Fergus, April 6, 1894

To Robert Phillips, Druggist, Fergus.

This is to certify that I have suffered from piles for a long time and tried several articles recommended for this complaint, but none of them benefited me till I tried Chase's Ointment, which has completely cured me.

Mrs. JOHN GERRIE.

R. Phillips, Jr., Druggist Witness.

"My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind her ears. I tried almost every remedy I saw advertised, bought innumerable medicines and soaps, and took the child to medical specialists in skin diseases, but without result. Finally, a week ago, I purchased a box of Dr. Chase's Ointment, and the first application showed the curative effect of the Remedy. We have used only one-fifth of the box, but the change is very marked; the eruption has all disappeared, and I can confidently say my child is cured. (Signed) MAXWELL JOHNSTON

William Walter Taylor, the outgoing state treasurer of South Dakota, and about $450,000 of state money, are reported missing. Taylor was president of the First National Bank and the North-western Mortgage Trust Company, of Penfield, and the bank is closed. There is a great sensation over the developments.

The Parisian press is now undergoing a scorching such as it has frequently administered to other evil-doers. "Chantage" is the soft name for boodle paid to the journalists of the gay capital either to promote schemes meant to gull the public, or to restrain from exposing them. Much of the Panama shareholders money, it was shown went to the pockets of these harpies, while even such institutions as the Credit Foncier have to pay hush money to them. With the watchers on the walls thus blinded, it is no wonder there are scandals in French public life.

**HOW TO TREAT A COLD.**

Don't stuff a cold, as the old adage advises, if you do you will have a fever to starve. A genuine cold is a shock received by the many million nerves which approach near the surface of the human body, and which control the nearly seven million pores of the skin. This shock closes the pores of the skin, is transmitted to the nerve centre and back to the mucous membranes, forcing a great amount of blood to these membranes, creating more or less irritation and consequent fever, inflammation, dryness, then watery discharge and catarrh. The shock may have its cause from a chill, from improper eating, a nervous fright and various other causes which irritate the nerves of the skin and mucous membranes of the nose, throat and bronchial tubes. Excess of blood in the stomach still more clogs the system and pores of the skin, so that effete matter, which should be carried off by the natural courses is retarded; which is ample reason for not stuffing a cold. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy until some friend suggests another "sure cure." When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from whatever cause, act promptly, delays are dangerous; with children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Liniment near at hand for colds and croupy children. The proprietors, I. S. Johnson & Co., Boston, Mass., will send their new illustrated book entitled "Treatment for Diseases," free to any person for the asking. .....

She glared into his soulful eyes.

"Now that we are married," she observed, austerely, "I shall not hesitate to be perfectly plain with you."

"Matilda."

She did not heed his protest, but sat all the evening with her hair in curl papers.

Nothing she could have done would make her look plainer.

**A STEALTHY FOE.**

**Bright's Disease may Exist a Long While before it is Suspected.**

DROMORE, Jan. 14.—Brights disease has no symptoms of its own, and may long exist without the knowledge of the patient or practitioner, as no pain may be felt in the kidneys or their vicinity. There may be no albumen in the water and no tube-casts, yet Brights disease may be present. It often develops suddenly and may run a fatal course before it is recognized. Bright's Disease is thus recognized as a mysterious every day malady, which is increasing at an alarming rate. Before Dodd's Kidney Pills were placed within reach of the public, these diseases were considered by medical men and the public to be incurable. Thanks to this popular remedy, thousands are now enjoying perfect health who, without it, would to-day be laid away in their graves.

**Hands and Ankles Raw.**

**NEWS NOTES.**

It is now proposed to erect the Magdalen Islands into a separate constituency. The population of the islands is about 5,000 and the voters number some 900, so that they would make a rather small electoral division. The reason for the change is geographical, however, and not one of population The Magdalens are more than a hundred miles from the nearest part of Quebec, and only fifty from Noea Scotia. They have little or no interest in common with the mainland, and judicially, municipally and educationally are separate from the county of Gaspe, to which they are attached for representative purposes. If the bill passes, they will make a nice easy constituency for the man who wins their good will.

The British Board of Trade returns for the twelve months of 1894 indicate increased patronage of Canadian food products by the British consumer. Larger buyings are recorded in many of our staples £230,000 more of sheep, £100,000 more of cheese, £350,000 more of timber, £490,000 more of fish, £17,000 more of eggs. The total increases aggregate £489,000, or nearly 5 per cent more than in 1893. There is a falling off in butter, showing that we are not yet sending the right article for the fastidious Briton. Our imports have declined nearly $1,300,000 from Britain during the year, owing to the period of cautious buying which has prevailed.

**For Over Fifty Years.**

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. **THE WAR IN THE EAST.**

A despatch from Pekin says that orders have been issued from the throne for the arrest of the three generals who commanded the Chinese troops at Port Arthur.

A despatch to the Central News from Kaiping says General Nogi, who commanded the Japanese troops in the battle that occurred there lately, reports that his troops took possession of Kaiping at ten in the forenoon. Over 200 Chinese are known to have been killed and 150 taken prisoners. The number wounded is unknown. The Chinese force is said to have numbered 4,000. Scouts report that 10,000 Chinese troops, under General Seb, who were moving to support Kaiping, retired upon Yinghow, when they learned the result of the engagement.

The Berlin Cologne Gazette advises the government of Japan to make peace with China at once. It will be a dangerous thing for Japan, the Gazette says, if her desire for the fruits of victory increase, as her demands might become so exaggerated that the European powers could not allow China to concede them.

Preparations are rapidly advancing for the defence of Pekin. There is every indication that the next blow of the war will be struck at this, the one vital spot of the Chinese empire.

UNION WITH NEWFOUNDLAND.—The St. John Sun thinks that from the Canadian point of view the strongest reason for seeking union with Newfoundland is the need of concert in the dealing with the British American fishery question, and that a fishery treaty between the United States and Newfoundland might virtually destroy the value of Canadian fishing rights, and the fisheries of Newfoundland would be similarly affected if Canadian diplomacy did not regard them. The Bond-Blain treaty, which was unfortunate for Newfoundland, was equally bad for Canada. Fortunately the evil was averted. But while Canada and Newfoundland remain apart there is always the danger that one country will be injured in the diplomacy of the other.

IN 1895

HARPER'S WEEKLY is a pictorial history of the times. It presents every important event promptly, accurately and exhaustively in illustration and descriptive text of the highest order.

The manner in which, during 1894, it has treated the Chicago Railway Strikes and the Chino-Japanese War, and the amount of light it was able to throw on Korea the instant attention was directed to that little known country, are examples of its almost boundless resources. Julian Ralph, the distinguished writer and correspondent, has been sent to the seat of war, and there joined by C. D. Weldon, the well-known American artist, now for many years resident in Japan, who has been engaged to cooperate with Mr. Ralph in sending to HARPER'S WEEKLY exclusive information and illustration.

During 1895 every vital question will be discussed with vigor and without prejudice in the editorial columns, and also in special articles by the highest authorities in each department. Portraits of the men and women who are making history, and powerful and caustic political cartoons, will continue to be characteristic features. This Busy World, with its keen and kindly comment on the lesser doings of the day, will remain a regular department

FICTION.—There will be two powerful serials, both handsomely illustrated—"The Red Cockade," a stirring romance of olden days by Stanley J. Weyman, and a novel of New York, entitled "The Son of His Father," by Brander Matthews—several novelettes, and many short stories by popular writers.

Send for Illustrated Prospectus.

The Volumes of the WEEKLY begin with the first number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order.

Cloth Cases for each volume, suitable for binding, will be sent by mail, postpaid, on receipt of $1.00 each. Title-page and Index sent on application.
