinity for the skin and is not absorbed. Burnett's Cocoaine, a compound of Cocoa-nut Oil, &c., is unrivalled as a dressing for the hair—is readily absorbed, and is peculiarly adapted to its various conditions, preventing its falling off, and promoting its healthy growth.

BURNETT'S COCOAINE,

A compound of Cocoa nut Oil, &c, for dressing the hair. For efficacy and agreeableness, it is without an equal.

It prevents the hair from falling off.
It promotes its health and vigorous growth.
It is not greasy or sticky.
It leaves no disagreeable odor.
It softens the hair when hard and dry.
It soothes the irritated scalp skin.
It affords the richest lustre.
It remains longest in effect.
It costs three shillings for a half pint bottle.

TESTIMONIAL.

Boston, July 19, 1857.

Messrs. J Burnett, & Co.—I cannot refuse to state the salutary effect, in my own aggravated case, of your excellent Hair Oil—(Cocoaine.)

For many months my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair washes, which, I have since been told, contain camphene spirit.

By the advice of my pyhsician, to whom you had shown your process of purifying the oil, I commenced its use the last week in June. The first application allayed the itching and irritation; in three or four days the redness and tenderness disappeared—the hair ceased to fall, and I have now a new growth of new hair. I trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,
SUSAN B. POPE.

BURNETT'S COCOAINE.

☞ A single application renders the hair (no matter how stiff and dry) soft and glossy for several days. It is conceded by all who have used it to be the *best and cheapest hair dressing in the world.*

Prepared by Joseph Burnett & Co., Boston.

For sale by dealers generally at 50 cents a bottle, and by

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache, arising from disordered stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
