INFAMOUS SACRILEGE.

On Saturday last, the 14th instant, the Episcopal Church in this city was entered during the afternoon by two young miscreants, aged about 17 years each; and while two other lads—sons to the Clerk and Sexton—were employed in sweeping out the Church, one of the intruders, named George McComb, a son of the late James McComb, of the Bazaar—went into the pew of the Hon. Mr. Coles, and deliberately converted it into a temple of profanity. Both fellows were brought before the Mayor's Court, on complaint of the Sexton, —McComb, whose crime was easily proved, was fined £5 and costs; the other was fined 30s, being an accessory before the fact of the sacrilege. Both those lads are said to be members of the Church of England; and the ringleader, McComb, as assigned as a reason for his basely conduct, his antipathy to Mr. Coles because he is a Liberal, and he stated that he would act in a similar manner in the pews of all other Liberal members of the Church. The gentleman against whom the insult was directed has always acted towards the friends of the principal delinquent in a truly Christian spirit, and patronized their establishment by purchasing largely the various articles in which they deal. A fine—no matter how large as long as the friends of the young rascal are able to pay it—is not sufficient punishment for the infamous outrage of which McComb has been convicted,—he should be made to suffer in his own person, by being soundly whipped, or imprisoned, and kept at hard labour for a reasonable time.

Had not the merest chance brought to light this outrage upon decency, there is no doubt it would be attributed by the Protestant to some of the Roman Catholic party; and the editor of that journal—shocked by the atrocity—would deal in any amount of invective against the Liberal portion of the community. As it is, the Protestant is as silent as the grave about this infamous sacrilege in a Protestant Church.

TO CORRESPONDENTS.

We regret we have not room for the communication of "Veritas," received after our columns were filled this morning—who writes in reference to the attack by the Protestant on the late Bishop McDonald, and the fulsome adulation on Mr. Beer, by the same paper. We shall endeavor to make use of his communication for our next.

NEW GLASGOW LITERARY SOCIETY.

On Wednesday evening last the 18th inst., Miss Bernard, Esq., of Charlotteville, delivered a highly scientific lecture before this Society, on "The General Properties of Matter." Several very successful experiments were performed, and the explanations given, showed that the lecturer was thoroughly acquainted with the scientific and technical details of science were explained in language which all could understand; whilst the experiments illustrative of fixed principles, greatly assisted in imparting to the memory, and in the lecturer with much additional interest. At the close of the lecture, Mr. Bernard kindly offered to answer any questions which might be asked on the subject of the lecture. A number of individuals gladly accepted his offer, and made inquiries which elicited answers highly satisfactory, and expressed in a manner which evinced a deep interest in the subject. CATHOLIC YOUNG MEN'S LITERARY INSTITUTE.

On Wednesday evening an overcrowded audience assembled to hear Mr. A. Hegan's second lecture on English History, before the above body. Notwithstanding the ample space for seating a large audience in the room of the Institute, many persons were unable to gain admittance. Whilst introducing the lecturer and announcing the subject—"Cromwell and the Puritans"—the Vice President requested the audience not to manifest any feelings during the delivery of the lecture, which was strictly confined to the scientific and historical details of the subject, and the exciting facts which he narrated, strongly depicted the assembly on several occasions to give bursts of applause. The lecturer, in his masterly style and fearless manner, gave the history of the Puritans, from the earliest times of their migration to the New World, down to the period when they reached the summit of their power. He traced the effects of Puritanism on the religion, government, and social condition of France and England, but more especially on Scotland and Ireland. The contrast which drew between the pusillanimous resistance offered to the Puritans by the Scottish prelates, and the noble and unflinching efforts of the Irish prelates to withstand them, was characterized by the lecturer as a noble and unflinching character who took part in the struggle which convulsed the British Empire in the days of Cromwell. To one amongst the Irish chieftains the lecturer paid a high tribute; and he—there are few names in the whole history of the world more entitled to the grateful remembrance, more certainly which should be more endeared to the Catholic world, than that of Owen Roe O'Neill. His patriotism was unaffected, his friendship sincere, his patriotism of the purest Roman standard, his courage never surpassed, indeed seldom equalled, his talents as a general of the very highest order; for it was the opinion of the great hero of the French Revolution—Napoleon Bonaparte, who he believed to be the most tyrannical and hypocritical of all ever degraded the name of man.

The lecturer did not enter fully into the details of the life of Cromwell, nor into the details of his military career, which would not permit of any discussion. On a subsequent evening, the next meeting of the Institute will take place, subject, "Robert Burns and the Scottish Poets."—Com.

The accusation against Dr. J. C. Ayer, of Lowell, for stabbing R. S. Fay, Jr., the Treasurer of the Middlesex Mills, has been withdrawn because the prosecutor found that no complaint against him could be sustained. The fact is that Dr. Ayer merely defended himself as best he might, with a penknife he happened to have in his hand, against a cowardly assault made on him from behind, with the intention to dishonour and punish him for the exposure he has made and is making of the wrongs practiced by the officers upon his manufacturing corporations. The community not only does not substantiate a cowardly defence of his person, but he heartily approves his conduct in publicly denouncing the Tito-Barnard Family management—the abuses of our public property for private ends. Dr. Ayer's medicines, however valuable, are not all for which the masses of our people hold him in regard.—Boston Herald.

AYER'S CATHARTIC PILLS.

The sciences of Chemistry and Medicine have taxed their art to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which are not possessed by any other medicine, and that they will unerringly and speedily cure the system of all men. They are safe and powerful, take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the humors which breed and grow distemper, stimulate sluggish or diseased organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of vainglory. Many eminent clergymen and physicians have lent their names and credit to the public history of their cures, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men. The Agent is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Constipation, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcers and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Asthma, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by some unprincipled dealers with some other pill that makes no profit on Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value and curing power. The sick want the best and there is no form, and they should have it. Prepared by Dr. J. C. NEW ADVERTISEMENTS.

A NEW DISCOVERY FOR 1860!

Stoves! Stoves! Stoves! THOSE celebrated Yarmouth, N. S., extra strong and substantial Cooking, Franklin, Hot and other STOVES, and not Sam Slick Peddling Stoves some of which have been set up and forced on simple farmers, at one third more in price than those first rate Yarmouth Stoves, on the name of giving 12 months' credit on a Note of Hand, which must be paid in cash when it falls due in the bank, or to the holder of the Note, and no mistake. Produce will be taken in payment, and time given to any Farmer wanting one of these Stoves, and to those who have the last two seasons, and the great demand for them all over the Island, which are now fast superseding all other kinds of Yankee Stoves; and as they only require about half the wood, labour and time of most other Stoves—such a revenue is equal to so much cash in the Farmer's pocket, or Oats in his barn. The large metal Boilers, which suit also to feed cattle in the Winter, make those Stoves still more valuable for cooking up all the barn waste, and the little time required to attend to them. Any one that wishes to save money, and to keep a warm house for little trouble and cost, ought to have one of those extraordinary Stoves for 1860 in it, before they are all sold, which would clear its own cost in wood, labour and time before three seasons are over. The following Agents have been appointed, and have received nearly 300 of those almost everlasting, new and favourite Stoves, most of which have been sold, and not one returned or found fault with. Reference can be given to all the parties who purchased them, on enquiry of any of the undersigned, and there is one in operation at the Orwell Agency, where it can be seen at all times. NEW ADVERTISEMENTS.

Doctor Evans' Pain Killer.

NO medicine has been discovered that is so happily adapted to be used internally as drops to be taken, and yet perform such wonders when applied externally as a wash, bath, or by friction. USE IT IN THIS MANNER:— For common Headache, simple bathing will answer. For sudden colds and hard coughs, (to cure immediately) put one teaspoonful in four of molasses, and take three teaspoonfuls of the mixture as often as you cough. Bathe the neck, breast and wrists with it to cure soreness of a cough. Asthma, Phlegm, and sore breasts—for speedy relief, 30 drops in molasses, and bathe freely with it clear, and keep on flannel wet in it. For bowel complaint, cholera morbus, cholera, and diarrhoea, —a teaspoonful in a gill of milk and molasses, well mixed; if the pain is severe, bathe the bowels with it, and in cholera repeat the dose every hour. For Dyspepsia and sick stomach, 20 to 30 doses in sweetened water, morning, noon and night, till all symptoms yield, and you are restored to perfect health. For all rheumatic complaints, lame neck, swelled face, sore throat and toothache, 60 drops as above, three times a day; bathe the parts well, rub with a warm cloth, and take a teaspoonful of mustard seed nightly, in milk or molasses, at bed time. For burns, scalds, pricks, stings or old sores, bathe well and often the parts affected. For sudden colds or croup, 30 drops in molasses, every hour, and bathe freely with it. For cancer, sore mouth and stomach, chicken pox, or measles, 20 drops twice a day in sweet milk.

NASH'S SUPERIOR HORSE AND CATTLE LINIMENT.

One of the most valuable articles ever offered to the public, for Sprains, Windgalls, Ringbones, Spavins, Stiffness of the Joints, Fresh Wounds, Galls, &c., &c. This truly valuable Liniment has been extensively used for upwards of seven years, and in no instance has it failed to give satisfaction. The Proprietors cheerfully recommend the above remedy to the public, under the full conviction of its efficacy in the above-mentioned diseases, where an external application is required. It reduces inflammation or swelling, or where the flesh has become callous, it softens and reduces it, and produces a full and free circulation to the parts previously affected. Numerous certificates from highly respectable individuals might be offered, testifying to its efficacy, but the proprietors deem it unnecessary. All that is solicited is a fair trial of this Liniment, to convince the public of its value. CHARLES V. POOR & Co., Boston, Sole Proprietors, to whom all orders should be addressed. Jan. 23 1860. 6m

THE ATLANTIC MONTHLY.

Commencement of a New Volume. WITH the number for JANUARY, 1860, the ATLANTIC MONTHLY will enter upon its FIFTH VOLUME. In making this announcement, the publishers think it proper to say simply, that no change will be made in the general plan of the Magazine; that all the writers whose contributions have established it in the popular favour will continue to do so; and that the medium of communication with the public; and that the relations of the publishers with the authors, on both sides of the Atlantic, will enable them to add materially to the variety, interest, and value of its pages. They have great pleasure in announcing that the number for JANUARY contains the first chapters of a NEW ROMANCE, ENTITLED "The Professor's Story;" Written expressly for its pages, by OLIVER WENDELL HOLMES. It is continued in succeeding numbers of the Magazine throughout the year. TERMS—Single numbers, 25 cents. Three Dollars per year, postage paid to any part of the United States. CLUBS—Two copies, Five Dollars; Five copies, Ten Dollars; Eleven copies, Twenty Dollars;—the subscribers paying their own postage, viz: 35 cents per year. Clergymen, Teachers, and Postmasters, will receive the Magazine at Two Dollars per year as heretofore. Subscriptions may commence with any number; and, as all the numbers are stereotyped, back numbers can always be furnished. All orders should be addressed to TUCKER & FIELDS, Publishers, 135, Washington-st., Boston. Jan. 16, 1860
