Mr. Massey's Illness

There will be renewed concern about the health of His Excellency Governor General Massey, who on Friday was admitted to the Royal Victoria Hospital in Montreal for further treatment of his kidney infection.

This public concern is not entirely due to the high position Mr. Massey occupies, and which he will relinquish in a month's time. It is due chiefly to the outstanding personal triumph he has scored in the discharge of his responsible duties.

When Prince Philip was in Canada he referred to the low Canadian standards of physical fitness and the need for a program to raise them. That His Royal Highness was right in his estimate has been proved on several occasions and by several criteria.

What the Legion seems to have in mind, says an Ontario exchange, is a program of national physical training along the lines of the military forces, graded for children according to age.

Conan Doyle would have enjoyed writing this latest Sherlock Holmes thriller—The Case of the Missing Rubles. The scene would be laid in Moscow, where, on behalf of the estate of the legendary detective's creator, application has been made in the city court to go before the Supreme Court of Russia for royalties to the amount of 2,000,000 rubles.

Lawyers for the Doyle estate accuse the Soviet defendants of "unjustly enriching themselves at the expense of another." This is the language of Article 399 of the Soviet Civil Code. Basing a case on it represent a new approach in the long fight by Western authors for royalties from Soviet state publishing houses.

The Ottawa Journal has a better suggestion for this ceremony, which it is to be hoped will be followed. That is that it be transferred to Parliament Hill, and made a national occasion at which a grateful people may have an opportunity to bid good-bye.

use of Canadian talent in Canadian design and has spent thousands on scholarships and exhibitions. It was reported at the time that inspiration for establishing NIDC came from a senior member of the Foreign Exchange Control Board who was concerned about the large sums that went from Canada to the United States for royalties on designs.

Physical Fitness

The Ontario Command of the Canadian Legion will ask Prince Philip to lend his royal patronage to a plan to further physical fitness for young Canadians. Meeting in Kitchener, the Legion proposed "operation sharpshooter", a project which it is hoped will in time be endorsed by all provincial governments and welded into a national effort.

What the Legion seems to have in mind, says an Ontario exchange, is a program of national physical training along the lines of the military forces, graded for children according to age. Programs for national health have long been in use in Scandinavian countries, and in central Europe gymnastics is almost universal.

Sherlock Holmes In Moscow

GETTING READY FOR THE TRIP

OTTAWA REPORT

Mr. Pearson's Future

By Patrick Nicholson. Ottawa has been startled to read the suggestion in a local newspaper that Hon. Lester B. Pearson should resign from the leadership of the Liberal Party.

Mr. Pearson, as is well known, was awarded the Nobel Peace Prize 18 months ago. If this award stemmed from any one action outstanding among Mr. Pearson's record, that was perhaps his recommendation that an international army should be set up, to keep the peace between Israel and Egypt.

Mr. Pearson's long and distinguished career in our diplomatic service and later in our government, it would be no less than fair to point out that Mr. Pearson in fact was awarded the Nobel Peace Prize partly for pirating another man's idea.

Checkup Before School Begins

By Herman B. Sundess, M.D. IN ANOTHER couple of weeks millions of children across the country will be heading for classrooms again, and for many of these youngsters it will be a big adventure, the beginning of their school years.

If your child is among those going off to kindergarten or first grade for the first time, make sure he's ready physically. It's a good idea to give him a complete physical examination right now.

Every youngster should be immunized against polio, smallpox, diphtheria and tetanus before he enters school, if at all possible. While your child may already have received inoculations against these diseases, he may need a booster shot by this time.

Of course a child of kindergarten or first grade should by now be able to brush his teeth properly. If he eats the noon meal in school, it is suggested that he rinse his mouth after he has finished eating.

NOTES BY THE WAY

An American company has come out with a cigarette that contains no tobacco. Now all that is needed is liquor without alcohol and most of our lives will be beyond reproach!—Ottawa Citizen.

OUR YESTERDAYS (From the Guardian Files) TWENTY-FIVE YEARS AGO (August 17, 1934) Mr. Joseph Callaghan, ticket agent at Summerside, has been appointed as the new station agent at Miscouche to fill the vacancy caused by the death of Thomas Keefe.

A happy reunion of the members of the 5th Canadian Siege Battery of World War I was held yesterday at which old comrades renewed acquaintances. From points throughout the province, and also from the mainland, members gathered for an outing at the North Shore and later in the evening held a banquet at Sandy's Restaurant.

Some twenty wheel chair patients from both hospitals were taken to the races by the Walker Callow Wheel Chair Coach yesterday afternoon. Today wheel chair patients from the Provincial Sanatorium, about twenty in number, will be taken to the Exhibition Grounds and tomorrow a further twenty will also see the activities.

Despite farm mechanization behind the Iron Curtain, the horse is still a powerful competitor of the tractor in Poland, Hungary and Rumania. Besides, old-time teamsters say you can't get any real satisfaction out of swearing at a tractor.—Ottawa Journal

Skin divers cannot use spears in Ontario waters. This was emphasized when conservation officers of the Ontario Department of Lands and Forests arrested a Toronto resident just as he emerged from Lake Simcoe wearing a snorkel tube and face mask and carrying an underwater spear. It is illegal to have possession of a spear within 50 feet of the water.—Ontario Lands and Forests Bulletin

The Poets Corner TO A MOUSE Tiny, furry, timid creature. Darting all about the place. Pesky nuisance, cute tormentor, Robber with a pointed face. Crumbs and tunnels in the bread loaves. Holes in cupboard doors and walls. All night long your gnawing echoes. Up and down the darkened halls. You weren't with us till the frost bite. Drove you to a warmer clime. Do we have to bid your antics All the long cold wintertime? Can you go on dodging daily. Our sharp cat who watches you? Though I quite dislike your mischief. Mouse, I rather hope you do. —Thomas Morris
