

SUPREME COURT.

SINCE our last issue, considerable business has been transacted. The principal cause tried last week, was that of McIntosh vs. Griffin, which occupied nearly three days. This was an action of trespass brought to recover damages for timber alleged to have been cut by the defendant on the land of the plaintiff, at Newtown, Belfast. It appears that about fifty years ago, a line had been run between the farm now occupied by the defendants and the plaintiff, that the same line had been run about twenty years since by Mr. Ball, and until six years ago had been recognized as the boundary between the two farms. Latterly, the defendants had been encroaching on the land of the plaintiff and cutting the timber thereon. Eighteen witnesses were examined for the prosecution, and six for the defence. The Jury returned a verdict of £9, for the plaintiff, thus establishing the old boundary line, and reinstating the plaintiff in the possession of her land. For the plaintiff, Palmer & McLeod; for the defendant, Hensley & Longworth.

The next case of public interest is that of The Summerside Bank vs. Thomas Crabbe. This cause was tried last January, but the Jury could not agree. It is brought, as our readers will remember, to recover or retain money sent by the Union Bank to the Summerside Bank, through the Post Office of the defendant, at Summerside. The letter of advice arrived, but no tidings have yet been heard of the money. The plaintiffs insist that the money was deposited in the Summerside bank, and reached Mr. Crabbe's office in safety, but that, owing to the careless manner in which the defendant's office was kept, it was lost or stolen. Mr. Crabbe maintains that the money never came to his office, that after the bag was brought from the steamer, it was carefully locked up, and the key of the office deposited in his own bed-room, that when his son opened the bag in the morning, there was no money parcel in it, and that the first intimation he had that it was lost was from the Cashier of the Summerside Bank. The Jury returned a verdict for the defendant. For the plaintiff, Messrs. Palmer & McLeod, Hensley and E. Palmer; for the defendant, Messrs. Haviland, Brecken, Hodgson and Longworth.

True Bills were found by the Grand Jury against W. B. Dawson, for forgery, and on Monday, Dawson, who has been in town for the last fortnight, surrendered himself to the Court, pleaded guilty to the charges, and was committed to prison.

Seldom do causes come up for trial in our Courts which excite so much interest as those of the Union Bank of P. E. Island, the executors of the late Mr. Haviland's Estate, E. J. Hodgson and Ralph Brecken against Thomas Dawson. These actions are brought on certain notes and bills alleged to have been endorsed by Mr. Dawson to the plaintiffs. The defendant denies the genuineness of the endorsement. Witnesses who have been intimately acquainted with the business relations of the defendant and his son, have been brought from the other Provinces, and S. R. Thompson, Esq., one of the ablest lawyers at the New Brunswick Bar, has been retained for the defence.

THEATRICAL.—We have no doubt the citizens of Charlottetown will be agreeably surprised to learn, that a first-class Theatrical Company, will open here for a short season, commencing on Friday. They have secured the Market House, which will be found in every way, adapted for the production of successful theatrical representations. The company is named the "Olympic Theatre," and from what we have learned of them from the Halifax papers, and from private sources, we have no hesitation in bearing the most ample testimony to their merits. We are informed this is no more travelling company, without any previous professional reputation. Some of its members stand high in the estimation of critics in the neighbouring republic, for instance, Mr. Frank D. R. Allen, the unrivalled tragedienne, Mr. Frank Roche in the same line, Mr. J. Davis, an actor of thirty years experience, Miss Howatt, a most charming actress, Mr. T. H. Burns, an exceedingly clever comedian, and a host of other sterling actors and actresses. The most fastidious should not carp at the legitimate drama. The Queen patronizes it, and why should not the citizens will give Mr. Howard (the proprietor) a handsome reception, and we have no doubt he will frequently visit us in future years.

THE NORTH STAR has made its appearance in a rather attractive dress. If the NORTH STAR improves upon its progenitor, as Mr. Ross promises, it will undoubtedly become a leading luminary in the journalistic constellation of Prince Edward Island, the centre, in fact, around which the lesser lights will revolve. We hail the appearance of our contemporary as the morning star, or harbinger of that fullness of reciprocal intercourse in commerce between the British American Provinces and the United States which every intelligent man in both countries ardently desires. Success, "North Star," and may your ascension be rapid and your culmination brilliant.

SUMMERSIDE must have been pretty well cleaned out on Saturday last, as most of its inhabitants were in Charlottetown on Sunday and Monday—having come passengers in the steamer Princess of Wales on Saturday night. The School Examinations in the City, and the presence of the Rev. Mr. Punshon, were the causes of this wholesale visitation.

The Steamer Princess of Wales will leave Charlottetown on the 14th instant, at 7 o'clock p. m. and will return on the 15th, leaving Summerside at 6 o'clock p. m. Return Tickets, 5s. This will afford a good opportunity to persons to attend the Bazaar and Tea Meeting at Summerside.

HER Majesty's War Vessel (screw) Doris, Capt. Henry Carr Lynn, 24 guns and 490 men, arrived in Charlottetown Harbour from Miramichi, yesterday evening. The Doris is engaged in protecting the fisheries. She will remain in this port some time.

REMEMBER the Prince of Wales College Examination next week. See advertisement in to-day's paper. The result of the St. Dunstan's and Prince of Wales' College Examinations, will be published immediately after their close.

MR KENNEDY, the celebrated Scottish vocalist, is about to revisit St. John, and give three "Nights in Scotland," commencing on the 15th instant. We hope he will pay Charlottetown a visit.

The Benevolent Irish Society are about to hold a monster Pic Nic on the grounds of St. Dunstan's College—the proceeds of which are to be applied to the benefit of the Christian Brother's School.

J. C. CROSKILL, Esquire, Proprietor and Editor of the Halifax Reporter, is on a visit to Charlottetown. We wish him a pleasant time of it, and trust that this will not be his last visit.

THE Patriot is like an old woman, determined to have the last word. Want of space prevents our attending to Mr. Laird this week.

WE publish, at the earnest solicitation of their authors, some correspondence in to-day's paper, for which we do not hold ourselves responsible.

The Church Bazaar in aid of the building fund of the New Church, Rochfort Square, will come off on Thursday & Friday next.

The New York Tribune groups statistics in this disagreeable way:—"Over 4000 lawyers and a murder a day in this city."

The first competition of the Dominion Rifle Association will take place at Laprairie on the 16th of September.

LAST week's Royal Gazette for the Province of Nova Scotia, contained the Duke of Buckingham's reply to the petition of the Delegates, with reference to repeal. The document is not very palatable to the Nova Scotians.

WE complete in this No. the Council debates. As we will now have more space at our disposal, we will endeavor to make our paper more diversified and interesting. We will commence a first-rate story next week.

THE Rev. Mr. Punshon preached in the Wesleyan chapel on Sunday last, and lectured in the same place on "Daniel in Babylon," on Monday night. Both efforts are very highly spoken of.

ST. JOHN, N. B., is great on boat racing. A crew and boat have gone from that foggy city to take part in the fourth of July Regatta in Boston. We have not yet heard the result.

THE Democrats were to have selected their candidates for the Presidency and Vice Presidency on the fourth of July.

Whelan's trial is to come off at the Fall Assizes at Ottawa, which will open on the 2nd of September.

WE give up most of our space to-day to school examination, and court business.

Three hundred New York babies have been named U. S. Grant.

ON the fourth of July, the American flag was conspicuous in many parts of Nova Scotia.

THE EXAMINATION AT MISCOUCHE.—We were present yesterday at the examination of the pupils of the Miscouche Convent. The examination was conducted by His Lordship Bishop McIntyre, and a number of Clergymen. The pupils, about fifty in number, seemed to answer questions, and perform the several parts assigned to them with ease and fluency peculiar only to a thorough knowledge of the different subjects in which they were examined. The whole affair reflects a credit upon the industry and taste of the teachers, as well as on the ability and capacity of the scholars. A very large number of persons, from different parts of the country, were assembled to witness the examination. The whole affair was a decided success. We could not hear the names of the pupils who especially distinguished themselves by their answers, but we observed that many crowns or tokens were distributed.—Summerside Journal.

CHURCH OPENING AND TEA MEETING.—At Murray Harbor South on Wednesday, 22nd July inst., in aid of completing and furnishing the Wesleyan Parsonage of the above place. The Ladies will spare no pains in making this Tea worthy the patronage of the public. There will be a Table for the sale of fancy articles, for which donations will be thankfully received by the following committee, viz:—Mrs. H. Brehaut, senior, Mrs. S. Prowse, Miss Jane LeLacheur, Murray Harbor; Mrs. Perceival, Montague; or by W. E. Dawson, Esq., Charlottetown. Refreshments, Strawberries and cream, &c., &c., served throughout the day.

TEA PARTY.—A Public Tea will take place at Pownal Hall, on Wednesday, the 15th day of July, commencing at 2 o'clock, p. m. As the proceeds, after paying the necessary charges, will be expended in books for the use of the Library connected with the Pownal Institute, it is to be hoped that it will be liberally patronized. Vocal and Instrumental music provided.

HORRIBLE ACCIDENT.—Two Men Killed.—We are seldom called upon to record an accident so frightful in its nature and fatal in its consequences, as that which occurred at the Saluting Platform on the Citadel yesterday afternoon. While the party from the Royal Artillery were engaged firing the salute, a two men at No. 1 gun, named McHugh and Bennett, were instantly killed by the premature explosion of the charge. The former was engaged in "ramming home," and the latter was standing by at the time. The man at the vent was also injured in the arm. McHugh was mangled in a shocking manner, particles of his body having been scattered in all directions. Bennett lived to be carried to the hospital, where he immediately expired. Both were young unmarried men, and were highly respected in the service. Their sad and untimely death has cast a gloom over the entire garrison. Hundreds visited the scene of the accident yesterday. An inquest was held on their remains to-day before Coroner Jennings, and a verdict returned in accordance with the facts.—Herald Reporter.

Holloway's Pills and Ointment.—Dyspepsia, jaundice.—These complaints are the results of a disordered liver, which secretes bile in quality or quantity incapable of digesting food. Digestion requires a free flow of healthy bile, to insure which Holloway's Pills and Ointment have long been famous, far eclipsing every other medicine. Food, irregularity of living, climates and other causes are constantly throwing the liver into disorder, but that important organ can, under all circumstances, soon be regulated and healthily adjusted by Holloway's Pills and Ointment, which act directly upon its vital secretion. The Ointment rubbed on the skin penetrates immediately to the liver, whose blood and nerves it rectifies. One trial is all that is needed; a cure will soon follow.

New Advertisements.

HOWARD'S OLYMPIC THEATRE AND MORAL LYCEUM, AT MARKET HALL, COMMENCING FRIDAY EVENING, JULY TEN.

THE First Evening's Performance will commence with the THRILLING TRAGEDY OF

LORETTA BORGIA, THE POISONER.

Gennaro, - - - Mr. Frank Roche.

Lucretia Borgia, - Mrs. D. R. Allen.

MISS HOWETT will sing the celebrated Drinking Song from the Opera of

LUCRETIA BORGIA.

To conclude with the

GORRILL.

Admission 1s. 6d., Reserved seats 3s., secured at W. H. Watson's, Esq., Drug Store. Doors open at 7 1/2. Commence at 8 o'clock.

Teacher wanted for a Grammar School AT SOURIS EAST.

A GRAMMAR SCHOOL TEACHER will find employment at Souris East by applying to any of the undersigned Trustees:

RONALD McDONALD, M. McCORMACK, J. A. McEACHERN, C. C. CARLETON, Souris East, July 8, 1868.

PLEASURE AND RELAXATION.

PIC NIC.

Under the auspices of the Benevolent Irish Society, In aid of the new St. Patrick's Hall.

BY the special permission of the Rector, the Rev. Angus McDonald, the members of the Benevolent Irish Society will hold their annual Pic Nic on the beautiful grounds of Saint Dunstan's College, on WEDNESDAY, the 22nd day of JULY instant, for the above object.

The means necessary for the games and amusements used on such occasions, such as cricket, quoits, foot and sack races, will be provided by the Committee.

The arrangements for the Pic Nic, both as to room and other accommodations, will be such as to please all parties. The attendance of a Band and the best Violinists will be secured.

The Committee are using all their efforts to make this the Monster Pic Nic of the season.

There will be a Refreshment Saloon on the grounds for the accommodation of the visitors.

The Members of the Society will leave St. Andrew's Hall at 9 o'clock, a. m., and proceed to the College grounds.

Admission—Gentlemen, 1s. 6d.; Children half price. Tickets can be had at the Stores of W. B. Watson, James Reddin, Owen Connelly, Francis McCarron, C. Reilly, John A. McKenna, Esqrs., and Hon. D. Brennan and P. Walker, and of the undersigned Committee:

R. Reddin, Esq., Messrs. John Hennessy, Michael Kelly, James Dunn, H. G. McIntyre, F. McKory, W. C. McIntyre, Joseph McKay, Peter Doyle, James Ormen, Owen Winters, John Carroll.

Ch'town, July 8, 1868. W. C. GRANT, Sec'y.

NOTICE.

THE undersigned will sell the Rebuilding of the Bridge at French Mill Creek, on the Georgetown road, on Monday, the 13th instant, at 4 o'clock, p. m. A Plan and Specification will be submitted, and terms stated, at time of sale, on the site. This bridge will be built of stone, if found practicable. Ample security will be required for the performance of the contract.

BENJ. WILLIAMS, Sup. Pub. Works. Ch'town, July 8, 1868. 1st pat ex

FRESH SALMON.

PARTIES wishing FRESH SALMON may be supplied by leaving their Orders at the Subscriber's Store, Water Street.

Arrangements have been perfected to place the Salmon in ice as soon as taken from the Nets at St. Peter's, thus insuring their perfect freshness; and those who order Salmon may let them remain in the ice until they are wanted for use.

July 8. I. C. HALL.

TO THE FARMERS

PRINCE EDWARD ISLAND: GENTLEMEN.—As we have noticed, in your local newspapers, certain statements, over the signature of "A. Booth," respecting the origin, manufacture, and sale of the Buckeye Mower and Reaper, calculated to mislead those who are unacquainted with the facts, we deem it our duty to place before the public a truthful and lucid history of the machine; and in order to be understood aright in the matter, we shall dispose of A. Booth's advertisement in the order in which it appears.

First, Mr. Booth asserts that Adriance Platt & Co., were the original manufacturers. The Buckeye was first invented, manufactured, and patented by Aultman & Miller, of Canton, Ohio, (from which State it has derived its trade-mark or name) they obtaining the first Gold Medal at the Great Field Trial held at Syracuse, New York State, in 1857, and they still continue to make nearly twice as many machines as any other establishment in the United States. The original inventors sold the right to manufacture, and sell their invention in certain territories; and among the different manufacturers, the custom has been that in whichever territory a trial is held they enter and exhibit. That is to say: If a trial is held in the New England States, we exhibit; if within Adriance, Platt & Co's territory they exhibit; and so on, Mr. Booth's assertion to the contrary notwithstanding, that Adriance, Platt & Co's manufacture is entered for competition "at all the Great National and State Fairs in the United States."

Mr. Booth further asserts that all "improvements come from Adriance, Platt & Co. Scarcely a year has elapsed but we have found something new wherein we could improve the machine, and assist to bring it up to its present high standard. Last year, after much expense, we radically changed our mode of gears, by which we dispensed with the internal gearing, (which we always considered a hard running gear,) by substituting an external gear, by which more perfect gearing is secured—which runs lighter, stiller, and is more durable, and more easily repaired should any repairs be required. This and other improvements of smaller importance were originated by us; and we make bold to say, and have ample testimony, that the machine exhibited for sale by A. Booth is the style which we made two years ago, save and except some minor alterations, which, in our opinion, are of a damaging nature to the machine.

Respecting the "Self Raker," when our minds are satisfied of the practicability, and it becomes simplified, and brought out of its present complicated condition, we will apply it to our machine, as we are of opinion that in its present stage it requires too much motive power, and is too expensive to be of general use; yet we believe that, in the course of time, it will be accomplished. Furthermore, Mr. Booth asserts that he brought on your Island, last season, four "Buckeyes," made by A. Richards, &c., of Worcester. No such manufacturing establishment exists in Worcester, or elsewhere, to our knowledge, in the United States.

Mr. Booth had four machines of our manufacture, which he obtained after some solicitude, which we are led to believe he purchased for sinister purposes. Mr. B. was too well aware of the reputation of the "Buckeyes" in the U. S. to compete against it here with his favorite "Manny," should it get into the hands of the farmers. Although Mr. Booth's estimate of your intellectual capacity was by no means high, we are glad to find that he has altered his mind, and we are glad to find that you have sufficient "brains" to run a Buckeye this season. Besides the Machines which Mr. B. had last year, we considered ten machines to Mr. John Higgins, of your city, which were all sold, despite Mr. B's sniffling at their introduction, and we leave it to those farmers who ran the Machine last year, to say "whether they were perfect, and such as they should be, or not." We have in our possession testimonials from many of the most respectable farmers, who ran the machine last season, respecting its merits, and we have yet to learn of any dissatisfaction,—not one purchaser has yet enquired for an extra piece to supply any defect or breakage, although our agents have extras constantly on hand.

The Machines sent to our agents this year have been made with usual care, put together by first class workmen, and manufactured of the best material, which we warrant in every particular. We have every encouragement to continue to ship our manufactures to the Island, and shall have on hand each year a supply of "Buckeyes" to meet the demand. They will be in the hands and under the control of our Agents, all of whom are reliable, and whom the purchasers can fall back upon for any misrepresentations.

The Machine will be on exhibition by our Agents hereunder named, who will be most happy to point out the difference between the two "Buckeyes" now on the Island, and thankful for past patronage, we shall continue to dispose of the Machine at the lowest prices, and on such terms as will suit all. Considering this explanation called for, to refute A. Booth's assertions, made either through ignorance or maliciousness, we are, yours truly,

F. P. CURTIS, Travelling Agent, For A. P. Richardson & Co., Manufacturers, Worcester, Mass.

AGENTS: W. D. STEWART, Charlottetown, R. T. HOLMAN, Summerside, C. C. CARLETON, Souris, GEO. ADAMS, Vernon River, JAMES DEWAR, Montague, July 8, 1868.

[ADVERTISEMENT.]

TO THE EDITOR OF THE HERALD.

Dear Sir,—I see in your issue of the 4th instant a communication by E. P. Curtis, general travelling agent for the sale of A. P. Richardson & Co's Buckeye Mowing and Reaping Machine, in which he controverts some of my statements made in my advertisement, and claims that his machine is the best, and that all the improvements are of his own invention, particularly the Open Gears. I am not conscious of making any statements that the facts will not warrant; and I do know this much, that A. P. Richardson & Co., never have made 100 Mowing and Reaping Machines previous to this year; and I also do know, that last year I went to their works and got 4 machines to bring to the Island, and requested them to set up and attach the Reaper Platform to the machine so that I could understand how to operate it. Four of their best hands went to work at 8 o'clock in the morning and at 6 o'clock they had not succeeded in setting up one machine. This Reaping attachment was fitted on to the machine with the same cutting bar and knives used in mowing, and cuts four feet wide; and which if placed before the farmers of P. E. Island, beside the present reaping apparatus attached to Adriance Platt & Co's machine they would not purchase a single machine. And I also do know that they went to Adriance, Platt & Co., last winter and got one of their new improved Reaping attachments and platform, and affixed it to their machine; next year I presume they will claim, through this young man, that it is their own improvement got up by themselves, as well as the lever improvement and interlocking movement made by Adriance, Platt & Co., not yet applied to their machine, but probably will be next season, if they can get it from Adriance, Platt & Co., and will be claimed by them as their improvement.

As I understand the facts to be in this case, (and I believe I am correct) the open gears were used and applied in the building of the first Buckeye Machines in 1857 and 1858; and on the No. 1 Buckeye Machines the patterns have never been changed, but this open gear is still retained as so few are used or sold of the No. 1 machines. And this old Open Gear Machine has always appeared to me like one of those old steam carriages used 50 years ago, in comparison to one of those new compact, covered buggy wagons, all trim and ready for use, of the present day.

And I have no doubt that if this open Gearing Machine now used on A. P. Richardson & Co's machine was brought to the market anywhere in the States and offered for sale alongside of the machines of Adriance, Platt & Co., they would not bring so high a price as the latter by at least from three to five pounds cash. The fact is, the Adriance Machine is the best machine now used in the States, and worth the most money—not but there is a good machine, and will do a good deal of work, but it has gone by, and has not got all of the latest improvements and could not be sold in the States.

As to the statement that each company owning the territory exhibits their machine there only, is no such thing. I understand at the national fair at Auburn, there were 59 machines entered for competition. Do you suppose that all those machines belonged to the Cayuga, in which Auburn is situated? but you will see that no machine of A. P. Richardson & Co. was represented there, and I do not believe one of their machines was ever entered at any State fair or exhibition in the States. Nothing beyond the County of Worcester ever heard of A. P. Richardson & Co's machine.

The idea to be advanced by this flippant young man, with the expectation of the farmers of P. E. Island believing that this small establishment which has never made more than 300 machines a year, until last year, and then not much over, would be likely to make the improvements that an establishment that turns out 8,000 machines yearly, and consequently are continually trying to get up new improvements, and that they do make these improvements, is preposterous in the extreme.

As to the Self Raker, I believe it is not only the best Machine but, in the end, the cheapest, as it saves the wages and feed of a man, and does the work better and more of it than the Hand Raker can do; and I have so much confidence in the working of the Machine, that any person wishing to try it, can have the privilege of using it for two or three weeks, and if they are not satisfied with its working, and wish to exchange it for the Hand Rake Platform, the difference in price will be paid them, and the Hand Rake Platform furnished them.

The farmers will find all the extra parts for the Manny machine, both for the base and iron bars at J. D. McLeod's Store, opposite the Post Office, North Side of Queen Square, and where I keep my office. ASAHEL BOOTH.
